### Robert Beveridge says

Kaori Ozaki, Immortal Rain, vol. 6 (Tokyopop, 2005)

After the cliffhanger ending of volume 5, I couldn't wait to rip into this one and find out what happened. Of course, it's pretty much the same thing that happens any time a character falls out a window in a cliffhanger, but Ozaki throws in a nice twist on it. The end result is that after getting so close to being reunited, Rain and Machika are pulled apart yet again, except now Rain is free, so they're capable of looking for one another. Meanwhile, Eury Evans seems to have switched sides and is now tagging along with rain, while the Calvaria camp produces a new hunter, Dora Folk (in a quick aside, Ozaki mentioned Folk is the last main character who will be introduced in the series). Immortal Rain stays interesting and fun. Kiki eat strange fish? \*\*\*\*

### Peter Salva says

This one was not holding my interest as much. It seemed a little drawn out.

Unfortunately, goodreads doesn't have V.1, so we'll stick to this one. =) Anyways, this is a superb not-quite-shoujo, definitely-not-shonen manga that has many of the elements of many series but none of the *feeling*. I have to say, oh *wow* because I just love Rain and Machika and their relationship and call it weird, call it dirty, call it odd that a fifteen year old girl and a six hundred year old man could fall in love, but it *works*. XD

### Christina says

Machika has found Rain at last! But alas, they are not yet reunited.

Accompanied by Eury Evans (who has now left Calvaria and been marked traitor), Rain escapes from Yuca's grips and chases after his lost girl, Machika.

Machika, also accompanied by old friends from a previous adventure is on the hunt for Rain. She must find him, her heart yearns for him. If he were not alive, she could not live either... or so she believes.

When will these almost-lovers ever be reunited?

"You looked thin. You were wearing white clothes. Though I saw your lips move... I couldn't hear your voice... as you called out to me. ... Rain."
