## Unholy Trinities Auburnimp

Love and War come in threes.

Three is the big number in Samael's world.

Since Metatron rose against the Fallen, there is the possibility of three way war between Heaven, the Fallen and the demons of the Pit.

Then there's the love triangle between Lucifer, Raphael and himself.

And now Raphael is in his home at Daniel's request and Samael doesn't know what he should do about it.

The third enstalment in the Fallen Angels series tell us abut the reunion between Samael, the Angel of Death, and Raphael, the Arcangel of Air.

After being judged guilty from the Heaven Angels, Raphael is waiting the death penalty when he is rescued by Lucifer and Samael. After that it seems pretty normal to all of them that Raphael will stay with Samael on Earth. Normal also to the mortal lover of Samael, Daniel. But they have to find a way to live together and Daniel knows that the love between Raphael and Samael is a more powerl and everlasting of everything he can have with Samael.

But the plans of Lucifer are not finished yet...

This one is only another chapter in a continuing story. The second enstalment was very interesting and has opened a lot of would-be stories. This one is more or less a continuing of the previous story, and adds only a piece to the puzzle: I see it more like a connection point between the past and the future and will wait for next chapter to see more.

God's name is actually Metatron? Cracked me up. In this installment the war between heaven and hell is looming closer and sides are being chosen. I hope the mortal, Daniel, plays some amazing role in this.because I hate how he is coming in second. Angels having threesomes is just so strange to me.
