Scandalous

Alexis Angel

Scandalous Alexis Angel

She's my stepfather's forced bride, fifteen years older than me...and the mother of my child.

She thinks I'm cocky and arrogant, but I know she can't resist my touch.

She's entirely forbidden. Too risky to touch. Too taboo to taste.

My father is blackmailing her to stay in a loveless marriage, but f*ck him, I'm going to claim her as mine.

She thinks she has too much to lose, but I'm the one with the most to lose if I can't save her from him.

I don't care if she says she's older and wiser. I'm younger, stronger...and harder.

I'm going to take her and my baby and we're going to be a family.

No one can stop me. Not even her.

Scandalous is a full-length standalone romance that will have your naughty bits twitching with delight. No cliffhanger. HEA guaranteed.

From Reader Review Scandalous for online ebook

April Symes says

This story focuses on the Mayor of New York's new step wife and her new step son. Jocelyn has been married to the mayor of NYC for 6 months. Her father told her if she didn't marry the Mayor then something terrible would happen. She gives the look of perfection, never steps out of line yet her husband hasn't touched her once during her short marriage except when in public. Enter her stepson Lance. He comes home and boy is he hot! She finds herself very attracted to him. Lance sees there is something off about his dad and stepmom's marriage and tries to be a friend yet at the same time, he finds he is attracted to his new stepmom. He can't help it and the two try to fight this crazy yet beautiful attraction but their passion is too strong and it explodes into sparks neither could contain.

This story is about falling for someone society wouldn't expect you to be with and how when love hits, it hits with intensity so look out and don't just conform to who society says you must be with. Love who you fall in love with, not whom society wants you to. That is the message I believe this story gives. I enjoyed the flow of this story and the chemistry between the MC. I SO disliked the stepfather/husband in this story. He was a evil kind of guy. I ever wondered if he truly got his competence.

My Rating: 4.7 stars *****

"I voluntarily reviewed an Advance Reader Copy of this book in exchange for an honest review***

Michelle says

Wow! Alexis writes some hot stories. I love all these guys from one57. If you haven't tried her books you need to get one, doesn't matter which one because all of the ones I've read are hot and steamy. The story about Lance and Jocelyn is at the top of the list.

Melinda G says

Definitely Scandalous. OMG

Lisa says

Ok first off in the beginning she uses the term lust muscle- I love it. And at one point they mention sweet November, which is a movie I LOVE.

Ok enough random thoughts, here's what I think of the book. Alexis really knows how to build a moment and bring the heat. The relationship that grows from the insane chemistry between these two is sweet and I loved it. I don't like books with cheating, I don't like older woman/younger man situations. But first off, it's not really cheating or it doesn't read that way, just trust me. Second, Jocelyn is only 36 so not really an older woman, just older than him. I loved this sexy sexy book, had some humor in it too. I did receive an arc, btw.

Armenia says

Too much of a good thing3.5 stars!!

Like too much chocolate. But oh, how sugary, decadent and delicious! *Scandalous* offers up corrupt political dealings, blackmail, and betrayal. *Scandalous* includes an older woman, younger man, taboo, and forbidden romance that I've been waiting to read.

I enjoyed reading about Lance Anders and Jocelyn Carter's story, and I liked the characters they portrayed. *Scandalous* promises hot, hot, smexy goodness that makes you want to change your panties every half hour and break out the B.O.B along with extra AA batteries. But alas, like too much chocolate I was left with a pounding tooth ache. Too many sex scenes, albeit very enticing, left me bleary-eyed, and I skimmed some of the scenes from the middle of the story towards the end. It's something I try not to do, because you know, I love smexy goodness in my romances. Huh, I was like, whaaaa? Again? Dayum! Okay. I was very much impressed with Lance's sword length and his stamina.

Don't get me wrong, I liked this story, but give it less stars for taking my focus from the story, and the toothache. It would otherwise be a great story. On the up side, Ms Angel gave us a surprisingly kick-ass ending for Jocelyn and Lance to get their HEA. I loved how Lance stepped up to the plate when he learned the baby was his, and for Jocelyn to become a stronger heroine. They secured their future with class and finesse, without getting smeared as cheaters in the eyes of the media, and Michael Anders got what he wanted, too.

I recommend *Scandalous* for those romance readers who want lots and lots of pages of lusty, smexy goodness with their stories.

I voluntarily reviewed an ARC of this book.

Moriah says

HOT!!! Another awesome book from Alexis Angel and this one was smoking hot. So steamy and sexy. I can't wait to see what she comes up with next! I voluntarily reviewed an advance reader copy of this book.

Katrina says

What did I think? my thoughts were holy crap, it was hot. My only peev about this story was that the main character kept referring to her age difference between the characters...GIRLFRIEND...who cares! Enjoy the ride with a younger man...(which she did) but quit bringing it up.

Amy Barber says

It was an ok read, the story line could really have been a full length novel with lots of details, but that's not what these stories are about. The author herself says in one of the notes that it's a **cking story or a story about **cking...same difference. So, if that's what you are looking for, this one isn't bad, I read it as a bonus in the back of *Mergers & Acquisitions* which I thought was a better story. There are lots of things that don't make sense but they have to happen for the sake of the story, which just doesn't work for me.

Penny Leidecker says

If you're looking for over-the-top sexy times, look no further than one of Alexis Angel's books. All of her books are STEAMY and she didn't disappoint with this one. You will love this older woman, younger man book. Lance is so HOT, HOT, HOT!!! This is a book full of sexy times between Jocelyn and him, but it also tells a story concerning his stepdad Michael and his bid to win his second term as New York City's Mayor. I won't leave any spoilers, so one-click and see what lengths Michael goes to to ensure that happens. Everything isn't as it seems, lol.

MacKenzie Paxton says

The whole step-mother thing isn't my gig. I gave it a shot but couldn't do it. I like conflict in my books but waiting for them to get caught constantly wore me out. DNF.

Again, this book starts with the H with another woman. He's a HUGE manwhore. She's not a virgin but she's married to his father (by force/blackmail) and his father is apparently homosexual and hiding it, so she's not getting any....

Michelle says

This was a great read a hot steamy and told to leave him alone I am married to a man in a love less marriage I am being blackmailed and have to stay married to him he does not love me or any thing then his son comes home in the summer and I really want to be with him but I can't I have one night with him and I told him we cant do this any more and then I am getting threats from someone else what do I do and his son says he loves me oh am I in trouble good hot steam read so worth it oh yeah I voluntarily reviewed an advanced reader copy of this book. Michelle

Nickole says

I rcvd an advanced reader copy for voluntarily providing a review. holy moly what a ride!!! definitely keeps you on your toes, not to mention makes any red-blooded woman head for a cold shower. we meet jocelyn, who is told by her governor father that she has to marry Michael anders, the current nyc mayor. Jocelyn agrees bc she is a good daughter abd will do anything for her dad. Michael is only marrying jocelyn as a

political pawn to get votes. one thing jocelyn didnt count on what michaels stepson lance. the body of a god and only 21 yrs old. he makes her feel alive but knows its wrong to do anything. lance feels the same way but a day of shopping ay Saks leads to hawt animalistic sex. there are many secrets, some of which turn into threats being made that plan on disrupting everything. what will jocelyn do to stay happy? will lance go back to his philandering ways? what about Michael? does he harbour secrets? only time will tell as you read this explosive book!! 5+ stars!!

Toni Lewis says

Wow there is only so much hotness a person can take and let's just say this book is scorching ... Lance comes back home to his step father's house to stay but that is when he meets his step mother . His father is the mayor of New York and once Lance realized his father forced her to marry him there was no hold bar ... loved this book

Doris says

This makes naughty feel ok. When your husband only wants you as arm candy out in public and for no other reason you may find a man who actually wants to be with you for many reasons close by. That's what Jocelyn needed in her life...her step-son! This book made you feel that the step-mother/step-son relationship was one that you were rooting for. This was a well written book that won't let you put it down because the chemistry is off the charts.

I received this book as an ARC for a freely given honest review.

Shannon Davison says

This was one heck of a ride. I'm really enjoying the younger man/older women storyline. So many secrets and naughty things going on that I was glued to my kindle until the book was finished. Super steamy! We all need a Lance. I voluntarily reviewed an ARC of this book.
