Wow, this book really drew me in, after reading the first two, I could not wait to find out what would happen to the exiles. Man, I wish there were more women like Kerianseray out there for me.

This is the third book of a trilogy and the others must be read before this book. The elves have arrived at a territory that they are going to call home. The problem is that there are several mysteries that need to be addressed because the elves in their new home will not last long if they do not solve these mysteries.

This book was a strong finish and this whole trilogy was one of the better ones that exist in this world. There are several sub plots throughout this book and the authors do a fantastic job with them. Whether it is the evil mage who is planning to destroy or the elves survival all of these plots end up weaving into an exciting conclusion. Even though this story is about elves there are different characters that one can identify with and experience character growth. Gilthas is a prime example of this as he is a character used throughout this universe. We get to see his leadership qualities in this trilogy and his journey was a joy to read.

There is not a bad book in this trilogy. I did think the first book was probably the best one out of the three but all of them are great reads. I loved the idea of a race trying to find a new home and we getting to see their trial and tribulations throughout.

All-in-all, this trilogy was pretty meh. I've already forgotten about it, and I just read it yesterday.
