Katharine says

Richard Scarry and Lowly Worm....more good childhood memories and loves.

Emerson and Theodore says

First book purchased for little Theodore. Never too early. A small little book just about the size of a large apple. Filled with such silliness as P is for Pickle Car and Pencil Car. X is for xylophone car! Emerson "read" it to his baby last night.

jacky says

William got this for Christmas from my mother. While the size is great for him as an infant, the pictures are too small and the content above him. We have looked at it a few times together those for just the experience of looking at books together.

I like the various types of cars using the alphabet. Some are informative while others are silly. The mix of the two is well balanced.

Lauren says

Cute book for young children! This was a favorite.

Richard Scarry's Cars and Trucks from A to Z

Scarry, Richard

a cute book for young children, for use in preschool and kindergarten to help review the alphabet, and for later years with second language learners.

Thomas and Sarah Gonzalez says

Sarah 3yo "it's so beautiful and it says silly words!"

Margaret Chind says

My son is working through the book list from Memoria Press Preschool and this is a brilliant one in the list. He's listening, not reading but this book is ideal for him. The chunky shape, the things that go theme, the loveable Richard Scarry characters from my own childhood. Wonderful.

Bought for our preschool box of books.

Breyanna Hill says

In this book each letter from the alphabet is used to name a type of car. Great for learning new vocabulary!

MM says

Simone has every word of this little book memorized but instead of "reading," she sings it. She sits in her bed and sings it to all her dollys and animals. cute.

Crystal says

a simple fun kids' book that is great for keeping small children entertained, whether reading aloud to them the different (silly) kinds of cars, or just for them flipping through themselves. The small sturdy pages are ideal for little hands (and survive little mouths), and the pictures are bright and involving. plus, it's a book I don't mind reading aloud over and over.

Ninoshkka says

im a bit behind schedule on my reading

Jackson says

It helps to LOVE cars and trucks, but this book is the perfect size for little hands to carry around and look through. Has some of the classic Richard Scarry vehicles - bananamobile, apple car, zippercarr. Jackson loves the street sweeper, mail truck and garbage truck. All boy!

Erin says

First book Spencer memorized @ about 2 years old or so.

Cara Byrne says

This bitty book, about the size of an actual apple, goes through the alphabet with food-themed vehicles driving it along. It's a great way to introduce lots of new vocabulary words - not just those relating to cars and trucks. It's also a great size for my eight month old to play with, as it's big enough for her to open and shut the pages and manipulate the entire book with her hands but small enough that she doesn't hurt herself as she inevitably throws it or slams it - or puts it in her mouth.

Tiffani says

My daughter loves having this book read to her! She knows most of it by heart but still loves having it read.
