Season 1 was GREAT and the art and characters made me love them even more with their personalities and CUTENESS

Raroshnaw says

Can't wait for the second season, this was way to open, you gotta loves those cliffhanger.... so intense , are they really brothers? are the parents still alive? will we really get a second season? so many questions yet so little answers...

Clara (Clarylovesbooks) says

I binge-read all the episodes and I love this so freaking much!

Shea says

Didn't finish. Didn't like it. Except for Choco. Choco was cute...

Elle says

EDIT: I am aware that there is another season out!! I am currently following it and will further my review here once it is complete!

I NEED MORE

this was the most adorable thing known to man. took me a hot minute to stop seeing haru and hana as brother and sister but when I did. OH BOY I SHIP IT

I LOVE THE WEREWOLVES SO MUCH. I think it could have been so easy to give them all a similar character design but OMG everyone from sulky hook to Choco who is THE MOST ADORABLE THING I HAVE EVER SEEN (tiny femme boy werewolf with one leg and the optimism of sunshine) , I have finished one feeling like these characters are my highschool friends, and that is a good thing.

(also like I feel like choco was a good example of how to do a disabled character right, it wasn't part of his character at all. at one point there was a bullying incident, but apart from that its not really part of the plot at all? and he helps aid the progression of other characters with his amazing unforgiving personality. like im really impressed but I've said before about how this is less of a problem outside of the USA and hollywood.)

SO PURE, SO HEARTBREAKING. there's obviously going to be a lot more after season 1, but so far I AM A BIG BIG FAN.

also its not a spoiler because its obvious from the start but if I ever commit murder it will be from killing Jeff. MOST HATED COMIC BOOK CHARACTER EVER.

Lilly says

I binge read that within 6ish hours. loved it!
