## 24 Tie-Dye Techniques: Free Tie-Dye Patterns Prime Publishing

When you think of tie-dyeing, you probably think back to your time in summer camp, wrapping t-shirts with rubber bands, dipping them in dye, and ending up with a splotchy t-shirt and stained hands. Take a peek through this eBook and you'll discover that there is much, much more to the world of creative tie-dyeing! There are so many different tie dye techniques that you can learn, so if you're interested in creating a specific design or pattern on your t-shirt, peruse our technique chapters and discover how simple it is to create them.

## **From Reader Review 24 Tie-Dye Techniques: Free Tie-Dye Patterns for online ebook**

### **Katherine Gonzalez says**

#### **Ok**

I think it was ok it told you how to do tie die but the could of showed pictures what it looks like at the the very end

### **Sonia Frontera says**

#### **Fun projects**

24 Tie-Dye Techniques:Free Tie-Dye Patterns by Prime Publishing is a lovely book, wonderful projects, well explained. Can't wait to try them.

### **C.C. Earthly says**

#### **A complete waste of time**

Want to learn to do a beautiful animal print the dye on a dress? But this Brand Name Animal Print The Dye Kit and follow the instructions in the kit! Seriously, this is half of the book. The other half is how to do resist patterns but there are no photos of the finished items. A complete waste of my time.

### **Barbi Faye (The Book Fae) says**

This e-book claims there is more to tie dying than what you recall from summer camp; this gives actual techniques than relying on rubber banding. Woo hoo!

### **Megan says**

#### **This book has really neat tie dye techneqes.**

I chose this rating because this book had some tie dye ideas that where really neat and that I never heard of. I liked the animal print tie dye dress that one looked really neat to me. I would recommend this product to anyone who wants to have something tie dye.

### **Autumn (Triquetra Reviews) says**

Picked this up because it was free.

Cute guide to tie-dye, I'll probably reference this when I actually tie-dye something. Some new patterns, some things that you probably already know.

### **Cynthia Gutzwiller says**

This book is full of good ideas and step by step instructions. I have never heard of a dye pattern for a leopard print. Many of the projects are made using kits. It tells you the name of the kit and all the other supplies you will need. Projects range from stenciling and painting to the time honored rubber bands. There are pictures, this is my major complaint about the book. The pictures are hard to make out. I did not see a picture for every finished project. I looked for the kits while deciding if this is something I might want to do. I found some reasonably priced on Amazon.

Good Luck.

### **Heather Collins says**

#### **Utterly rubbish**

I'm so glad that I didn't pay for this book. It doesn't teach or show you anything that isn't available on a Google search! You will have to go out and buy specialized dye kits to do any of the "tie-dye" patterns anyway. But then again it is free I suppose.

### **Melody Johnson says**

#### **Good Patterns!**

#### **Good Patterns!**

Good Patterns placed in the book. Was hoping for even more simplistic pattern ideas. But after all the book did say 25 tie dye patterns. Overall, good book!

---

### **Louise Mason says**

#### **Not bad for a free book.**

Good ideas but could do with more illustrations or photos or both. If you're a visual person it may be hard to trust understand the methods. But for free you cannot complain! Would recommend to others on the basis there are some good ideas

---

**Renee says**

**Huh**

there are some cute ideas, but there should be more pictures to refer to and a picture of the finished project..

---

**Jessica Gilbert says**

**Awesome**

Awesome, I love these techniques and designs. I was able to get a bunch of wonderful ideas for other projects
