Breaking in Bella Isabella Laase

After Bella Mikelson wrecks her car while driving drunk, the spoiled twenty-two-year-old faces a difficult choice. If she wants to stay out of jail and keep her trust fund, she must accept a plea bargain which will require her to spend a year working on a Wyoming ranch under the strict supervision of Jackson Sullivan and his brother Lincoln, two tough, handsome cowboys who will not hesitate to provide the stern discipline she has been missing.

Seeing no other way out of her predicament, Bella agrees to the terms, but it is only a matter of moments before her defiant attitude earns her a painful, humiliating spanking that leaves her cheeks blushing and her bare bottom burning.

As she grows accustomed to life on the ranch, however, Jackson's firm-handed dominance sets her once-hidden passion on fire, and soon she is yearning for him to claim her properly. But is she just a project for him, or is he ready to be the master she has desperately needed for so long?

Publisher's Note: Breaking in Bella is the first book of the Cloudcroft Ranch series. It is a stand-alone erotic romance novel which includes spankings, sexual scenes including a threesome, and more. If such material offends you, please don't buy this book.

Breaking in Bella

Fantastic storytelling with plenty of intrigue and loving people who are perfect for each other. I greatly enjoyed this book and the author seems to take advantage of the best ways to make you see all of the characters in this story.

Loved this book

This author is new to me. The story was well rounded. The characters were fleshed out. Sex was good. The testosterone was everywhere. Naughty Bella learned some valuable lessons. The men at Cludcroft made sure of it. I love that this author created a story long enough to connect with me but short enough not to bore me. The BDSM was not too much. Read this book if you love good a good romance with spanking and a bit of BDSM.

Loved it!

This was a first for me by this author. I liked how you could relate to the characters. It was well written that had me turning the pages to see what was happening next. Hot Cowboy and a spoiled brat that needs taiming. Can't wait to see what else happens at Cludcroft Ranch.

Bella is the first in the Cloudfrost series and recently became an International seller across four continents! Watch how powerful Jackson Sullivan brings the bratty Bella to his side in a modern, BDSM relationship.

Very nice

This is the first book I've read by this author. I have to say that I'm pleased that I tried it. The approach of the BDSM was excellent. The challenge of communication and follow through was dealt with wonderfully. I will be reading the rest of the series.

I received a copy from Stormy Night Publications and I voluntarily reviewed this book.

This is my first Isabella Laase book and I enjoyed it and will definitely be reading the other books in this series. The story is well written and populated with diverse cast of characters (in this story - it does take a village to raise a child). I liked the characters from Cloudfrost Ranch, but Bella was such a spoiled rich b*tch that I kind of wanted to see her crash and burn. The author does a fantastic job of showing us Bella's journey to responsible adult and the help that she receives along the way. The Cloudfrost crew are one big family and even though some are harda\$\$es, you can see the caring and support that they have for one another and their new charge. The story is well paced and I could not stop turning pages as I wanted to see what kind of trouble Bella would get into next. Overall, it is a good story (I just wasn't thrilled with the sharing and Bella's push to jump into the BDSM scene).

Out of Control Brat

Isabella Mikelson is an out of control, rude, entitled, rich brat. Her mouthiness knows no boundaries and she has no filters. Following a horrendous drunk driving accident, her license is suspended and her mother takes control of her trust citing the improper behavior clause. Jack Sullivan, son to Bella's trust attorney, arrives to offer her a plea deal that's not much to her liking. But, if she wants to ever get control of her trust fund again, she has no choice but to take the deal. Bella's transition to life in rural Wyoming is a tough one. On top of everything else she now lives with three Doms who closely monitor her behavior. She spends much of the first 6 months getting her bottom spanked by Jack for various infractions. Bella slowly comes around, begins to learn about submission and becomes part of the Cloudfrost ranch family. What will happen when her year is up is anybody's guess but Bella still has some growing up to do.

Greylings54 says

Reasonably enjoyable story about spoiled rich girl taken to live on ranch and adjust to work, rules, spanking, being responsible, etc. It took quite a while to get to the sex, but the spanking scenes were pretty good. It's amazing how many different ways authors find to come up with BDSM resorts, clubs, etc.

Cora lee loy-olazabal says

The bass girl doesn't break, she submits.

Bella has one of the baddest attitudes I've ever seen. You can't help but feel sorry for her. Will she learn to submit to her feelings, or will she be fighting for ever.

Breaking in Bella was a very interesting read. This book was not at all what I expected, but I still enjoyed it very much. I actually sped through all four books in this series in three days and will absolutely read more if the author writes them!

Bella is a difficult main character to identify with and like. She is spoiled, unskilled, whiny and constantly lands herself in situations far beyond her depth. The author had a tough job to make the reader fall in love with Bella, and I don't quite think she managed, at least for me. That being said, Bella's history shaped who she is and this is explained to the reader, and she makes huge strides to better herself throughout the course of the story.

The hero, Jack, is super sexy and so are the others, who happily have books of their own ?

The book is billed as a MMf romance but it is NOT. Although there are some menage scenes, the relationship is strictly between Bella and Jack.

There are plenty of sexy spanking scenes and emotional outbursts in Breaking in Bella, but few other instances of BDSM. I was dubious when I stumbled upon this book because of the title, but I was very relieved to find that the dominant characters always treat their submissives – and all women – with respect. The term “breaking” in this case wasn't used in a sinister manner.

I love western romances. Maybe its because I am a country girl at heart, but something about the mountains and cowboy country just gets me every time.

Wow an unexpected jem ❤

What a wonderful read This book offered some smiles and a little laughter Along with Some spankings And love Yeah also an unexpected relationship And it up in happy tears for me Loved it to the very end

Firefly says

I would thoroughly recommend this book. Bella has been making poor decisions for several years and appears unable to regulate her emotions or prevent herself from lashing out (verbally) at others. Her luck runs out when she crashed her car while way over the alcohol limit and she is forced to spend a year at a ranch in Wyoming run by Jackson, Lincoln and Marcus. Several spankings later, Bella starts considering the reasons her own actions and the effect her actions have on others. Of course, being able to reflect after the event did not necessarily prevent other misjudged outbursts. I particularly liked that this story took a year to develop, as did the relationship between her and Jackson. At times Bella was a very unpleasant person to be around, fortunately Jackson was consistent and persistent. She is then left with decisions to be made at the end of her year at the ranch. I received this book as an advance review copy.

This one just didn't do it for me - I couldn't engage (Bella is bitchy and defiant) and the sex wasn't that hot - it was fairly tame as these stories go. I loved the setting but there was a lot of talk, not a lot of action, and I just didn't care so much for the characters. This will suit those who like to imagine things like being spanked and a guy telling you what to do - but more from a glitterkink type.

To be clear, if your thing is MFM with some spanking and bossing around - and you like plot to sex ratio to be heavily dialogue and convo and plotty (vs porny) this will probably be a great choice for you. I like things much harsher, a lot more reluctance, a lot less brat, and a little less talk (unless it's dirty talk)

Fantastic start to this series I can't wait to read more. I just loved all the dominant males in this book I just couldn't put it down I was in love with the whole story
