**~THE VAMPIRE GIFT 8: SHADOWS OF MIST~**

The crown now sits atop Eleira's head. With her new powers as Queen, she can begin the healing process to reunite the Haven's ailing vampires.

But a deep betrayal from one close to her heart has undermined all sense of safety. Morgan's lingering spirit continues to overshadow Eleira's rule.

Elsewhere, the Forsaken Sisters have received the Blood Gift. But their maker was not the promised one, and the consequences will cast lasting effects on everything that is to come...

Meanwhile, a new threat lurks beneath The Haven. An army, grown there for centuries, is now ready to strike.

*Get ready to return to The Haven with the next instalment of The Vampire Gift!*

**???AMAZING???**

This is one of the best in the series so far!!! I could not put it down... I really wished I waited for the next one to come out before reading this but I couldn't resist yet again.. Your books have been so intriguing and on edge absolutely amazing ?

**Great series ! Beware cliffhanger!?**

Such a great series. I didn't stop reading since reading the first book . I don't like to start a series that doesn't have an ending . I'm impatient and I've had my share of waiting sometimes years between releases within series. I hate that . This is such a great creative story and fingers crossed the 9th is released very soon.

#### **Vampires and Magic**

I absolutely love this series!!! Some series you can read out of order but this one you need to start from book 1! Once you start reading you will read them all! Really love the story being told from each character perspective! You will love it!

#### **Cue the Explosions!**

The deeper I go, the more I am intrigued by what will happen next. I am proud of the woman Eleira is growing up to be, despite being still so young. Instead of cowering away from her destiny, she has faced it head on. With that being said, it is clear that the young lady still has much to learn. By this book's end, Eleira has four strong women in her corner. With their help, who knows how strong this girl will become. Raul's temperament has changed and I am quite pleased at the transformation. I'm curious to see what happens with him. Who doesn't love a bad boy with a strong heart? Phillip is constantly walking the thin line between bad and downright evil. His fluctuating nature worries me because when push comes to shove, will he betray those closest to him? The o!seat Soren brother has surprised me. At first, I thought his plans for starting his own coven was a joke but with all this progress he has made, it seems I was too quick to judge. He's not totally out of the woods but where this book leaves James, I am more confident in his abilities to withstand insurmountable odds. Needless to say, I'm thirsty for more!

### **Fantastic read**

This book is hard to put down. Keeps you interested all the way to the end. Loved every moment.

### **Eleira**

It continues to amaze me that not one person trusts another. Look forward to the finale but hope it's not too long in between books as I had a hard time trying to remember the characters and what they were about. In saying that there is barely one redeemable person in it. Enjoyable though

### **The Vampire Gift 8: Shadows of Mist**

Some spoiler alerts ..

While I loved the first 7 books, this one kinda dragged little.... I am usually one to not put a book down or can't wait to get to a book, but this one didn't get me excited... it took me forever to finish this book, I will continue to read the series to see what happens because that's how I am, but I hope the next book is better... what happened to a book coming out every 6-8 weeks?

they are really dragging this prophecy out, and to my story lines going on at the same time...

now Morgan's awake, who is linked to who, if you hurt this one she dies or he dies, they killed someone dear and no one even cried really?!?!?!
