The Chronicles of Kerrigan Box Set - Books #1-6 by USA Today WJ May

### *Book 1 - Rae of Hope*

#### **How hard do you have to shake the family tree to find the truth about the past?**

Fifteen year-old Rae Kerrigan never really knew her family's history. Her mother & father died when she was young; it is only when she accepts a scholarship to the prestigious Guilder Boarding School in England that a mysterious family secret is revealed.

Will the sins of the father be the sins of the daughter?

As Rae struggles with new friends, a new school and a star-struck forbidden love, she must also face the ultimate challenge: receive a tattoo on her sixteenth birthday with specific powers that may bind her to an unspeakable darkness. It's up to Rae to undo the dark evil in her family's past and have a ray of hope for her future.

### *Book 2 - Dark Nebula*

Nothing is as it seems anymore.

Leery from the horrifying incident at the end of her first year at Guilder Boarding School, Rae Kerrigan is determined to learn more about her new tattoo. Her expectations are high, an easy senior year and a happy reunion with Devon, the boy she's not supposed to date. All hopes of happiness turn into shattered dreams the moment she steps back on campus.

Lies and secrets are everywhere, and a betrayal cuts Rae deeply. Among her conflicts and enemies, it appears as if her father is reaching out from beyond the grave to ruin her life. With no one to trust, Rae doesn't know where or who to turn to for help.

Has her destiny been written? Or will she become the one thing she hates the most—her father's prodigy.

### *Book 3 - House of Cards*

Rae Kerrigan is three months away from graduating from Guilder Boarding school. She is now moonlighting as an operative for the Privy Council, a black ops division for British Intelligence. She's given a mentor, Jennifer, who fights like a demon –fast, tough, and incredibly strong-willed. Rae finds a strange maternal bond with her. At the same time, she finds a new friend when Devon disappoints her once again.

Childhood memories surface and evoke hidden secrets she is determined to solve. When the Privy Council ask for her help, she finds a friend, and a link, to the Xavier Knights – another agency similar to the Privy Council. Through the mystery and secrets, she begins to question what the PC represents and where she stands.

Will she lose herself in the confusions of the past and present? What will it mean for her future?

### *Book 4 - Royal Tea*

The Queen of England has requested the help of the Privy Council. Someone is trying to kill her son's fiancé. The HRH Prince plans to marry a commoner, and his bride has a secret no one knows but the Privy Council. She has a tatù. When the Privy Council turns to Rae for help, she can't possibly say no; not even when they make Devon her partner for this assignment. They are to pose as a couple and work undercover, as bodyguards, to protect the soon to be Princess of Wales.

Rae would rather be anywhere but with Devon, especially since she believes her mother to be alive, despite

the Privy Council's assurances to the contrary. The question is, how can Rae find proof of life for her mother, come to terms with her feelings for Devon, and manage to save the Princess, all while dressed for tea?

When the enigma, the secrets and the skeletons in the closet begin to be exposed, can Rae handle the truth?

#### *Book 5 - Under Fire*

Rae Kerrigan is determined to find her mother. No amount of convincing from Devon, or the Privy Council, is going to make her believe her mother is not alive, and Rae will stop at nothing to find her.

Torn between friendship and loyalty, Rae must also choose between Luke and Devon. She can't continue to deny, or fool herself, any longer. The heart wants what the heart wants.

#### *Book 6 - End in Sight*

When life couldn't get anymore confusing, fate steps in and throws a curveball.

**Nothing like i have ever read....**

The chronicles of Kerrigan is a very well written story with so many twist and turns that you will be sitting on pins and needles as you stay away each night to try and finish a chapter then end up finishing that book before you realize it is 2 or 3 in the morning. W.J. May has a different approach of grabbing her readers and keeping them wanting more. I am very pleased with my very first series I have started for this amazing author. As soon as I finish this full series I'm going to check out some of her other work. This is a story about getting powers when you turn 16. The main character of the story has a very rough time when she reaches the special school that others like her attend. She has some really close friends and some people she should have never trusted but once she figured that out she gets even stronger. If you get a chance he sure to check out this amazing series but W.J. May for yourself. You won't be disappointed if you do.

**Interesting story, but almost mediocre writing**

The storyline is definitely very intriguing, and dare I say an original twist on supernatural abilities. However there is room for much improvement. The writing style is almost, almost confusing. There seem to be a number of loopholes that were hastily patched up or vaguely explained away, and in some cases ignored altogether. There is somewhat of a consistency issue as you progress through the book. Also, things move along very quickly while somehow almost moving nowhere. Overall, it's a good book and the story was enough to help me tolerate the problems. I hope the author continues to grow as a writer and improves.

**Good read.**

Would be really nice if all of the books in a series were free.

I really enjoy the fantasy type of books these all are as they get me to forget my own boring life.

This one takes you to a great historical area of the world where lots of authors have written of wizards and witches and the like for years. The slightly complex ideas of getting some sort of power is not new but this one puts a nice twist with how those powers work for both good and evil. Now I will see if I can find the next book to hopefully find out if everything works out!

### **Book 1: Rae of Hope**

My suggestion is to read the prequel series before reading or listening to this series, it will make a whole lot more sense.

The daughter of two tutu parents , Rae Kerrigan is attending a new school, but it by the school's invitation. Rae, however, knows nothing about the school, her parents association with it, prior to the deaths, 10 years prior. In fact she knows nothing about tatus, the ink that appears on those who turn 16 from the inked lineage families.

Rae is in for shocking term!

### **Book 2: Dark Nebula**

Rea's 2nd year at school in England, with a new headmaster (her secret boyfriend's father). There are a couple of new students, and still a lot of undercurrent due to Rea's father's recording.

This is a high octane story, with lots of banter between students and the sinister feeling that all is never as it appears. It appears that Simon Kerrigan is still affecting the world, long after he apparently left the mortal realm.

### **Book 3: House of Cards**

I am thoroughly enjoying this series.

I do find that for clever people the characters seem to forget or overlook a lot of information. plus, a sibling turns up within Guilder, and no one knows his ability!!

### **Book 4: Royal Tea:**

For a society created by the king in Tudor time, the Royals seem to have v forgotten their ties and why the society was formed.

This is a dramatic episode, with the Royal family being caught in the crossfire of those with ink against those that have been put in place to prevent tutus from taking the thrown.

### **Book 5: Under Fire**

I listened to the audio rendition of this book.

With the idea that her mother could not be harmed by fire, Rea is hell bent on finding her.

Unfortunately, Luke is caught in the crossfire, but the information he still holds helps.

A very dramatic episode, one where we find a whole lot more about those around Rae and their motivations.

## Book 6: End in Sight

Again we are faced with how to deal with a traitor, but Rae's solution does not sit well with all her companions.

Information lost is found and the final piece of the puzzle is solved. However, first is the examinations for final graduation and the ceremony itself.

A more sedate episode but progress is being made to find the master mind.

### **Shamus says**

I'm going to be generous with three stars. I wanted to quit this book many times because the writing is so terrible. The characters are shallow caricatures of actual humans. Her portrayal of both teenage males and females makes me wonder if she had any contact whatsoever with the species when she was at that age. The characters are constantly overreacting to the non-information they are given. There is rarely any information given at all, despite there being numerous times in the story when any person, rational or not, would just ask the stupid question.

Yet, despite all that, she is telling a good story. The first four books, the one's I've read so far, are a good story told poorly. She approaches the introduction to a super-powered world from a unique perspective - that of the offspring of a villain. Were this story told by an actual wordsmith I would ask for more stars to give it. However, I can only recommend it for people who, like me, find it difficult to give up on books once started and are able to see beyond the terrible prose to the plot beyond.

#### **Totally different**

I don't even know where to start! This series is phenomenal. It's real, it's fantasy, it's captivating, it's beautiful, it's surprising. It is a series you will not be able to put down. I highly suggest reading it. If you love the whole a world within a world thing, the forbidden love thing, or just reading.. you will love this series. High five author, best book I've read in a while!

### **Rosa-Lynn Ruiter says**

This box of the first 6 books contains the next titles:

- Rea of Hope
- Dark Nebula
- House of cards
- Royal tea
- Under fire
- End in sight

Just only the titles tell you so much of the series and the build up in the total 6 books is really good. Through

out the story you stay interested. There wasn't a part which I found boring. Also the book had a good combination of adventure and romance.

I don't want to spoiler too much. But the main character Rea Kerrigan will always face a new trial and not always everything is as it seems.

You can see Rea grown in all the books, with every new experience you notice that she acts more mature. The way she processes that she has power, her family reputation and the loss of her mother as well. Rea has so many questions about it and everytime one question is answered there are 3 more to replace the one question that she asked about.

Ofcourse I can not forget to say I really loved the way Rea and Devon their forbidden relationship was written down.

All by all, this is a really great serie, it stays interesting through out all of the books and within 2 days I was done with all the 6 books. I was binge reading it, because the story was really bringin me to it. Like I was there with Rea.

This book is highly recommend if you like fantasy, adventure and romance.

### **Thoroughly enjoyed!**

I was a little skeptical about this book series at first but I have come to love it. Action, drama (even if it's high school), espionage, and little bit of romance. I love that fact that the author thought of an awesome way to twist tattoos into super powers! That I think is a really creative twist. That concept makes me start wondering about other cool tattoos I see and what super powers people would have. :)

### **Amazing and original series!**

From book one to book six, I was completely mesmerized by this fantastic tale of teenagers gaining supernatural powers through unique tattoos at the age of sixteen. In the old days, it was only males that were trained, until Rae Kerrigan came along... Her mysterious past she knew nothing about until she steps foot into her new English "boarding" school.

These books are filled with dangerous plots, twists and turns, along with deceit, lies and utter betrayal. Rae finds herself with a handful of friends she can rely on and trust completely. This series will blow you away! There's too much to go over in six books. You simply HAVE to read it to find out! It's definitely a must-read series! If you pass this up, you have no idea what you're missing! 5+ stars! I can't wait to download book seven!

## **Pat Raab says**

I had read Book 1 twice before, and getting through 6 books in 3 days was an epic effort, but I just couldn't stop reading! Love the feisty, kick-ass characters of Rae and her unusual group of friends (and enemies) that I got to know quite in-depth. Rae's baggage, her father's dark past, a tumultuous present, and lots of unexpected blips along the road keep this tale of the paranormal going in many directions, but many of the threads have come together.

### **New superheroes are moulded in this series**

Starting a new school is always daunting. More so when it is a school for people with an unusual gift. All forms of power are moulded at Guilder. None more so than Rae Kerrigans. She is special, even among her own community. Hidden from normal folk a secret dating from Henry 8th these students learn how to control the gift they receive on their 16th birthday. A very well written series that is very enjoyable. You just want to keep reading to find out what trouble Rae is going to find herself in next. She is different and there are those that want her dead. My only criticism is that the story is based in the UK but the author flicks from British terminology to "Americanism" in dialogue and descriptions.

### **I enjoyed this book because it is so well written**

Although fantasy, the author makes it not only possible, but believable. There's enough action to get the adrenaline you want, but it has a definite plot. No running around trying to see where these random words go. Her ends may surprise you, but I think it always makes me feel satisfied with my story. I start thinking about the next installment of the saga, which I will probably read in its entirety.

### **Best Book Series Ever**

I have never taken time to review any books that I previously read. But the suspense, thrill, twists, mystery, romance and never unending adventures that has kept me glued to this book series. It's a real page turner gruesome from beginning to the end. May the author receive my gratitude for the wonderful creation from her great mind that now livens up my life each day I let it cruise my mind.
