Sam and Marco deal with one crisis after another in this sexy, sinful chapter in the best-selling Orgasmic Texas Dawn series. Crime and love collide, with both men wondering if destiny is fixed. Can a happy relationship be theirs?

Sam Channing has enrolled at FLETC for the rigorous seventeen week training program for US Marshals. Though Marco visits him when he can, their snatched moments together are precious few. Sam begins to realize how much Marco means to him, especially when he learns that his lover is working on a crazy case with wacko, drugged out Canadian movie star, Ezra Winters.

Things turn violent when Ezra's female co-star is taken hostage but Marco has plenty of backup. Sam gets to see his new Marshal family in action firsthand. In spite of everything, at heart, it's all about love and the extraordinary lengths the men and women of law enforcement will go to in order to defend and protect it.

Nanee's review:

Sam and Marco are back and sexier as ever. I absolutely loved this book. Sam is in his seventeen week training program to become a US Marshall but not everything goes as smooth as it should. Sam is threatened, propositioned and just getting really pissed and ready to quit but another trainee steps in and gives him hope. Loved Ronnie shes is one tough lesbian lol...Marco is on one tough case after another but he can't stop thinking about Sam. Their stolen moments and brief visits will just have to do because neither can give up on the other, I love their relationship what a 180 there lives are. They are a sweet and sexy couple. There's a lot of action, sexy as hell sex scenes and all the friends are together to work a case and support Sam the new member of their team. Can't wait for the next one...5 huge stars review by upallnightreadallday.blogspot.com

I liked this better than the previous two books. Still the same over the top scenarios, and our couple weren't together for much of this, but I felt their connection.

This story is part of a series and must be read in order. Sam has left the biker life behind him as he completes the FLETC training to become a US Marshal, but shaking off his past isn't as easy as he hoped. Marco wishes Sam would open up with his concerns but has more important things to worry about when a new case lands with crazy movie stars. As Sam graduates tragedy strikes and the US marshal's pull together to get justice for their colleagues.

Once again we are given an exciting instalment of the US Marshal's from *Orgasmic Texas Dawn* as they keep the peace and chase down the worst of society. We open up with Sam undergoing his training for the US Marshal's and seeing him juggle his way through as a fellow trainee tries to make waves and a trainer has it out for him. With Marco we see him taking up cases that are troublesome with idiot movie stars, and missing Sam desperately. We watch as both men make the best of the current situation and hot snatched moments as they quench their driving need for each other.

As you well know (you *have* been following the series, *right!*) Sam and Marco have had a bumpy ride but it looks like there is a light at the end of the tunnel. Both men have to juggle being apart and missing each other while Sam is training, but Sam isn't one for sharing his problems and as trouble is being caused for him he finds a solution that just might work. Marco might be able to pry some details out of Sam and admire the way Sam handles things but it doesn't mean he is really happy that Sam won't lean on him.

I really enjoy *At Heart* as we see both Sam and Marco really come into their own as a super-hot couple, they strike sparks off each other whenever they are together... or on the phone to each other. They find a great balance and begin to move forward on equal footing and they both make it clear how much the other means to them. We have excitement from all angles in this story with a shocking scene at the graduation party, mental drugged up movie stars, and jealousy and resentment playing their parts. We see all our favourite Marshal's *sigh* and it looks like there's a surprise in store for one of our fine Marshal's.

I recommend this to those who love US Marshal's hunting for justice, sexy bad boy bikers turning over a new leaf, passionate horny men and snatched moments, a great storyline and a wonderful ending.
