Wicked Wildlife Mildred Abbott

Fall gives way to winter in the Colorado mountains, ushering in snow, pumpkin spice, the bugling of elk, and murder...

Estes Park bustles with tourists and locals for its Halloween celebration, and Winifred Page and her corgi sidekick, Watson, are enjoying their favorite pastries as they greet trick-or-treaters outside the Cozy Corgi Bookstore and Bakery. But a chilling afterhours break-in at the charming bookshop leaves Fred and Watson shaken, especially with its connection to a recent poaching incident in the national park. By daybreak, on a cool morning walk through town, Fred discovers the body of one of the poachers...

When Fred's close friend, park ranger Leo Lopez, asks for her help in proving the innocence of a fellow ranger, Fred and Watson join the investigation. But with every uncovered clue hinting the police have the right person, Fred must uncover a mystery whose webs reach into the past and her experiences over the past year.

Even amid the beauty of the snow covering the mountains and the twinkling lights of the beginning holiday season, Fred and Watson won't make it to Thanksgiving without facing dangers and revelations that will change their lives.

(This culinary cozy mystery includes a recipe for delectable artisan garlic-infused bread.)

Wicked wildlife

The series is such a fun read and the mysteries are opening up more secrets in the little town of Estes Park. Can't wait to find out what happens next.

As a born bookworm, I am always looking for new authors (new to me, anyway) and new books to enjoy, especially in the cozy mystery genre, I confess to being addicted to the genre, and now to the Cozy Corgi Mysteries. Each one is a delightful read and this one did not disappoint.

Quite a few loose ends were tied up for me in Wicked Wildlife, suspicions that I hoped would be proven false were, sadly, verified. However, as with anything in life, as one door closes. another opens to fresh, new possibilities. How delicious!

Speaking of delicious, Katie's recipes are out of this world scrumptious!!!

I am so happy that there will be a Book 9 - and I am already looking forward to it!

4.5 Stars

Talk about unexpected twists and turns! Fred is hit with several shocking surprises in this newest addition to the Cozy Corgi series. None of the charm of the town of Estes Park has changed, with Fred and her close friends plus family, all present and accounted for. This time the murder has Leo asking for Fred's sleuthing skills to clear his fellow Ranger of the murder of a poacher. In her search for information, we get to know a bit more about a few characters recently introduced in the last couple of volumes. Fred discovers there are far more sinister goings-on in the Park than she ever imagined and is confronted with serious danger.

The author has really stepped up the complexity with this story and seems to be building a new and intriguing framework for future mystery-solving for Fred. I was also left rather stunned by the direction one key character was turned to. I never could have predicted that. I'm a bit iffy over the ending because I'm not sure it really fits or completely suits the personality Fred's been given. But I was thoroughly engrossed and extremely pleased with this exciting book.

There are two things that really appeal to me -- cozy mysteries and corgis. Mildred Abbott's Cozy Corgi Mysteries offers up both! Winifred Page, "Fred" to her friends, and her grumpy, treat-obsessed corgi, Watson make a perfect team. Set in Estes Park, CO, "Wicked Wildlife" involves the murder of a poacher, who, along with his brother, breaks into Fred's bookstore. When a park ranger who works with Fred's friend, Leo, is accused, Leo asks amateur sleuth Fred to investigate. The author has created an enjoyable series with interesting and diverse characters. This book explains some of the ongoing puzzles in the previous books and takes the reader through many twists and turns to reach a tough, but satisfying conclusion. Whether you are a corgi fan or not, you will become a fan of the series.

Terrific - didn't see this coming!

What a terrific plot - left me completely gobsmacked! Wow! Never in a million years would I have guessed this.

Poaching was happening with more regularity and when Leo and Watson chase after some poachers, she begins to understand how vulnerable they are. Later after closing the shop, she settles down to catch her breath only to hear two men (who have been hiding in the store) come out and brag about the poaching whilst they robbed her till. When one turns up dead and a new ranger is accused, she is asked to help. Can she uncover anything that would clear her? Where is Paulie's dog? He said he was with the vet but the vet denies it. Throw in the mob, drugs and mob hit men for a read that will leave you speechless. Terrific.

The best book of the series so far. This book provided a lot of answers to the questions that have been swirling throughout the series. It also did a nice job though of providing intrigue for it to continue. I love this series and her characters so much. I hope Mildred continues writing it for many years to come!!

Hmmmm... that felt like a Buffy season finale.

Wow. Where to begin on this book? I loved it. It's amazing how all the pieces from the previous book finally came together in a way I didn't expect at all. I've loved this series from the beginning but this is easily the best book in all of them. I can't wait to see where the story goes.

Fun!! I'm starting to think Brandon Witt is just as versatile as TJ Klune, even if they show it in different ways.

Watson is ADORBS, Fred is living my best life*, the townspeople are about a 7 on the annoying scale (1-10), the mystery was interesting enough, there's an overarching storyline that seems like a good one, and I wasn't too lost despite jumping into the series on book 8! So. :)

Definitely your relatively standard cozy, but aren't they all kind of standard? That's sort of the point, I think.

I'll definitely read more! Just gotta decide where I should start—and remind myself that even though I spoiled a MAJOR THING by reading this one first, the others will still be fun. :)

*except I'd be drinking iced espressos instead of dirty chais.

Fred and Watson are at it again

I believe this is the best book yet. There are some unexpected surprises along with all the characters we love. And of course, Katie's baking makes me hungry. Love the recipe at the end.

Anna's Herding Cats says

Whoa! WHOA! Wicked Wildlife left my jaw hanging because whoa. Game changer.

The Gist: There's been a break in at the bookstore and somehow it's connected to the poachers who've been plaguing the state park. After one of them shows up dead and a park ranger accused Fred decides to take a closer look and gets way more than she bargained for.

Fred continues to be a great heroine. She's abrupt and can be a bit awkward socially sometimes but she's smart and caring and curious. I've enjoyed her and her grumpy corgi and all the ragtag group she's surrounded herself with over the past year.

The mystery. Well holy fucking hell. Break ins, poaching, murder. Everyone acting hinky. I wasn't really prepared for this one and still after finishing it I'm going...wait really?!? oh my hell. I'm with Fred. I didn't see it coming but looking back going yeah...okay I can see that. Args! I'm not sure what I think of the final outcome really.

All in all, Wicked Wildlife was a surprising read. Not in a bad way. It kept me glued to the pages, got my heart beat racing a few times as danger neared, had me tearing up, shocked, angry, sad at a loss all in turn. It was nicely done.
