When Hugo and Neve settle in Paris, they assume that they will enjoy a few peaceful years away from the turmoil of British politics, but they are not nearly as safe as they believe themselves to be, especially since everyone has something to hide.

Meanwhile, Max must learn to adapt to life on a sugar plantation in Barbados, and decide whether to accept help from an unexpected and dangerous source; a decision which may cost him his life.

Loved it!

Full of adventure and excitement. Poor Max though I felt kinda of bad for him. This entire series is just fantastic. I can't wait for the next book to come out.

Like this series

I've read several books by this author and enjoy this series and it's characters . I'm glad she's continuing with it . The characters are likable and interesting and the plot keeps me interested . Looking forward to summer.

This entire series (Wonderland) is epic. So many richly defined characters that span years of time. Fans of Outlander will love these novels in the Wonderland series. These are hidden gems. Listening to the series narrated by Eva Kaminsky who is a fantastic voice actor.

Loving this series!

I just love these two characters. They at perfect for each other. I'm looking forward to the next book and what adventures they take

Kate Eminhizer says

Another electrifying book in the series. This one focuses a lot on the character Max and introduces some intriguing elements. Trials, tribulations, self-discovery and sacrifice are just some of the tantalizing prospects that the characters are faced with. Very enjoyable.

Krista Wilson says

Lots of substance and Book kept me entertained, a lot more action than some of your typical time pieces (and

a lot less than your fantasy's). I remained in love with our main characters and loved reading everyone's relationships. This was a slower read for me, just because I'm used to reading high fantasy with a lot of action, but this is a beautifully written (and steamy) time jumping piece. I wonder if I'll read the next one only because this one didn't end with such a cliff hanger the way the others did, therefore I could choose to not read on and be perfectly satisfied with how it ended. We shall see, I'm sure when I'm in the mood for a slower pace I may return to Wonderland ;)

I can't get enough of these books. Every one is exciting and leaves you wanting more. What a thrilling series.

Frances Law says

Not enough action.

For me this book ran out of steam a third of the way through. It just became boring. I'm sure that many people would enjoy it though. I might get back to it at a later date.

The problem with series books

Personally, I lost interest in the characters half way through the book. I was more interested in Max story while he was exiled to Barbados, but his time on the island was too short. I was over Hugo and Neve's storyline. The story just goes on and on and then drags into another series book. Probably will not read the next series book.

Monica says

I am really enjoying this series. It gives me my fix for time travel. In this one the author alternates from Neve's point of view, Max and Frances. I had a couple of moments while I was reading this where I really think Neve is dumb to stay in the 1600s but I understand that she is staying for Hugo. Overall there was a lot of action and I am looking forward to the next one.

Anne says

Not as good as the first book but still a nice read.
