## **A Delicious Taboo Plus Two** Jennifer Cole

For two years following that first explosive weekend of carnal awakening, Melanie and her four gay lovers have settled into a comfortable life as a family. And as far as any the five lovers are concerned, life just doesn't get any better!

As they approach their second anniversary, Melanie, Calen, Van, Jake and Philip are about to have their world turned upside down. Will the introduction of two more be a catalyst that blows this family's perfect world apart?

Note: This book contains explicit sexual content, graphic language, and situations that some readers may find objectionable: Anal play/intercourse, male/male sexual practices, masturbation, menage (m/m/f with homoerotic interaction).

## **From Reader Review A Delicious Taboo Plus Two for online ebook**

### **Lidia says**

After two years Mel is still happy together to her four boys, the sex is great but one news upset her. She is pregnant. The story become more interesting and funny and sweet . As ever togheter the five, face all problems and fears. Original the final . Lovely,exciting, hot ,sweet, this books speaks the one lifestyle inusual but not for this them are less normal or aren't a family. So one menage, two cople of bisex and one woman ... and babies are la guarantee of nice story.

---

### **Mel says**

After the first book being so hot I was expecting this one to be better. It was good just not nearly as good as the other.

---

### **Brandy says**

I actually thought I was reading the 1st book in this series but my e-reader got them mixed up, but for me to have come in basically in the middle of the story it was easy to follow. It was okay but for me Melanie was a bit of a basket case. Maybe had I read the first one I would understand her character more, but I didn't so this is the best review that I can give.

---

### **Soumi says**

This is a book that I DID NOT READ. I tried to get the jest from the reviews but they all seem shady and don't want to put any spoiler. Come on dudes and dudettes as if this book can be spoiled any more than it already is.

Mind you I am no prude at all, and I like a menage book just like a CH one, but still there is a certain level of writing needed for it to qualify as a book and not a set of words behind each other, or at least the plot has to make sense and the characters be not so confusing.

PLUS it is for \$5.99 on Kindle SERIOUSLY \$6 for this piece of crap.

Thanks but no thanks.

---

### **LaFleurBleue says**

This is definitely the sequel to the first one.  
The hot scenes remain more than steamy.

The plot gets more and more far-fetched, especially with the revelation at the end that always makes me rolling my eyes. The characters do not get really deeper.

### **Dee says**

3.5 Stars

---

### **Sassafrass says**

I did like the sequel to A Delicious Taboo. They are still doing the 2+1+2 thing, and it's working for them. It's interesting to see how everyone reacts to their "additions". Overall a cute story, and the sex was still hot too.

---

### **Judith says**

A sequel that seems to surpass book one--Melanie and her four gay lovers have formed a polyamorous family that seems to be working for them, and one that has encased her in an unending shower of affection and loving that has overcome her negative self-perception and built a sense of worth and confidence into her being. Now, however, the family is going to be changed irrevocably and in a way they all least expect. It is a very fun story and all the characters are individual and unique, maintaining their own identity even as they participate in this blended family.

---

### **Lauren says**

These books just got better!

After a couple of years together everything has fallen into place. Everyone is happy with the arrangement and life couldn't be better. Or could it?

Melanie starts to become ill with dizzy spells, sleeping a lot and lack of appetite. The men are all concerned but she assures them she is fine. After collapsing at the bar, she is rushed to the hospital where the men are pacing the floor.

The concern the men have for her is overwhelming them and Melanie. She keeps telling them she is fine, but she isn't. She is scared and because of her past the situation becomes a nightmare to her.

I love this ending! There couldn't be a more perfect way to end a book!

5 stars

---

### **Camille-Dhark Nytmhare says**

This is porn posing as a love story. Sex is decent but the cluster f@#k scenes were confusing. We have no idea how the characters look. And sometimes the story was as predictable as a tv sitcom. Lots of eye-rolling moments that I found myself skipping pages.

The sex scenes were unremarkable and really not as detailed as I would have expected. No one got their cookies tossed or their kitten stroked.

This story is not the best book to choose as your first foray into menage.

---

### **Kim C. says**

Cue the eye rolling. This second book in the series seemed to focus more on the one on one relationships rather than the group. The additions to their family were fun to read, and of course we end the story with the cheesiest eye roll. No drama in this story.

---

### **Tasha says**

This one picks up some years later after A Delicious Taboo, with all five lovers now living together. Melanie and her four lovers are all happy and content, but Melanie hasn't been feeling well. Each of her lovers have all noticed her bouts with illness but she assures them all is well.

In this follow-up, you get a little more of the characters and their personalities than you got in the first. A Delicious Taboo Plus Two contained all the hot sex as the previous book, but more in the way of one-on-one instead of the group setting.

You witness the love they feel for each other on an individual basis. Plus there is also some appearances from the guy's families as well. It's interesting to see how their parents and siblings react to their unorthodox relationship. And there also is an introduction of some friends of theirs who share their same lifestyle. It wraps up the loose ends where A Delicious Taboo left off. A nice, neat conclusion to their love story.

---

### **Sloane says**

Sorry if I spoil the book for you.

There was a lot of sex and little communication. Yes, she had reason to believe she was unable to have children, but she never recognized the signs of pregnancy. And the guys never shared how she was fainting every other day, even though they were concerned about it in the moment. Because of this annoyed me I give the book 3 stars. But if you want a lot of sex, you'll enjoy this book.
