Bridge Over Time Brenda Hiatt

Kathryn Monroe, busy activist and socialite, humors her mother by agreeing to attend her costume ball at the ancestral mansion in South Carolina. What she doesn't admit, even to herself, is that she actually looks forward to a break from the frenetic pace of her increasingly shallow lifestyle. She gets much more of a break than she anticipated when she passes the grandfather clock on the landing, on her way downstairs to the party, only to be transported to 1825, where she is mistaken for the girl who would become her great-great-great-great grandmother! Even more shocking, she finds herself falling for a man her counterpart despised.

Catherine Prescott feels increasingly trapped as her parents try to push her into an unwanted marriage and pile restriction after restriction upon her activities in their efforts to turn her into a proper young lady. But on her way downstairs to an important social function, she passes the grandfather clock on the landing and discovers herself in the twenty-first century, where it appears everything she ever dreamed of--and more--has come true. To make this amazing new world even sweeter, she seems to have found her soulmate in a man her identical descendant never cared for.

But will capricious Fate allow each to find happiness in another time?

Sandra Dagg says

Just finished this one, and have to say I really enjoyed it! I have read several time travel novels, but this is the first time I've read one where family members exchanged places in time...it was such fun to read! You have to pay attention, so this book needs to be read when one isn't distracted, as it jumps from the 1800s to the 1900s to carry on each story line. The effort is well worth it though. I would recommend this one to anyone who is interested in historical romance, and time travel....a really cool story!!

Patricia says

This book is probably the first book (in like 1800 books) that I have rated lower than it actually deserves. This is really a four-star book. What three stars means is that I cannot turn to someone and recommend this. The dilemma is this. Although somewhat "off screen" or "fade-to-black," both couples had sex, one couple twice. The encounters were not so graphic that I had to quit reading and, in fact, the events seemed over almost as quick as they had begun but it leaves me with an unease in recommending this book. So I leave it at three stars. Because of my unease, this is probably not an author for me, either. However, this was such a clever story about the switch that took place between the young ladies. I love time travel! I thought the writing was good, too. Sigh.

Arlene says

Great time travel romance! One Kathryn goes back in time and her ancestor Catherine comes forward in time. I love time travels when they make you realize how you would have to live without modern conveniences. But its also interesting to think about how someone from the past is shot into the future and would they find how things have changed in 100 or whatever years a good thing or not? Great books, loved it!

Kim says

Good plot but long

I did like this story however it was a bit long and drawn out. It was not so riveting that I couldn't wait to see what happened next but I did enjoy the ending. The plot was good and the characters were likeable. Just wished it drew you in better.

Jennifer DeCuir says

I love time travels as a whole, but having the two characters switch places in time was such a fun and unique

twist. Going back and forth between the two women worked especially well when the author left one of the women in a tense situation. Ordinarily I would have stopped at the end of the chapter, but with so much at stake, I had to read on to make sure everything turned out all right. Whew! Ms. Hiatt made me work to see my happily ever afters. But it was worth it.

Holly says

3.5 Stars. Good story. Good ending. A little long. A perused parts.

Crystal says

Loved it

Toni Mariani says

My favorite genre!

This is a good one. Both of my favorite genre's combined to make a great read! Plantation life, with all it's evils and sometimes glamour, and time travel. Thanks Mrs. Hiatt.

Lorraine says

A fun read.

Mary23nm says

Bonus point for a cover that actually is a good representation of the story.

Brenda says

Time Travel Romances are one of my fave genres to read... I think this would be one of the hardest genres to write, given the different eras and keeping on tracking to the plot for both past & present! This book was well thought out and written, I applaud the author for this amazing story! The storyline was captivating and the elaborate details of this tale flowed so well...as a reader that makes for a wonderful read!

Tatiana Lammers says

I won this book from the author on Facebook, and I am so happy I did.

This book was amazing! The plot was very imaginative and the writing smooth and creative. I could not help but fall in love with the characters and root for their happiness. I really enjoyed all the details in this book - both, from the past and from the future. This was such a page turner that kept my attention and did not want to let go for a while after I was done reading. Loved it!

Christie says

This book was really good and very interesting. It takes a page out of history plus it has mystery.

Kbee says

Really liked this one!! Great story a new twist of time traveling (for me)but it was fun.

Fun fast easy read! Kathy & Ryan were as sweet & lovable as Cathy & Logan.

Love how Annette became a very good friend to Cathy and helped through most of it, even as she missed Kathy.

Sunny B says

I've read many many time-travel novels and this one has a nice concept, it's different as the traveling is done in the mind and not physically, between a woman from 2013 and one of her ancestor (from 1825). I really enjoyed it, the ending made me smile :)
