## Letters to My Ex Nikita Singh

It feels like I'm on autopilot; I have no control over anything. The pain of losing you is so crippling that I can barely hold pieces of myself together. The slightest nudge could break me. But somehow, my possessed brain knows what I need. It's telling me to stick to my choice, to stay away from you, to open a word document and bleed on paper, try to throw up all my jumbled thoughts in form of words, collect all disconnected facts, try to make sense of it all.'

From the bestselling author of Like a Love Song and Every Time It Rains, a story of heartbreak and things left unsaid...

## From Reader Review Letters to My Ex for online ebook

### **Vidhya Thakkar says**

I have read each and every book of Nikita Singh and 'Every time it rains' is my favourite read. I was so excited to read this book. Its a short book with 138 pages. One can finish it within few hours. The book revolves around Nidhi and Abhya. Nidhi who broke her engagement with Abhay writes letters to her EX. Their love for years was finished when Nidhi called off her engagement.

The title and cover of the book are catchy and attractive. I had high expectations from the book. The plot of the story is in form of letters. The letters that Nidhi writes to Abhay. In between they exchange emails. The plot is repetitive by the author. In the first chapter, it was becoming hard for me to connect with the book. There is no in-depth narration, nor it was catchy. The pace of the story is too slow. The tempo of the book is also dull. The narration of the story is good, but it was not as convincing as her other books. The language used by the author is simple, interesting and easy. The story goes smoothly but not a structured one. There were some things which are missing in the story. It was like an incomplete story. The ending was sudden and unexpected. The characters that author made are really strong. One will fall in love with Abhay's character. A smart, Matured character. I didn't like Nidhi's character. It was much like a childish character. A lost one.

Well, overall it's a simple and good read if you like to read repetitive things. Overall it was a good read.

### **Chetana Thakur Chakraborty says**

Nikita Singh's latest book 'Letters to My Ex' is very different from her previous books. This book is in the letter-format. It has a unique format of narration. I was very excited about this book since the time when the author announced the book. I have read most of her previous books and loved them. Also, since the title as well as the cover of the book is very attractive and seems interesting, I had really high expectations from this book.

The plot is quite simple. The main characters are Nidhi and Abhay. They had been in a relationship for almost five years. At their engagement, Nidhi calls it off, and thus their long loving relationship comes to an end abruptly. However, the reason for this is unknown at the beginning, which seems confusing. Nidhi decides to pen down her feelings in letter format. Also, Abhay's point of view and feelings has been explored.

You have to read the book to know why Nidhi broke the engagement, and also what happens to them later.

The author has well portrayed a romantic story in a different format. The language is lucid, which makes it a very easy read. The book is divided into twelve chapters, each title named after a month. The book is very fast paced. The plot is not very deep and it is quite hollow and cliched. The book at times seems to lack the property to keep the readers glued to the book. It is very fast paced. It did not quite meet my expectations.

Overall, the book is a short, easy light-read and fans of contemporary and romantic fictions can give it a read. You people might like this book.

### **Pratibha says**

I was so stressed out with work when I started this book late one night. And I finished it in a single sitting. This was so real , so heartfelt and so intimate. I thought of all the sent and unsent emails I wrote in love , after a fight or sometimes even now out of so much overwhelming love that only makes sense with words.

---

### **Riddhi's Bookworld says**

The only thing I liked is the letter format..it helps in connecting the reader to the protagonist almost immediately and the reader can feel the words. Not a great read, but a good light read..

---

### **Kunal Sharma says**

I had a hard time reading through this work. A girl runs away from her wedding. She takes time out later to analyze what just transpired. She reasons with herself and then with her boyfriend who she embarrassed by doing the disappearing act. It was hard on me to go through all the stuff that goes on in Nidhi's mind. Nidhi is the main protagonist. Abhay is her much underrated boyfriend. Abhay is too sorted out, this freaks Nidhi out on her wedding day, she expects him to behave differently while he keeps up with the perfectly sorted out demeanor. Perhaps that's why she quit. Or was it the kissing episode involving Abhay and a female friend? Anyways, in the end, things work out fine – I am not going to say if Nidhi and Abhay patch up for sake of readers who still want to read this book.

As I stated above, I see Nidhi in an unconventional light – I would never date her. I believe she over cooks

every little incident. She's given to over-analyzing events. I had to go to sleep so many times while reading her letters, I guess I came to know this about myself after reading her letters – I am no love philosopher. I don't know if I can or cannot but I WILL NOT justify everything I did or didn't do...that's like doing everything twice, or three times...at the very least, that dastardly repetition is being inconsiderate towards time and the natural flow of things. Too much emphasis on analysis of what happened just belittles the pure emotional content therein. One of my friend told me when we were little – love is like pickle, take too much and it spoils the whole experience. Like a banal ritual. Another friend had told me – soon as you say 'I love you', you've just foolishly declared that you demystified the depths of this beautiful feeling. Instead, there's far more to cherish in momentary catching of the eye and accidental touch of the fingers.

Abhay might as well be the marquee husband. Too much of a good guy. No such thing at least as of now, I can vouch on behalf of my species I can tell you that the likes of Nidhi will need to wait another couple of years till Artificial Intelligence truly kicks in and creates something of a cyborg like Abhay. This guy will listen to you patiently when you are confused and angry or just plain confused. Then this cyborg will say something that will make you weak in the knees again. He will never love you like a man. That will be a good reason to run from weddings.

### **Anmol Rawat says**

I like the letter-format narration, but somehow Letters to My Ex felt hollow. I could not connect with the emotions and found myself more confused than the protagonist Nidhi. It felt rushed and unplanned. The only solace was the last few letters, but other than that, it was a disappointing read.

### **Ajay says**

Little pre-declaration : I bought this book when its launched but as i read the book's reviews i found out that it's an emotional rollercoaster ride. so, i shelved it and couldn't find myself to read it until now. been dealing with same kinda thing back then. I don't know what i was thinking.

Review: Nikita singh is genius in touching your heart. {Not like vampire literally or maybe the looks she got tells otherwise (You can say i crush hard on her XD)}.

her last book "Everytime it Rains", i thought was a light read but wasn't. i thought this book is going to be emotional stuff but somehow its a light read.

that doesn't mean it isn't a page turner the emotinal web of overthinking surrounds the character throughout the book. you won't take a second guess over why the main character nidhi did what she did.

My only problem with nikita's literary work is that her books finishes fast. I read her books from top to bottom like i even read the barcode behind.

The book is all about unfinished words. the words we often don't say thinking it might hurt otherperson. (I dealt with same thing, not exactly).

it showed the testosterone induced humans main problem 'we get incident specific'. We just think of what happened in the moment and not what's been piling up in the eyes of the estrogen induced humans.

Its about taking a break, hurting each other, getting back together, jealousy and almost everything you see in young-adult fiction.

I finished it in 3 days and i consider myself a slow reader.

This book proved that "Girls maybe don't know what they want, but guy's don't know what they have until it's gone".

conclusion : Its not her best work but definitely a new format and fresh peice from her. waiting for her next :)

### **Surabhi Sharma says**

Many times it happens, the things left unsaid. Letters to My Ex is a story of things left unsaid and unspoken words and trying to discover what it was and how it affected their relationship and bring them to a crossroad.

The thing I like about the story is the way protagonist Nidhi bared it all in the letters she writes to her ex. She said it all and opened her heart to Abhay to read it like a book. Nidhi knew what she wants from life and Abhay and not afraid to say it and take the plunge. The character of Nidhi is a strong girl.

The author sketched the characters beautifully. The characters are sorted and the author knew where to take the story. It is a short book which hardly takes few hours. Looking for a new plot story. Give it a try.

A story of love and togetherness. A story of heartbreaks and hopes. A story of unfinished promises.

### **Sulagna Mondal says**

What exactly goes inside our minds after we break up? If we still love the person, how do we overcome our broken hearts? Imagine that you are deeply in love with this person but you break the relationship because all of a sudden you felt that this other person does not love you anymore. What would you do? Keep on loving the person? Or break everything and run away from the person?

Nikita Singh's Letters to My Ex starts with our protagonist, Nidhi's, letters that she writes to herself stating why and how she broke her engagement with her fiance Abhay. The letters are simple description about her perspective of and feelings for Abhay. Her letters say how they met and how everything fell into pieces and how everything led to her and Abhay's long term relationship, and finally how Nidhi came to the conclusion that Abhay loved her no more.

I have to be honest here. This was my first novel by Nikita Singh and I have had heard a lot about her books. So naturally I had a lot of expectations from this novel. But I was a tiny bit let down. I wanted a good, strong story which this novel lacks. I mean, it's well and good what the message of the book is, but I wanted more. The book had a lot of potential for a good background story. But readers are deprived of it. I was kind of wishing for snippets of romantic memories from Nidhi and Abhay's past so that I could feel more attached to the characters. But I could not.

I really wished I could get an elaborate story of Nidhi and Abhay's relationship, but this was not possible within a mere 138 pages. I liked the book and would definitely recommend it to anyone who likes reading short, simple and crisp realistic love stories.

---

### **Jigar says**

The content was repetitive!

Didn't find that much fun to read. Can be avoided.

---

### **Anupama C K(b0rn\_2\_read) says**

I have always loved writing and reading letters. This is the story of Abhay and Nidhi, a couple who were in love, were about to get engaged. But on the day of the engagement, Nidhi leaves without an explanation. Why did she leave ? What will happen to both of them ? These two questions form the crux of the story. The narrative is in form of letters, letters written to each other . I loved the first part of the story and it captured all the emotions one feels after a breakup. The ending was pretty predictable  
Good for a one time read

Read the detailed review on my blog - <https://www.bookgeeks.in/letters-to-m...>

---

### **Banaja Prakashini says**

Full review at- <https://www.banajaprakashini.in/lette...>

Letters to my ex was a rather disappointing read for me and the 2 stars are the result of an aggregate of various factors taken into consideration.

The content is repetitive as the protagonist writes about the same feelings again and again, but each time with a different wordplay. The same way academics drag their essays to reach the word limit.

It is a clear example of how assumptions, overthinking and lack of communication can ruin a relationship.

The book would have been appreciated had it been a young woman's journey about moving on, with some life lessons or at least a plot to offer.
