## SEALed at Midnight Cat Johnson

As a combat hardened Navy SEAL Thom Grande has fought terrorism around the globe, but the one thing he can't fight is his ex-wife. Or her lawyer. Or the alimony payments. Just when he thinks it can't get any worse bad luck smacks him up side the head—literally. Now, he's got a traumatic brain injury and can't remember his own name half the time. The good news? He can't remember his ex-wife or the woes she's causing him either.

Virginia is alone, partially by choice because too much time spent around her mother drives her crazy, and partially because she has the worst luck ever with romance. But maybe her luck is changing because one hell of a hot and very naked man just showed up at her door. One problem—he can't remember anything, including who he is. The more she sees, the more she realizes, that might not matter all that much.

Don't miss Night with a SEAL, Saved by a SEAL, and Kissed by a SEAL for Jon, Zane and Chris's stories in the Hot SEALs series from New York Times and USA Today bestseller Cat Johnson.

# From Reader Review SEALed at Midnight for online ebook

## L M says

I loved that Thom got a chance at a HEA after all his troubles. He really is going through it and Ginny is just what he needs.

Ginny is such a scatter brain but has a huge heart.

Had a soft spot for him since book 1.

Just wish it was longer and we get a better ending. I know it sort of carries on in the series but not quite good enough.

---

## Mary Silvestri says

### 4 Stars

Cute, quick holiday read. Can be read as a standalone or you can order more in series. I am going to read more in the series.

---

## Sofia Grey says

Classic Cat Johnson - a FAB holiday read!

A quick, hot read, with a yummy hero and an engaging heroine. Picking up a Cat Johnson book I know what to expect: some military excitement, some buddy-bonding, and a great story, all wrapped up like the best Christmas present. And this one ticks every box :-)

Bonus points for me, for the wounded / brain-injured hero. I LOVE the scene where they first meet in her barn and he thinks he's still on a mission :-)

---

## Dar says

Pretty good but it felt like it ended when it should have been starting. We have Thom and all his issues, then he meets his girl, then he leaves, then they decide they might try to have a relationship, and then the story ended???

Nothing is really worked out, he still has issues with his ex, his kids, his money, his health, his job, etc. but he might have a chance at dating someone, so all is well?

I liked the story that was there, but another chapter or two to tie everything, anything or something up would have been nice. Nothing, not even the relationship, was resolved when the book ended - more please!

---

## **Jo-Ann Fitzgerald says**

This is the 3rd book in the series.

We've met our hero in the past few books. You really feel for him because it sounds like his ex-wife is a really piece of work - took everything and wanted him to be miserable. He was away and couldn't see his kids too bad he was told if he wanted to see them. He can't really afford all the bills, again too bad you need to pay for YOUR kids he's told. Yep, the ex-wife's a really good work of art. Anyhow, when our hero gets leave to go see his parents over the holidays and ends up in an accident, he ends up meeting our heroine.

Our heroine wanted to do something different, so she's decided to house sit over the holiday while working on her book and her online job. What she didn't realize was how in the middle of no where it was. However, she was soon busy with our hero when he has a car accident and she helps him.

One of the main problems is our hero has no memory because of the accident. Of course having his head get hit a few months early doesn't help the situation either. However, when he gets back to his car he finds one of his buddies around and also he's needed back on base. He's gone so fast he doesn't even have time to tell our heroine and disappears. Will they get back together?

This was pretty good. I really identified with the hero really having a crappy life as mine seems to be this way lately. However, the heroine not having any survival skills and being stuck in the middle of no place made me laugh because I can see someone not used to things doing what she was. The characters were good and entertaining. The plot was original and kept you wondering when or if they were going to get back together. Another great read.

## **☆ Bianca ☆ BJ's Book Blog ☆ says**

In this Novella we are following the stories of Thom - he's friends with the group of SEALs and ex-SEALs from the previous books - and Ginny. Virginia is just about ready to give up dating for ever! She doesn't have any luck with guys. But while she's house and cat-sitting in Massachusetts over Christmas, she finds a SEAL in the barn.

Thom has just barely healed from a job-related injury, when he crashes his car on the way to spend the holidays with his parents. Ginny finds him and takes care of him. He doesn't know who he is and what happened to him. And he especially doesn't know if he's single. And that's something he really wants to know....because sparks are flying this Christmas!

**WHAT WILL HAPPEN TO THOM & GINNY???**  
**WILL THE TWO OF THEM GET THEIR HEA???**  
**WILL THERE BE A CLIFFHANGER??**

**I'm not telling you that of course ?**

---

This was the perfect little novella in this great SEAL-Romance series!!

I am such a huge fan of everything Navy SEAL!!!!

Total fangirl!!!

I really loved this novella.

It's just sooo horribly short.

It could've been such an amazing full-length story where we find out more about Ginny & Thom. There's sooo much more to tell. But it was really great the way it was. And even more perfect for me was the whole atmosphere. I love the holiday season and all that snow and hot chocolate and a hot Navy SEAL - what more can a girl want for Christmas?? ?

There might have been a tiny bit too much redundant lines filling this story - not redundant for a full length story - because it was all about things we need or want to know, beautiful description of things... but for a short novella, I would've wanted to read a bit more about the romance part!  
But it was still perfect!!!!

***SEALed at Midnight - was a really short but very beautiful & sexy Navy SEAL Christmas Novella!***  
***You'll love it!!!!***

## **Maree Repa says**

I'm just so enjoying this series and most definitely this one included. After meeting Virginia, a single heart broken writer she decides she needs a big change in her life. She decides to move out of town house-sitting for a family, who own a cat.

This book gets exciting after realising Christmas Eve is here. With such bad weather and meeting ever so gorgeous Thom, who is very confused and injured it becomes so exciting.

I so loved the third book so much. I loved both these romantic characters. It just made me even more excited to know there is still one more book left in the series to enjoy!!

---

## **Romazing Reader says**

FAmazing! Thom is my kinda DILF! This Hot Seals story is 'A Christmas in July' Must Read!

A hot Navy Seal, Thom is traveling home for Christmas Eve, gets in a car wreck, smacks his head and ends up wrapped around the best present a guy could ever wish for...a sweet sexy Ginny in her comfy flannel jammies and her big warm smile; now if he could only remember his name. Ginny had been wishing for a big sexy man from Santa, and look what comes crashing into her life and smack dap in the middle of her whole heart too! Yes Virginia, wishes do come true!

---

## **Jen (That's What I'm Talking About) says**

Thom Grande, age 28 and divorced father of two, feels broken and alone. His ex really messed him up, and he's not been with a woman in 18 months. To top that off, all of his buddies are getting out of the military, leaving Brody as his only friend left on his SEAL team. Then, on a dangerous mission Thom is injured and suffers temporary memory loss.

Virginia Starr has had no luck in the dating department. Alone and introverted, she takes a house-sitting job for the winter, moving away from family at Christmas time. One night, Ginny finds a stranger, frozen and clearly distraught, hiding in the barn. Bringing him inside to warm him up, the pair find themselves inexplicably drawn to one another.

NOTE: Potential spoilers in this review

I have mixed feelings about SEALed at Midnight. After loving the first two books in the series, I had high hopes for this one. And while the story moved quickly and the romancing was sexy, I had some issues with the plot.

First, I was a bit disturbed at how Virginia and Thom meet... he clearly has psychiatric issues, and Ginny not only just lets him into the house that she doesn't own, but cuddles up to him. I don't care how frostbitten the boy was or how cute he may be, this just doesn't sit well with me.

Second, the pair spends very little time together, yet by the end of the book, they are ready to try a long

distance relationship. I felt it was too soon, in that the author hadn't truly established a strong connection between the pair. I needed a few more scenes with Ginny and Thom together, talking, smexing, whatever, but something more.

Overall, SEALed at Midnight is a steamy story, but left me unsatisfied. This story is full of promise and easily could have been a B+ or better, but while I enjoyed reading the novella, the story felt cut short and left me hanging. I don't know if I would even classify the book as an HFN (happily for now), due to the fact that the couple didn't even meet until after 50% mark and shared only a handful of scenes together. I'm hoping that Ms. Johnson takes the time to finish Thom and Ginny's story in a future title.

My Rating: C+ Liked It, but I had issues

### **Becca says**

I normally really like whatever this author writes but this one just didn't work for me. It spent way to much time setting things up before the main characters even meet, then it's one hot night and then they are split. A quick makeup later and they are a couple. Too much technicality not enough of the characters together, getting to know each other or for us to know them. I got to the end of the book and was...yeah ok. I kept waiting for it to get better but it just didn't. I didn't hate it but was not impressed either.

---

### **Mandy Menasco says**

Good read

---

### **Myst says**

-Shrugs- Too much technical issues not enough romance, and the fact he's gotten memory loss 2x seems really far fetched. Not that great of a short novella, not enough.

---

### **Jane says**

Ginny (Virginia) Starr a want-to-be writer takes a short term house sitting job in rural Massachusetts and it is going fine until a Christmas Eve snowstorm. The power is out, the house is cold and the barn door is banging so she goes out into the night to shut the door and is captured by a strange man that thinks he is part of the Alpha team hunting insurgents.

Thom an expert Navy SEAL and recently recovered from memory loss from a head wound, so when he hit his head in a car accident on a rural road, he lost some short-term memory again. He isn't dressed for the weather, is freezing and has a head wound so Ginny takes him into the house where they build a fire and things get very hot before morning for these two lonely people.

Military life is difficult; when Thom returns to his wrecked car looking for his phone, he is called back for a mission and has to get back to Virginia right away, so he is forced to leave without telling Ginny goodbye.

One of my favorite romances is a hot SEAL when he finds a good woman to love and *SEALed at Midnight* is fast, fun and full of romance. Will Ginny and Thom patch up their differences after he disappeared on Christmas Day? or not?

---

### **Lynette says**

Yes!

---

### **Ree says**

#3 in the Hot SEALs Series.

Thomas is down on his luck in every way: no home, broke, divorced and lonely. Added to that, he has issues with his short term memory. Ginny can't seem to keep a man. Added to that, she's snowed in and away from friends and family for Christmas. When Thom gets into an accident in the middle of the night, he ends up at Ginny's door.

I didn't really enjoy this story as much as I did the first two. The other books were short, too, but they managed to touch a few things in each. In this one, Thom's brain injury isn't really ever addressed, and Ginny doesn't seem to know about it, either. I know that Thom had already decided to continue active duty, but there wasn't any follow-up mention of how things were going with GAPS.

This is one novella I definitely think should have been a full-length novel.
