Saving Savannah

Sandra Hill

Saving Savannah Sandra Hill

When Tante Lulu decides to matchmake, matches are made. But this time, her meddling Cajun charm will be put to the test...

For five years Savannah Jones thought Special Forces Captain Matthew Carrington died in Afghanistan. For five years he thought she'd rejected him - thanks to his mother's interception of the letter she wrote to him as he left on his tour of duty.

Now she's struggling to rebuild a life for herself and their daughter, Katie, despite the devastation Katrina wrought on New Orleans. Thanks to Tante Lulu and her police-officer great-nephew, Tee-John, Savannah and Matthew are about to be reunited.

Will Tante Lulu's bayou wisdom and sassy attitude be able to turn their broken relationship into a loving gumbo?

From Reader Review Saving Savannah for online ebook

SexyBookTimes says

Originally offered as a free short on Sandra Hill's website, the new release has been lengthened and updated (so updated it contains a Miley Cyrus twerking reference). The story is okay. I like the basic plot premise, but as is the case with most short stories there is not a lot too it, which is ultimately kind of unsatisfying. If you're a fan of Hill's Contemporary Cajuns Series it's not a bad read, but if you have not read any of the other books in the series, I would give it a pass as Saving Savannah kind of reads like one big inside joke as the story is full of one series reference after another. For me the book is also overpriced for its length (\$3.99 for 60 pages).

Debi says

I received a copy from Netgalley and the Publisher for honest review

Saving Savannah is a short ebook. Amazon lists as 60 pages. I have read another book in this series and if you like southern fried books with eccentric characters...try the Cajun series. Considering the length, the story did a good job tugging at my heartstrings.

Savannah came to NOLA for a new life with her daughter. Katrina has washed away her dreams and now she's struggling to save the money to for to move to Alaska. Tante LuLu discovers mother and daughter are down on their luck and knows divine intervention is needed...as well as a healthy dose of her meddling.

Matthew is a POW and Wounded Warrior that comes home to learn his parents have bullied his fiancé into running scared. He's devastated to learn he has a daughter, but no one knows where to find them. He's about to find out that the LeDeaux's have taken them as family and no one's life will be the same.

Tante LuLu and the LeDeux Cajun clan always have a spicy but sweet story to tell.

Funny & Sweet

This is a winner! Tante Lulu is back! Fast paced and laugh aloud funny. Well written with a big of magic included. The story line is unique and you will be sad when you've turned the last page. A few loyal readers may remember this book from Ms. Hill's website – this is a new, longer version – with a new ending! Enjoy! NetGalley and Bell Bridge Books provided an advanced review copy of this book in exchange for an honest review.

Shanny says

Maybe two years ago I was introduced to the fabulous writings of Sandra Hill. She literally has something for everyone, and finding her was one of the best things I've done, as a reader.

I would recommend any book she's written, including future stories. This series is one of my all-time favorites, and I've read more than my fair share. I'm on Sandra's mailing list and was so happy to see this book come out. I didn't think I'd hear anything more of Tante Lulu, and boy, was I happy to be wrong.

Check her out, you won't be sorry.

Bobbie says

I am a huge Sandra Hill fan, and have been reading her Cajun books with Tante Lulu for many years....way before ebooks. I am so glad to see her continuing to give us more of the Bayou and her Cajun family. This was a short novella that really wasn't about any of her family but Sandra Hill managed to weave a cute story involving all the characters from her previous books. Reading this was like visiting an old tv show that was having a reunion episode. Absolutely glad I read it and would love if Sandra Hill would write another full length novel involving these characters! If you have never read any of her Cajun books, I would start with some of her earlier works, but this cute novella is definitely a stand alone.

This ARC was provided to me by Netgalley and Bell Bridge Books for an honest review. Thank you for the opportunity.

Terri Shortell says

Saving Savannah

Tante Lulu is at it again. This story really pulled at the heart strings. It still had the humor of all the Cajun stories and had you rooting for the main characters. I loved the story and would recommend it to all Sandra Hill current fans and her new ones. If you want a quick read to see how well Hill writes, this is the one for you. I bet you'll become as hooked on her books as I am. Happy reading!

The_Book_Queen says

Title: Saving Savannah

Author: Sandra Hill

Genre: Contemporary Romance

Series: Jinx Series (Prequel)

Length: E-Book short

Summary: Sorry, there isn't one! But to give you a bit of a clue, Savannah fell in love 5 years ago, when suddenly her fiance was sent off to war. She later finds out she's pregnant, and tries to write to him, but her letter didn't get to him until 5 years. She's moved on, since his *witch* of a mother made her believe that he had died instead of being a POW, and kept all of Matt's letters to Savannah. Now he's finally home, and with the help of Tante Lulu's meddling, he's found his love and his daughter.

My Thoughts:

This was an e-book short that I received for free from being on the author's mailing list, a sort of prequel for her upcoming novel, *So Into You*. It's not very long, only 31 pages, and it was a bit rushed (but what short story doesn't feel that way, right?), but all in all, it wasn't a bad read, and I enjoyed parts of it.

The characters, while not developed very well in this short (but this is part of a series, so I'm sure they are better developed in the other books) did grab my attention, and I'm curious to read Hill's other novels. The meddling aunt sounds like an interesting person, always poking her nose into other people's business!

3.5 STARS! Witty at times, a bit touching at others (love rekindled after a troublesome mother keeps the two from being able to find each other). Just enough to 'whet the whistle' as they say. If you get the chance to find this e-book short in your inbox, go for it-- it may not be the best romance out there, but it's a charming enough shorty to tide you over until you find her other books. And if you can't find this novella, then read her other books-- I've heard good things about them, from her Viking Series to her contemporaries, I'm sure you'll find something you'll like! ;)

Pamela says

Saving Savannah is book .5 in the Tante Lulu Adventure series. It is a decently written romance novella.

This novella is filled with heart warming characters and good feelings. What it doesn't have is conflict or depth, which makes it a somewhat dull read. It ends with a HEA.

If you are looking for an uncomplicated, short romance with sweet characters, then I recommend *Saving Savannah*.

ARC provided by the publisher via Netgalley.

Crazy for Books (Stephanie) says

ARC provided by NetGalley for an honest review.

Not well written structurally, but cute idea.

Ann Lorz says

This was such a sweet story. I know it was about Matt and Savannah, but as always Tante Lulu took over. She is a force to be reckoned with. You feel so bad for all that Matt and Savannah go through and are happy for the ever-after.

Janet says

This is a short prequel to Sandra Hill's next novel, sort of a place-holder, if you will. As such, it serves it's purpose. It will keep series regular readers interested, and if this is the first thing you read, it will probably entice you to read the series.

It wasn't a bad read, just a tease. It was sweet, witty, chuckle worthy, quick and worth the read.

*I received my copy from NetGalley.com in exchange for an honest review.

SheLove2Read says

Great little prequel to Sandra Hill's latest book. This is an ebook that Hachette sent out to members of their email reminder list. Great story! I absolutely loved it.

gary theinert says

A roaring good book

This is one of the funniest stories ever. I can hear Dante Lulu li!e she is standing right here. Every page had me laughing out loud.?

Linda says

Loved it!

Another great Tante Lulu match! I liked the main characters and I loved that the old characters from the previous books, which I also enjoyed very much, were included. This was a great short read.

Jen says

Cute story, AWFUL writing.
