O Polichinelo: Piano Sheet Music - Alfred Masterwork Edition Heitor Villa-Lobos , Lynn Freeman Olson (Editor)

This very lively little piece is an excerpt from the great South American composer's "Prola do Bebe" suite, which contains musical descriptions of a baby's dolls, including "Polichinelo" who is a traditional puppet (Punch) that is full of zany antics. This is a popular encore piece for concert performers, played sometimes so quickly as to seem almost a blur.
