Do you ever get the feeling you were born for so much more than this? On the 31st of December there was always a dawn, there was always Emmeline, and there were always tears that shone like diamonds in the aftermath. The day Emmeline turns twenty-one marks the return of the darkness that took her parents when she was ten. What begins with a rough night out ends with a home invasion and a visit to A&E, and now the police want to speak with her. As her fractured world descends into even greater chaos, Emmeline decides to run. Straight into the arms of the coming storm. The Ferryman of the Dead has come to claim her soul. But not for the reasons you may think. When he unexpectedly changes the game and risks everything to save her life, she realises being kidnapped by Death may not be such a bad thing after all. As for the rest of the monsters out for her blood, well, that's another matter all together...

### **Marlyn Bartolome says**

This novel was written by the author in 31 days with 31 different topics given to them by people from all walks of life. Using that inspiration they challenged themselves creatively showing skill and imaginative intelligence as they wove a tale that is not only enthralling but cohesive. Emmeline takes you on a journey and leaves you wanting more...

Ok I'm going to start with the way the book was written: the idea of it being written in 31 days and around 31 different topics given to the writer by 31 different people, well this I loved.

Talking about the book, I wouldn't use the word love. It is most definitely an easy read and not so big of a book. I read it in one day (about 2 sittings).

If you like supernatural stuff up to no limits, then you might actually enjoy this is the book.

Don't get me wrong, I do occasionally like mysterious out of this world stories, but to some extent indeed. The ending was not very appealing to my taste but I bet a lot of enthusiastic readers will appreciate it.

The book no doubts leaves you with some unanswered questions, and how you feel about that is your own personal opinion.

(It is worth the mention that I took a liking of how the writer ends most her chapters, making it a page turner if I may say so. I always appreciate such books).

Emmeline was an amazing read from the first to the last page keeping you hooked all the way through the story. I read the book first and then got the special edition hardback cover version which J R Manawa personally writes you into the story in such a clever and imaginative way. so I would recommend this book to anyone as this book keep you wanting to read more and more as you turn each page. I can't weight to see what's next for this amazing author as she has an incredible talent of making the readers

imagination go wild with her writing style. :)

?

Initially the book had a slow start...or maybe I'm just no longer used to reading urban fantasy books.

What's so special about 31st Dec? Why did she decide to drink like a fool on the eve of her birthday? Why did her friends allow her drink that much?

I started getting curious. What actually happened to her parents? Why did they disappear and how come she has no other relatives in New Zealand?

By chapter 13, I was hooked. What on earth is going on with this Emmeline chic and why are there so many extra terrestrial beings in London?

As you can tell, JR wrote in such a way that my curiosity was piqued.

Rating: 3.5/5

Favourite quote: "I have every belief that you are capable of defending yourself, you just need to find that confidence in you."
