Love This Series!

Mary is kind-hearted, intelligent and fun. I can't wait for every new installment in the series to be published. I'm hoping that the next volume in the Huntsman series comes out soon.

Mary Mary quite not contrary!

I can never get enough of Mary and the Freeport crew. This one is no different. I want more. Even though it wasn't hard to figure out the mystery I still love reading how Mary and Bradley go about solving the crime. I love all the interactions, the funny moments, the swoon worthy scenes between Mary and Bradley, and the wonderful heart warming and loving times between friends and family. And the heartbreaking moments when the families and friends of the ghost finally get closure, makes me appreciate the loved ones in my own life. And that ending LOL can't wait for the next book to see where that goes!

Mary E. Jung says

how does she do it?

Every book keeps getting better and better! I normally get bored or frustrated by book 17 of any series, but Terri Reid keeps me begging for more Mary! From the humorous Lassie references, to the daring suspect chases this book has it all. It's nice to see my husband isn't the only bacon fiend. And, Bradley just keeps becoming more heroic. I'm sure there isn't a better male character or real man out there. Mary always has her hands full. We are all wondering what's in store next...

I was actually really excited when I saw this book pop up on my kindle unlimited. I was really excited! And this does not disappoint. I didn't care for the first book, but have grown to love this series. I anxiously await the next book to come along so I continue on the adventure with the characters. Though the mystery part is never hard to figure out, that is not why I keep reading it. I just love the story and the characters. It's clean easy fun quick reads.

Wow there was so much to love about this book. I am a huge Mary O'Reilly fan her ghost busting skills are amazing, her investigative skills are awesome, she is an amazing Mum, Wife and friend Mary is just awesome.

Mary heads out to a cemetery to help ghosts pass on, you know ones who have been stuck for many years because they got a bit confused, what Mary doesn't expect to find is a dead body that has not been dead all that long, especially when it's a young girl and it looks like murder, good thing Mary married the local police chief...lol Bradley always wonders how his amazing wife does it, if it's not ghosts it's dead bodies she is such a trouble magnet but he still loves her.

Mary is 7 months pregnant and looking for a murderer, organising thanksgiving dinner for everyone and a surprise party for Clarissa so keeping busy is not a problem.

I loved this story a lot especially everyone coming for thanks giving dinner that made the ending of the books so good, that even though this mystery was mainly solved by Mary and Bradley with Stanley everyone else was there for the end celebration.

Love it!

This is another Winner! If you enjoy paranormal mysteries, you will love this book. I absolutely cannot wait to read the next one. I simply am not able to put Reid's books down. Or in this case my phone.

In the seventeenth book in the Mary O'Reilly Paranormal Mystery Series, a very pregnant Mary and her husband and police chief Bradley Alden are faced with the case of intern Ruth McCredie. Ruth is shot and killed whilst collecting evidence against a bio-tech, agricultural company she works for. Was her death an accident or a murder? When Mary meets her ghost and inadvertently stumbles upon her body, she has to help her find the truth.

I read this book as part of my #yearofindiewomen.

Terri Reid's Mary O'Reilly series is among my top three favorite series of books ever. I absolutely love this series, and when I stumbled upon it last year on Kindle Unlimited, it made my year. I blasted through the first dozen or so books in a matter of days. Whenever I see she's released a new book, it's like Christmas. If you enjoy paranormal mysteries, you should 100% check out this series. They are easy to read, uplifting, and fun. Her characters are like real people. They become your friends; you really start to love them and grow attached to them. There's not a single one of them that I don't adore. And each and every one of her stories leave you with a warm and fuzzy heart. They're about ghosts, yes, but they're really about family, and friendships, hope, and above all, love.

Now, about this novel in particular. 'Frayed Edges' wasn't my favorite of the series, but I still enjoyed it

because none of Terri Reid's books disappoint me. The Ruth McCredie's story line wasn't my favorite, but I loved the continuation of Mary and Clarissa's. True to most of this series, by the end, I was brought to tears. The scene with the quilt was just so very touching. Reid really knows how to write a lovely, heartwarming, family scene.

This is completely random, but one of my favorite websites is <http://mynoise.net>. If you've never been there, you should check it out. Calling it a white noise website isn't doing it justice, but that's the bare bones. It's an incredible site. It's an integral part of my writing process, so imagine my surprise and delight when I saw that Terri Reid had mentioned mynoise in 'Frayed Edges'! Super cool! I like to imagine her using the site while she writes about Mary and Bradley while I write about my characters.

I can't wait for the next book, and I can't wait until little Mikey is born. Mary is going to be such a good mother (as if she isn't already to Clarissa, but you know what I mean). I'm going to be so, so heartbroken when this series ends. I know it's impossible to ask, but please never stop writing about Mary and the clan, Terri! :)

A wonderful entry into the series!

Anyone wanting an entertaining afternoon read, should pick up Frayed Edges. Teri Reid is a master of suspense with a bit of the paranormal thrown in. The dialogue is crisp, the characters are well-defined and the plots themselves are always intriguing. I always enjoy her books and wish she would write faster!!

Another great Mary O'Riley book!

Teri weaves a wonderful tale. Her books always make me smile. They are warm hearted, with mystery and humor. The love of family and friends always plays a key role in her books. There is just the right amount of paranormal to make them very believable. If you have not tried a book in this series you are really missing out. Great read!

Mary O'Reilly is planning not only a Thanksgiving feast for her family and friends but also a surprise party for Clarissa...her first birthday with Bradley and Mary. But first, she is hoping to cross over some more souls from the Gund Cemetery, victims of a cholera epidemic in the late 1800s. But when she gets to the cemetery, one of the lost souls points out a new addition to their group, a young girl murdered and left in the nearby cornfield. Mary soon becomes involved in learning who murdered Ruth and why. I enjoy reading this series, filled with laughter, tears and love from Mary's friends and family. The mysteries are always intriguing and I enjoy the interaction between Mary and the ghosts she is helping. And I really loved the addition of rat ghosts to this story! I look forward to the next book in this series.

Barbara Hackel says

My son introduced me to this author because she wrote about my home state and her mysteries involved ghosts. He knew I would love it, and 17+ books later I have to admit he was right. Although I never lived in the Freeport area, I know of it, and somehow that makes all the mysteries more real for me! In this latest one, the scandal about modified corn and safety issues about eating meat that had fed on it was very interesting. The mystery of the actual murder was well plotted and I was surprised by the conclusion. I also like these books because they stress family and friendships, and include ghosts of family gone as well. Even though you read about the unsavory murder, you still end each book with a feeling of warmth and happiness. These are books that need to be read in order so you can learn the continuing characters histories and relationship to Mary O'Reilly. Each book becomes a visit with family and friends, I recommend these to any age reader who likes mysteries and ghosts and some unusual sleuthing.

Jo Ann Reinhold says

While trying to assist victims of a cholera epidemic from the past to find the light, Mary is confronted with the apparition of a young girl that has just recently been murdered. Mary knows that she has to help find the girl's killer so that she can move on and find peace.

Terri Reid, you never disappoint! If you haven't read a Mary O'Reilly Paranormal Mystery then I think you should....These books are full of mystery, ghostly apparitions and a whole lot of love, hope and heart! Great job Ms. Reid!

Lorretta Phillips says**I always love Terri Reid's books**

She did it again. I just finished reading Book 17- Frayed Edges and really enjoyed reading it. This book centers around Thanksgiving and Clarissa's first birthday party with her new family. Mary is busy helping the guests in the nearby cemetery move on when she is unexpectedly thrust into a murder mystery. I loved seeing the old friends back together, Ian, Stanley and of course Rosie. It's like coming home.
