Kevade Oskar Luts

"Kevade: pildikesi koolipõlvest" on Oskar Lutsu jutustus või lühiromaan, mille esimene väljaanne ilmus kahes osas aastatel 1912 ja 1913. Lutsu koolipõlvemälestustel põhinev raamat on üks Eesti kirjanduse tuntumaid teoseid, mis on ilmunud 21 trükis ja tõlgitud 13 keelde. Jutustuse põhjal valmis 1970. aastal Arvo Kruusemendi mängufilm "Kevade", samuti on teose instseneeringuid korduvalt lavastatud Eesti teatrites.

Everett Darling says

Full of wit, cleverness, and playfulness, this timeless Estonian novel will satisfy the young and old alike. Musings on everyday tasks to larger matters like the nature of death, unnamable emotions, and the pains and joys of adolescence. This is a must read for anyone interested in Estonia, and since this is one of the most, if not the most well known Estonian novel, you are bound to find a translation in your language.

Sally says

Most enjoyable Estonian children's book of 1912, set in a village school. The adventures focus on sensitive Arno, and his classmates, notably Toots with his endless escapades and Teele, a girl on whom Arno becomes increasingly fond... The kindly schoolmaster, the unpleasant churchwarden and the vodka-swilling sexton all come into the narrative, as do the pupils of a neighbouring school for the sons of German squires... During the year that the story covers, we see the children grow up somewhat. Teenage melancholy, getting drunk and a moral dilemma are interspersed with some quite amusing episodes, courtesy of Toots: 'In Joosepp Toots there is a fierce battle going on between right and wrong. And, as is to be expected, wrong always comes out the winner.'

The characters were sufficiently strong that I really wanted to read the sequels that Luts wrote (sadly these don't seem to exist in English translation - indeed this novel was quite hard to come by in English). Lovely illustrations give it the finishing touch.

Carmen says

Kui Arno isaga koolimajja jõudis, olid tunnid juba alanud.

Geku Schmeku says

Mõitlesin vahelduseks midagi lihtsat, vaimukat ja armsat lugeda ning võtsingi üle pika pika aja "Kevade" uuesti kätte. Ega siin midagi palju öelda ei olegi - ilmselt on kõik eestlased seda lugenud (vähemalt võiksid olla). Sain praegu nii mõnestki asjast hoopis teise pildi, kui seda lapsena lugesin. Ja ehkki olen seda lapsena lugenud mitmeid kordi (samuti mustmiljon korda filmi näinud), suutis üks asi mind üllatada - nimelt oli LIBLE 36-AASTANE!!!! :) Võib-olla ma ei pööranud sellele väiksele tähelepanu, sest 36 tunduski siis kännuna? :)

Kristiina says

Classics of Estonian literature. They read it in school. That was when I read the book, also seen the films. A must read to all Estonians.

Helina S. Luciano says

I grew up with the stories of Oskar Luts, Kevade (Spring) was one of my favorite books to read. The boys were wild and the description of Estonian life and manners is very accurate for the time frame this story was told in.
