Dark Passion Bec Botefuhr

THIS BOOK IS NOW CALLED DARK POISON ON AMAZON. This book contains adult content 18+

It's not your typical happily ever after kind of book, it's dark, beautiful, dangerous and heart wrenching but who can resist a dark, hot, dangerous man? Consider yourself warned!! Willow didn't have an easy life. Her Mother's in a mental institution and her Father's dead. When she finally feels like she's moving on, darkness invades. Jagger is part of what Willow likes to consider a gang. When he captures her and reveals that her Father is alive and is holding vital information, everything she ever believed is turned upside down. Now she's trapped, put in the middle of a gang war and being held captive by a dazzling and beautiful man. Jagger has the power to change everything she's become, but he also has the power to destroy it... So what happens when Dark Passion ignites between them?"

Diana says

Me gusto bastante. No sé, amo los libros de este tipo. Con mafia, muerte, asesinatos, secuestros, romance y **Bad Boys**

Amirah says

Woah, umm well I guess I may really be doing a review for this after all. What an annoying cliffhanger. Ugh. That was just pure annoyance. What a weird cast of main character too. I guess not all of the characters were that bad, but I think a few minor improvements on the heroine would have been great. Thanks. Hmm I guess I will just give a review of this as soon as I'm not that lazy. I mean it is 1.30am over here, and luckily I have the other 2 books in the series. So overall it deserves a 3.5/4 star rating. Eh not bad. Alright gotta go! Review shall come soon!

(UPDATE)

HERE'S THE REVIEW

Okay, so i am finally doing this review. Ugh, it took me the whole day to prepare for everything. And now it's already 2.22am over here. And damn damn damn, I'm already getting drowsy and sleepy. Oh well, let's get it done and over with, before i pass out half-way. Oh, and apologies on my behalf though, if i may have seem to have gotten some of the things wrong or mixed up. Can't seem to REALLY remember much to further elaborate on some of the scenarios in this book. Must be because it was my conscience blocking out all of the negative emotions that were literally pouring off from this book. Hehe. Alright! Let's get back to business and hold on tight guys, because this is one hell of a roller-coaster ride.

This book tells the story of Willow. A young, beautiful, tortured and fragile soul. She has a lot of issues growing up because her mother was not very stable in the head. *That* unstable state of mind has also caused some very unforgiving deeds to happen to Willow that were very luckily stopped (abruptly). This then caused her mother to get administered into a mental hospital. If you try including a very uninterested-distant workaholic father who has silently despised his wife because of her impregnation of a child with another man whilst in instability, then that makes for a very torn and unhappy family.

So let's meet Willow.

Beautiful isn't she? What lays on the outer for her is definitely just for show. As she matures into a young woman, she gets into a (view spoiler) relationship. Things then started going downhill from there. After dealing with what had happened, she begins to self-mutilate herself in hopes of releasing the pain that was caused to her ever since she was born. Willow's a very depressed and fragile young woman who believes that her *birth* was the *cause* of downfall for her family.

One day, her best friend Ava brings her out for a night of fun in hopes of reviving her spirits and happiness. As they enter the club, Willow meets the very mysterious, tall and handsome man named 'Johnny' who wants to buy her a drink. Stunned, she accepts because she's intrigued and surprised at the same time that a man as attractive as 'Johnny' would want to buy her a drink.

What the heck, right? What could a man as *attractive* and *harmless* as Johnny could do to her right? Besides, she needed the break.

As they begin to dance, Willow suddenly gets VERY drunk. And from then on, 'Johnny' grabs her out of the club and into some place she does not seem to recognize as she awakens.

Bounded in ropes and knots, she thought that her 'one-night stander' must've gotten a knack for BDSM, thus explaining why she's being tied up and all that. But as soon as she sees 'Johnny' (who actually goes by the name Jagger) enters the room, she gets the funny feeling that he's telling the truth when he says that her pathetic father's *not dead*, and that she needs to be staying here with him and his 'brotherhood', as they are trying to lure her father out. At the same time, he claims that he's *protecting her*, as the rival gang that could've taken her was way more dangerous.

Not accepting her new living accommodations, Willow goes all the way in trying to upset Jagger, even though he seems to be the only one who's really protecting her. I definitely do not get that. She somehow always seem to be in a dilemma, and that **KILLS** me. Jagger also seems to be really protective of her and orders the rest of the guys to not lay a single hand on her. Since ALL of the other men in this 'gang' seems to be as attractive as Jagger, and that i assume that they're all in a gang, i thought that they were going to be

cruel, sadistic and psychopathic. But no. No, they were not. In fact, they were the exact opposite.

Well, all of them though, except for Snake. The rest of them were extremely polite, understanding and respectful of having a woman in their captive. Snake was the jackass of the whole group. He was ridiculously cantankerous and splenetic. He had done some pretty snarly things to Willow that has caused Jagger to blow up (view spoiler). But overall, i love this cute little 'bond' that the boys have for each other.

Now let me introduce, Jagger. Oh sweet lordy. Jagger.

HE IS THE EPITOME OF TALL, DARK, BROODING AND HANDSOME. OH AND NOT FORGETTING, POWERFUL. YOU KNOW YOU CAN KIDNAP ME ANY TIME RIGHT, JAGGER?
You know? Oh right, just checking.

After being in each other's life for basically all the time in just a few months, they start to form an *undeniable attraction* between themselves. And let me tell you this... IT WAS EXHAUSTINGLY COMPLICATING, UPSETTING AND PERPLEXING. None of them were willing to admit to *anything* and they just remain confused and hurt.

Being the man that all man usually are when they need to relinquish their sexual desires, Jagger brings a girl home, or what Willow accepts as a '*whore*'. Feeling confused and hurt, Willow thinks of an easy way to end this whole disaster once and for all. Since her life's so fucked up, she does the unthinkable.

And yes, she results to harming herself with a kitchen knife while fixing dinner for the boys (Jagger lets her out around the house to 'earn her stay' by doing chores)

Just as she was about to finish herself off, Jagger came out of his room and saw what Willow was about to do. He races toward her and reaches for the knife. Soon, all the tension that was building up for so long, *finally* tumbles down.

Willow doesn't really trust her state of mind and questions her sanity. Which leads her to think that she might

just have a case of Stockholm Syndrome. Not knowing if her feelings for Jagger are true or not, she leads him on a fiery goose chase.

After a confrontation (finally!) from both parties, it led to this.....

And more of it..... *cheeky smile*

They really did have a *confusing* but *adorable* relationship.

*"You know the moment in life,
when everything you thought
you were is suddenly wrong?
The moment that changes everything?
It changes who you are, who you believe
you are and who you're going to be.
You're that moment, Willow."*

They soon realize that they both *do love* each other. A lot. And it's not just in their heads.

AND NOW, FOR THE ENDING. OH GOLLY GOD OF ALL GODS. **I HATE CLIFFHANGERS.** THEY REALLY DO HANG ME OFF THE CLIFF. I GOT SO ANNOYED BY THE CLIFFHANGER (view spoiler) UGHHH. OFF TO READ THE 2ND BOOK IN THE SERIES NOW. IM SO ANGSTY ALL OVER AGAIN. UGHHHH

I do not want to dwell into this story too much and be so thorough because you've got to read it! It's actually pretty good if you ignore all the spelling mistakes and sometimes the really ignorant mistakes that might have violated some prescribed standards of speech and writing, but yeah, give it a chance.

THE REMAINING CHARACTERS IN THE BOOK

AVA

JENNY (Willow's Half-Sister)

ANGEL

ACE

Sammy ?? says

Holy hell!!!!!!

Where do I start first off I read this in one sitting I could not put it down, so happy I have book 2 as that cliffhanger would be a massive kicker if not.

review to follow!!

Pam says

4 stars

“I’m not going to give you a white horse, nor am I going to take you into the sunset and promise that no bad things will ever happen to you or to us, because no one has the right to ever promise another person that. I can only promise you that I’ll give you every ounce of my heart and soul, and hope that it’s enough.”

Willow has not had an easy life and just when she thinks that her days are getting brighter, her world is turned upside down all because she decided to live it up and accept a drink from a stranger. Willow wakes up alone, in a strange room where the windows are boarded up, the man she met as Johnny but goes by the name of Jagger, walks in and lays it all out for her.

“You’re here Willow, because your Father has some very vital information and we need to get him out of hiding.”

Stunned at first, it wasn’t hard to believe Jagger, her dad was completely selfish, making his family believe that he was dead is just another thing to add to the list of why she hates him. Jagger tries to assure her that although he took her, he doesn’t want to harm her, there are worse people after her and in his own way he’s protecting her. Willow has to stay strong and quickly come to terms with everything going on, she meet’s the rest of his ***”dark brotherhood,”*** and even though most of them have been nothing but nice to her, she

knows that they walk on the edge of the line. Willow knows it's crazy, how could she feel this way about him? he took her but he never hurt her

"I stare into those beautiful blue eyes and I'm lost. My feelings for this man are real, they may be crazy, insane and idiotic but they're real."

Jagger begins to question everything he has ever done, he wants to put an end to it all and just live in peace with the brother's, but until Willow's father comes out of hiding and he gets back the information he needs he has no choice. Surprised to see her stand by her word, he doesn't deserve her loyalty, she deserves better than this life, he should let her go

"You know the moment in life, when everything you thought you were is suddenly wrong? The moment that changes everything? It changes who you are, who you believe you are and who you're going to be. You're that moment, Willow."

Willow and Jagger have more than their dark souls in common, but with everything going on, how could she know for real what she feels. Willow's nightmares and scars a constant reminder of her past and insecurities, she isn't strong enough to deal with it all, especially when Jagger's past comes knocking on her door

"I hate him. I love him. I resent him."

Totally unexpected, *Dark Passion* was a really really good read, Willow and Jagger were a force to be reckoned with, they fit each other perfectly. Jagger seriously would make anyone's panties melt, and the way he could control her body, perfect alpha male. Although she was "taken" it's different than any other book because she was taken for protection. I'm glad I waited for Dark Desire to come out before I read the book because that ending through me for a loop. I rushed to buy the second book.

CT says

This cliffy came out of the blue... onto book 2

Nikki Nik says

[He has a wife that is suddenly back from the dead. And he still loves her? Give me a freaking break. How random was that?

Also, I'm sorry, but I don't think I'm interested in reading a story about some asshole

Christine says

Enjoyed it felt for Willow. Did not see that ending coming just glad I can go straight on to book two.

~Dawn~TUG says

Holy mother of cliffies!! Will review when finished with series! Check out what other crazy crap is going on at www.sizzlingpages.com

"I know what you're doing and it won't work. act tough, be brave and witty but let me tell you this; I WILL break you, little girl, because everyone has a weakness - even you."

Did Jagger know that her weakness was going to be him, he was the beginning and end for Willow. Every bad experience and every great one was going to include Jagger. This is not a typical love story, thank goodness and it was one that takes you on a journey of "I love this man" to "he did what?" But never once was there a doubt that their feelings were raw and lustful. The need they had for each other was immediate and raw, even though the situations surrounding their beginning weren't ideal.

[image error]

Forever questioning her sudden attraction and complete need for this man that had taken her from her home and family, Willow fought Jagger every step of the way. Jagger knew if he could just show her that what they shared was real and not just a figment in her mind, she would be his.

"I realize it's the first time I've ever heard Jagger laugh, and worse, it's a beautiful sound that has my heart clenching in ways it never has before."

Jagger has lived a life of loss and heartache. Fighting for everything, while ending up with nothing. His Brotherhood being the only thing he can completely trust and call his own. You don't get a lot of who his and why he is this way in this first story, you just know there is SO much more..

[image error]

"I can only promise you that I'll give you every ounce of my heart and soul, and hope that it's enough." Jagger

And so I read on..and will continue this review with book 2.

Tara TUG says

At this point I'm not sure who I'm more in love with,Jagger or Bec Botefuhr. I don't even know if I can review it as I honestly just want to keep it to myself.With that said there will be a lot of cussing in this review as I feel the word Fuck can only express my feelings of how much I really enjoyed this book.For me Jagger is the total package,he is bossy,protective,ass-ish,loyal,sweet and a total douchebag.Yes! My perfect man.I don't know what the fuck it is about a guy who can be an ass then say something sweet that makes me want to run and change my panties, but hot fucking damn.I wanted to kill him at times and the next page wanted him to push me up against a car and do me 7 ways to Sunday.My emotions ran wild while reading this book.One minute you are feeling hate,lust,sympathy and then 3 chapters later you are pissed off,laughing and heart broken.After I finished this book I had a lot of thoughts running through my mind like,What the fuck? Who the Fuck? Then I wrapped it up with- did we have to fucking go there?

With life Willow has suffered.She is broken,learning to survive and to come out on the other side in one piece.She is not perfect she is flawed with a twist of smartass and a boatload of defense mechanisms.I sympathized with her at times and wanted to strangle her at times.She has constructed walls so strong that it would take the force of an army to break through or possibly one just as strong male.She has a past that has made her dark, taught her how to survive and how to walk away from the ledge when all you want to do is jump.

"I know what it's like to be dark inside Willow;I've lived my entire life with darkness"

Jagger and Willow embark on a a relationship after he steals her to get information he desperately needs.He sets out to keep her safe and protected from falling into another gangs hands,but she ends up falling right into his arms.Together they learn that being in the darkness together can be the light they have been looking for.This book is the total package.Great Banter and dialogue,Alpha bad ass male,a broken kick ass female and to round it all out a great story line.

Linda Sims says

NOT THAT DARK

Willow is out at a nightclub, when a gorgeous guy buys her drinks. Before she realises what's happening he's taking her outside. The next thing Willow knows she's waking up in a strange room with bars at the window. Her gorgeous captor is Jagger the leader of a band of brothers. He's keeping Willow captive till he gets some information from her father. But Willow's father died three years ago.

During the time Jagger has Willow under his control, they start to act on the chemistry between them. But is it just Stockholm Syndrome or is it real.

I liked this book. The plot is a good idea, but the characters need more development. The main problem though was with the continuity that was way off. But there's something addictive here that keeps you turning the pages. I was amazed at the cliffhanger ending, and yes I am definitely reading the next book.

Mare SLiTsReaD Reviews says

WELL I AM A SUCKER FOR A GANGSTER, A TRUE SUCKER, AND JOHNNY BLACK AKA JAGGER SURELY SUCKED ME IN. HE WAS AN ASSHOLE, STRAIGHT UP, AND A GANGSTER ASSHOLE MAKES MY HEART SWOON!!!!

NOW THAT BEING SAID THIS BOOK LEFT ME WITH A FREAKING CLIFF HANGER!!!! AND WHAT A CLIFF HANGER IT WAS!!!!!! NOW I HAVE TO WAIT TILL APRIL TO SEE HOW WILLOW AND JAGGER GET PASSED THIS NEXT SERIOUS HURDLE OH WELL ALL I CAN SAY IS I HOPE IT IS EARLY APRIL AND NOT LATE AND THAT IF THIS IS A TRILOGY I WILL WAIT TILL THE FINAL ONE IS OUT

****** 4 CLIFFHANGIN STARS ******

Dee says

You know what they say - when you come across a good series? its a pain the arse when you have to wait for the next book!!

Another great book/series by Bec!
I can def say that Bec is the queen of cliffhangers!!!

I loved Jagger & Willow. I cant wait to read the next books to see if they get their dark ever after!

Im also really hoping that something develops between Angel & Ace and the girls.

This series has heaps of potential - looking forward to reading the rest!!

??? LovesToRead ??? says

4.5 BIG OL' STARS...

Let me start off by saying that I am a sucker for a great fictional boyfriend, but add one to a book that is full of intrigue, secrets, mystery and danger and, well, that is just super hot, especially if he is the one protecting you in a very non-conventional way.

And even though in true FEMALE fashion, she says one thing, does another, wants one thing, behaves the opposite way, thinks one thing and fails to see that evidence to the contrary, as well as the evidence of her own behavior that is the true testament to everything she is accusing Jagger of.

This book was a true example of manipulation, doubts, uncertainty and literally being pulled in many directions for Willow, but the hard part was deciding who was the one to trust and who was the biggest manipulator of all. So many to choose from, and the one you think is most likely the culprit, just might end up being the hero.

Now, let's talk about CLIFFHANGERS. We all know that every GOOD book has one, and this one is no exception. The cliffhanger in this book is gut wrenching, shocking and downright out of the blue. The very last scene of this book had me literally gasping right out loud in a sound that almost sounded like a tortured animal. I never saw it coming...at all.

Now, let's have the next book please so I can find out just how things progress and just what decision is made. UGH...

God, I love a good book with a real back story for all the main characters, and a great backstory that helps the romance along and stay afloat as you watch it grow and the characters journey together. This book had it.

A COMPLETE WINNER!

Steph says

Terrible/ridiculous plot and writing, and even worse dialogue.

"I was an office assistant, but at the moment I don't have a job," I yell.

"Nice." -Nice? Jeez, could it get any worse than this?

"I'll never give in to you; mark my words I will get out of here!" -Mark my words? I guess it sort of does get worse.

Note: Nothing personal to the writer, as I could care less who wrote this book or the amount of time they expended in doing so. This is my honest opinion, which you can either take it or leave it. I'm actually grateful for honest reviewers here on Goodreads, that don't rate every single book they read 5 stars, whether

it's merited or not. Just because you can read, doesn't mean you are able to recognize a well constructed and written book.

Warning: Abduction-Erotica.
