## **Ghostly Asylum** Lily Harper Hart

Something haunted this way comes ... and it means big things for Ghost Hunters, Inc.

It seems Phantoms, one of the most popular shows on the Independent Ghost Hunting Network, is interested in doing a location shoot at Ludington Asylum, which just happens to be located on a small island near Whisper Cove.

Since childhood, Harper Harlow has been infatuated with the story of a crazy doctor gone rogue and the resulting investigation that found numerous missing patients (but no bodies) at the former institution.

Producers want to feature Harper and Zander on their show, and Zander is happy to oblige despite Harper's reticence.

Sensing his girlfriend is struggling under the weight of her worry, Jared Monroe takes some vacation time and decides to tag along on what's supposed to be a three-day excursion full of mayhem and madcap adventure.

Not long after landing, people start disappearing and Harper's not convinced it's the ghosts running roughshod over the group. It seems they might have a killer in their midst, although unraveling the hows and the whys of an old mystery overlapping with a new one is anything but easy.

It's a race to the finish for Whisper Cove's favorite ghost hunter. She has to solve a mystery with ties to the past, save her friends and the man she loves in the present, and find a way to help the trapped spirits so they can look forward to a different future.

Of course, Harper has to survive herself to do it. Someone is bound and determined to make sure that doesn't happen, and it's going to take everyone working together to survive until the final day.

## **Rhonda Jones says**

### **Awesome Story**

This was a great story with fantastic characters. A haunted asylum, filled with tortured souls. And a gruesome history. But even more is going on with the living people visiting the asylum, that is inconveniently located on a small island. This book was cringe worthy, sad, and unexpectedly funny in a few instances. But never boring, it was a fast paced page turner. I loved it.

---

## **AVBooklovers says**

### **Amazingly creepy and fun!**

I loved this book. I love the series but this book in particular (so far) had and kept me in suspense. I still love the Zander-Harper friendship. So glad that Shawn is still here. Jared is still sweet. The dynamic between these characters is fascinating and exciting. Anna was my favorite! I'm supposed to go run errands but I think I'll start the next book first. Lol.

---

## **Munira Vahed says**

### **Wow!!!**

This story follows Harper, Jared and their small group of friends as they explored an asylum that is rumoured to be haunted for a TV show. The story behind the asylum is tragic and straight out of a horror movie. When people start to disappear, things start taking a mysterious twist. I enjoyed the interactions of everyone, especially Harper and her best friend, Sander. Lots of twists and turns occurred in the story and another love story was revealed. Fab read. Want to read more.

## **Page says**

As much as I hate to say this, "Ghostly Asylum" was not one of Ms. Hart's best books, at least in my opinion.

I loved the concept of the story, but wish it had more ghosts for Harper and Zander to interact with.

But the biggest turn-off was Jared. OMG! He said, "I don't want to be separated from you" so many times I thought I was going to scream in frustration. It was way over the top. Yes, we know Jared loves Harper with all his heart and soul, and we also know he lives to protect her, but - OMG - tone it down a bit.

Having said all of that, am I finished with the series? Not by a long shot. I still can't wait for the next book.

## **Diana Blick says**

### **Too much snark**

All crankiness aside, who acts like this. The arguing between Zander and Harper and innuendo between Jared and Harper continues unabated even when Mollie, et al, is missing. No seriousness, no worries. Just no. And so little ghostly action that it isn't worth reading. But otherwise, the plot holds together etc so a three is honest.

---

## **Melissa says**

Such a wasted opportunity!

A haunted asylum had a lot of potential. I really wanted Harper to meet more ghosts and get their backstories.

Even if it couldn't all fit in one book- there were references in the end that she was returning to help the ghosts. I would love to know more and to learn how the experience affected her.

Wasted opportunity. Boo.

### **Another Harper Harlow Mystery.**

I think I say this on each book, but I do love Lily Hart's books.

This one I really enjoyed because all of them was in the story. Harper, Jared. Zander had Shawn with him and also Molly and Eric.

It takes place on a island in a haunted abandoned asylum. What could possibly go wrong?

---

## **Elisa Hordon says**

Spooky, scary and a great freakfest of a read.

Harper, Jared, Zander, Shawn, Molly and Eric are off to on an island adventure but it will be unlike any other island adventure due to the haunted Asylum located on the Island...

Harper will do anything for her best friend Zander even agree to be on tv just because it's what he wants throw in loads of ghosts in a haunted asylum located on and island in the middle of a lake and you have an absolute nightmare for everyone to live through but what is worse is when people start going missing including Molly then things become really real and Harper is beyond not happy.

Talk about an awesome story that really was happily thrilling if thats even a thing...lol

### **Never thought I would be disappointed with Harper and Zander**

This book has been my most eagerly anticipated for the Harper Harlow series so far. An old broken down haunted lunatic asylum on a deserted island, what could be spookier and right up Harper's street. with a TV company wanting to hire Harper and Zander to go out there and do an investigation looking for ghosts while being filmed. Best book yet. But no, i don't know what went wrong but from the moment we are introduced to the film crew it's just bad. Jared, who insists on going along to protect Harper, starts throwing his weight around, using his authority as a police detective as justification. There's a lot of bickering between the film crew and Jared which is very irritating after a while. Then when they start the investigation in the asylum the only female member of the T V crew disappears and nobody is really worried in fact they even stop the half hearted search to cook and eat a meal. In Jareds defence he thinks the crew have set up her disappearance to manipulate Harper but her own crew show no sense of urgency. There is no sense of danger whatsoever. So there you have it i could continue but do not want to give away more of the plot. There are good moments in the book, you do still get some snarky moments between Jared and Zander and Zander and the TV crew, there's some funny moments as you would expect and it is an easy read. It's not the best but it's also not the worst, I do so enjoy spending time with Harper and Sander i just expected so much more.

### **A Killer Plot!**

I think Ghostly Asylum has to be the scariest of all the adventures Harper & Zander have gotten themselves into so far. It has that edge-of-your-seat intensity that kept me captivated from beginning to end! Of course, though, what would a Harper Harlow book be without the snarky banter between the main characters & the love between Jared & his Heart! Lily Harper Hart has another winner in this series!!

## **Debra says**

### **Higher hopes....**

I always hope a series will get better as it progresses but with this one sadly has nose dived into the pits. It is nice to show a love interest in the plot but this one has become creepy. The constant need to touch and protect and threaten is beyond reason and after a bit of it I wanted to put it down and walk away. I felt this book was misleading even in the title. Nothing scary in a haunted asylum and for a place full of ghosts only two were seen. Again more effort was given to touching feeling and threatening anyone near Harper . I read it but found it very disappointing and will not read another in the series.

## **Kelly says**

### **Harper annoyed me in this one**

I really liked the story but Harper drove me crazy at times... in book 6 she got all whiny and annoying about having to stay in her house, give me a break it was for like 8 hours... your telling me that she can't spend 8 hours inside a house without goin stir crazy?? Ridiculous... which brings me to why she annoyed me in this book.... oh no ppl are going missing and you have to stay with someone of the horror of being safe... how could anyone want you to actually be careful... hopefully she stops being annoying..

## **Veronica says**

### **Good Story - Need to fix Formatting**

As always Lily Hart has delivered a great story. However, they need to fix the formatting at the beginning of chapter one. I thought there was something wrong with my tablet until I checked it on my phone. Also a few words were misspelled and some incorrect wording. But all in all A GOOD READ!

## **Rachel says**

Awesome add to the series. I love the adorable couples and the mystery, funny lines have me laughing out loud. The only problem I have with this series (and a few others from this author) is the scenes where shes trying to make the main woman character strong and independent "I can take care of myself!" but it comes off whiny and childish. Yes, am all for independent women and they can take care of themselves.....but if there is a murder, or something with crime it is smart to let the detective do his job because well.....its his job and he's better at it then you are. Just like Harper would be better at dealing with a paranormal situation. I just didn't enjoy the drama/fighting where Harper was throwing a fit when in reality things would go better if you took a step back. That's me personally thou, and I still love this author and series. Can't wait for the next.

---

## **G Leigh says**

### **Things get serious**

The whole GHI crew along with a film crew are on an haunted island asylum. And the dangers may not just be from the ghosts!

Perfect for a beach read, but these really need to be read in sequence to make sense. Good news - the whole series is a fast, fun, fluff of a read. Perfect for a week of vacation!
