### **Marci says**

a bend in the road by Tess Oliver this was a short and sweet story of a girl that always had her path laid out for her, after 4 years away from the ones she loved. she returns back to her aunts farm to start where she left off. great short story

I loved reading some background to some characters I already loved. I havent read all the stories yet, but the ones I read gave me more of characters I loved..

I simply love the start to this new series. I am a fan of the Rebel Walking series so as soon as I seen this, I knew it was going to be a must read!! There is so much emotion in this book that you can literally feel it jumping off the pages at you. The connection and chemistry between Liam and Livi is unique and gripping. Their relationship doesn't start in a "normal" way, but the chemistry was hot, sparkling, and intense. The twist and turns of this story are ones you will never see coming. Hilary has most certainly done it again, but there is no surprise there with her talent! I can't wait to get my hands on the next book in this series!

### **Karen says**

I LOVE J L Berg's writing. You must read the entire series. I promise if you do you will be hooked as I am.

---

### **Mary says**

You can read this story alone, but if you are a J.L. Berg fan, you MUST read When You Are Ready first. This takes place between the end and the epilogue of the first in the series. Her stories will pull you in with smiles, tears, and twinges in all the right places. I can't get enough of her writing. I have become a J.L. Berg Junkie and she has made it in the list of my Favorite authors. Keep em comin Sweets.

### **Tiffany~are there TWINS in it? says**

I didn't read all of the stories because unfortunately some were parts of series I haven't yet read but plan on reading. I think in an anthology it's better to put the first story or a prequel in a series or a standalone story

instead, not a book in the middle of a series. It kind of sucks for people who buy it but haven't read some of the series that have pieces in this book. Overall however this was a great book for an even GREATER CAUSE and that in my opinion makes it a 5 STAR READ! My favorite stories were "Ready to Wed" "Max" "More than a Friend Request." "Determined to Obey" "Meeting Sin" "Don't Close Your Eyes" "Fate" "Choices" and "Leap of Faith"

This was a great collection of stories by brilliant authors. It was definitely worth the money paid for it, especially when it was also for charity. I love it when author's give back!

OK, Guilty, I purchased this book for 3 reasons, and 3 reasons only. Guilty as charged!!! The three reasons: 1. proceeds to the Pink Avon Breast Cancer Team (always a good thing). 2. J. L. Berg and 3. JB McGee. I'm sure that the other authors offer some wonderful stories as well, but these two had already captured me with their previous works, and I am hooked. First J.L. Berg, and her wonderful, heartfelt Ready series. If you are a fan of When You're Ready, you know the precious story of Logan and Clare and how they came together; Clare lost her first husband Ethan to cancer; she met Logan when she took her young daughter to the ER. Just when Clare thought that she had it all, Logan found out that he has a fight on his hands. Will Clare be able to fight with him? This story takes us to their island wedding and the joy and struggles surrounding it.

JB McGee had me with her fantastic This Series: Broken, Mending and Forgiven. Gabby and Bradley meet at a wedding; Bradley, the ultimate playboy, not wanting to settle down, as no one woman could be all things to one man. Gabby has been hurt and betrayed by love, she lost her Mother to cancer, her boyfriend and best friend went behind her back, and she has a strained and literally non existent relationship with her Father. Of course, Bradley is completely taken with her, and after a long and emotional journey, we leave them in book 3 newly married and off on the honeymoon. JB gives us the first couple of chapters of the next book in the saga, Trying; we are 6 months into the honeymoon phase, to find out that everything is not sunny and romantic. We find out that Gabby has a health challenge, that could completely change the course of their future.

If you are a fan of any of the authors in this anthology, I'm sure you are in for a treat. I will eventually get around to reading all of the other stories, but for now, it was definitely worth the cost for these stories from two of my fav authors.

This is an amazing collection of stories by an amazing group of authors. The stories were all interesting and entertaining with wonderful characters. This is a must read for 2014, you will not be disappointed.

### **Claire (Cem) says**

I bought this anthology purely because I wanted to read Jessica Sorensen's short story. And seeing as the proceeds are going to such a good cause, I thought it would be well worth the money. I hadn't previously tried any of the other authors work, so it was interesting to get a taste for some different works.

Of the 17 short stories in this anthology, I read 13 of them, DNF'd 2, didn't read 1 because of the authors warning about content (I knew I wouldn't enjoy it, so I really appreciated the warning), and 1 I didn't read because it's the fifth in a series, and I've not read the previous ones, so I skipped it.

The stand out stories for me:

Ruby and Finn by Maggi Myers. Very short, a snippet for a full book coming out later in the year, titled The Legend of Ruby and Finn. I really want to read the full book and see what happens!

A Bend in the Road by Tess Oliver. I really liked the characters in this one, and the story. It felt a little rushed in the second half, but I still really enjoyed it and would have liked more.

Meeting Sin by Emily Snow. A snippet of 'Wrecking Me' Savor Us vol. 2 which releases in the summer. I really enjoyed this short, and I've already bought book 1 of this series to read, but I'm more excited to read the full story with these characters at the center.

Seduction and Temptation by Jessica Sorensen. Sins 0.5. I really enjoyed this prequel. The full book is due out in the Summer and I'm really looking forward to discovering what happens to the characters from this dark beginning.

Overall, I think this was worth buying, even if I didn't like half the stories. It's got a bit of everything. While romance may be the focus of each story, they're all very different, with some very different tastes catered for. So hopefully any romance reader will enjoy at least one story in this, and with the money going to a good cause, why wouldn't you buy it?

### **Michelle Rene says**

So first off, purchasing this book contributed to a great cause. So think of it as a bonus that you get seventeen stories with your purchase. Some stories are longer than others, some give you just a taste so you can get the full story later. But one thing is for sure, you will be adding these authors to your to be read list.

**Lindsey Brooker says**

Oh cj Roberts!!! How I love you!! I got to be inside kids head! Who could ask for more?!?

---

**Kimberley says**

It's a 2star because the writing was ....passable.

Buy this for a "good cause" .....JUST DON'T READ IT!!

So, when I "heard" about this (apparently) amazing book coming out for a "good cause" .... I snatched it up!!

What I DON'T appreciate is the manipulation by authors, to write a partial story, so that they can get you to buy a next book, or even a book that gives you more of a story you just read.

I would rather pay more for one FULL book that was going to a great cause, than manipulated.

LESSON LEARNED. Thankyou. I will now refrain from purchasing any more "bundles" for a great price, or a great cause.

A Bend in the Road by Tess Oliver

This was a short, sweet novella that you're bound to love. I really hope to see more Ryder and Janie in the near future, cause this was such a tease.

There's nothing like a girl coming to her senses with a sexy, tattooed cowboy.
