**Leanne says**

See you at the Beach!

---

**Sara says**

I know Jordan; he's a guy with a big heart. His story of how he went from broke to very successful through network marketing is pretty inspiring. The book is written more like an autobiography with lessons learned than a step-by-step how-to, which I think was his intent. The steps to success that he puts forth are pretty simple, but they work. He emphasizes attitude, relationships, a desire to serve, and consistent effort.

---

**Laurel Beck says**

Awesome awesome awesome. So inspirational to hear his story of struggle and success. Love how real he is.

---

**Don says**

I first read this book 2 years ago and I've listened to the audiobook a half-dozen times since then. I count Jordan as a friend, but even if I didn't know him from Adam I would say that this book gives an accurate description of network marketing.

If you're against network marketing, read this book —you've either gotten bad information or didn't use good information.

If you're on the fence about network marketing, read this book — it will help you clarify your thinking.

If you're in network marketing, read this book — again and again — to develop the thought processes you need to be successful.

---

**Sarah Churchill says**

An easy read with a lot of good points and inspiration. The author starts off by saying he didn't get a professional editor because he didn't want the book to be for 'really intelligent people' only. I can't say I agree with that, a little editing would have cleaned up some of the sentence structures and typos, and a professional would have been more than capable of keeping the tone of voice just as informal.

Regardless of that though it was interesting and another good perspective on the Network Marketing life to

take into account for my business. I'm not sure what businesses he's worked with, but while I agree with the fundamental idea of growing a team and delegating so you don't have to manage every person, I'm unlikely to be the type to sit on a beach and leave everyone to it. There's a lot to be said for support, incentives and teamwork too. I get the feeling he has a boss mentality rather than a leader, but maybe that's just me.

---

### **Ellin says**

Great read - tells it like it is - Beach Money is what we all need!

---

### **Kristin says**

If I needed to describe this book in one word, it would be "simple." That's what the author, Jordan Adler, had intended. I learned so much from this one-day read and yet it never once overwhelmed me. I love how he sticks with the basics of networking, making success achievable for anyone who can stick with it for at least 4 years and be consistent with the smallest and simplest of tasks. Now I KNOW we're going to do this and do it big. I'm convicted, inspired and excited!

---

### **Jeff Hexter says**

First book on network marketing that really resonated with me. Great section about how to work your contact list. Interesting bio of multiple failures until ultimate success.

Also, I do know the author, and he's a kind, decent, down-to-earth guy. He bought me coffee once at Starbucks... I was grateful to get the opportunity to return the favor some years later.

---

### **John says**

I think I quite like his style/philosophy/ideas/system.

ch. 16 = awesome

See you on the beach!

---

### **Christine says**

Didn't know what all the hoopla was about. There are other books about network marketing which are so much more interesting.

---

### **Nino Galloway says**

Very good and simple read!

---

### **Lori Hutchens says**

Seemed very materialistic drive for goals. If that is what you are striving for this is the book for you, it just rubbed me a little. I did take some good things from it:

If you cannot explain it to an 8 years or if an 8 year old can not explain it to me it too complicated

Keep it simple

Build a rolodex or network

Contact that network in a genuine way

---

### **Linda says**

#### **Great read!**

Great read! Kept me coming back for more. This great for anyone starting out or has been in it for years. Can't wait to start earning my Beach Money income. Definitely, going to be sharing with my team.

---

### **Darlene Hull says**

Great book. Even if you're never going to be interested in network marketing this book holds powerful truths for ANY entrepreneur. Practical, interesting, and inspiring. I recommend it.

---

### **Douglas says**

A real concise book on how to be successful in network marketing or multi-level marketing (MLM).

I love how the author cuts straight to the chase and gives you what you are looking for in just a few short pages. The book is rich in content and gives you the reassurance that if you stay committed to your goals, then you will hit your goal.

I just got this book today and finished it.

Excellent excellent read.
