**James** Emma Lang

The moments that define us are the ones we least expect to happen.

James Gibson spent his life trying to find his place in the world. The child of a feckless mother, abandoned as a boy, he was raised by his grandfather, only to lose him when he most needed him. Angry at the world, he struggles to find his path. Then he meets Catherine Graham.

Catherine "Cat" Graham is the hellion of her family, the youngest sister of eight children. She has bucked tradition all her life, riding horses like a man, wearing trousers, and refusing all femininity except for her long blonde locks. She isn't impressed by cowboy James Gibson, no matter how he made her toes curl when he kissed her.

When danger threatens both the Gibsons and the Grahams, James and Cat have to set aside their acrimony. Together they fight for those they love, and in the process find the other half of their souls.

### **Wynn says**

Catherine Graham's love for her horses takes her on a dangerous adventure, but out of guilt James is sent to bring Catherine home. Then the dangerous adventure for both includes, ugly bad guys, revelation of secrets and an introduction to a new intriguing character. I liked the story, but wasn't crazy about the unromantic and TMI sex scenes. Could've been better.

I was excited for James because I wanted Cat's story. I love Emma Lang/Beth Williamson and EVERYTHING is auto buy so I am shocked to have to provide anything less than a 5 on this book. There were just some inconsistencies I couldn't ignore. Overall though a great book and I'm excited for Ben's story because, well ... that brings the Circle 8 full circle.

#### **Very good reading**

Emma Lang writes with excitement that makes you read until you can't read any more. I read until my eyes hurt. I hope she writes another Circle Eight, let me know. Great reading!

James Gibson & Catherine/Cat Graham

I think this one was my favorite. Cat is all man. she wears pants and goes her own way. she is in charge of the horses for the ranch and when they are stolen she is livid. James is told to go find her and bring her own but she is hell bent on finding them and bringing them back. Cat confounds James and can't understand his attraction to her. Their adventure is dangerous but it gives them both a chance to see who they really are to one another. Turns out that the man behind the horse theft is the evil man who haunts Ben's past. she packs so much story in a small book. Well written and exciting.

Loved Loved Loved this book & series!!!

## **Jacky Faber says**

I think I enjoyed this novel the most of all the Circle Eight books. James and Cat were made for each other. Boy is Cat a feisty woman and James finally accepts her for being who she is: a cussing, trouser wearing, exceptional with horses, passionate, brave, and loyal.

The heat level with this one was R+. Pretty hot at times. Cat was not in the least inhibited regarding sex.

Also, more of Benjamin's story is revealed. He said he was a toy, but I think Emma Lang should have said straight out that Benjamin was a sex toy. I do not know why she is so vague about this, hinting about it through most of the novels. Since the sex in these novels are pretty explicit, I don't understand why Emma Lang beat around the bush.

### **Another hit for the Circle Eight.**

What a warm hearted story one the youngest sister that held her on with a family of eight. Looking forward to Benjy's story.

Book #7 of the Circle Eight series is about the youngest girl of the Graham family. She falls in love with James but their relationship starts off with the two of them not liking each other very much!! This was another book full of adventure, and I'm sad that the next book is the last of the siblings. I have thoroughly enjoyed the Graham family, and with the addition of the Gibson family, it makes this series almost perfect!!!!

Welcome by to the Circle Eight!

Cat has never been a regular girl. She wears trousers, cusses worse than any any man and is better with horses than most men could ever dream of being. Cat loves horses and her family but then she meets James...

James doesn't want a wife and avoids Cat at all costs but when someone threatens what Cat holds dear he will risk everything to help her and in the process save them both.

Love has returned to The Circle Eight are you ready for the ride?
