In this Kingsley and Morgan focused short, we follow the pair as they (re)consider their options for adoption and are introduced to a young woman named Haley, who is determined to have the guys be daddies to her unborn twins.

This shorty got me in the feels and had me tearing up on more than one occasion. I'm not sure whether it was the particular themes being explored that got me good, or whether my love for Kingsley and Morgan (especially Morgan) is just so great that I'm now programed to go all sappy whenever they are on page, but either way, I enjoyed this offering a lot.

I love revisiting favourite book couples, and Kingsley and Morgan are undoubtedly my favourite pair of this series. Getting a glimpse into a bigger HEA beyond their initial HEA is just icing on the cake, and surely a must-read for all fans of their original story, Kingsley.

And I see Jenny Wood is far from done with this loving and boisterous group of men, with the promise of a book seven, focusing on newly introduced characters Murphy and Cruz.

So sweet! I've read this whole book series and loved every one of them. Kingsley and Morgan have always been my favorites and I'm so happy they got to start their new family. I would recommend this series to anyone who loves good MM stories.....

Jaime says

I think this will be my last book of the series. I am just not loving them anymore and they are very predictable. In addition, the characters are becoming very one dimensional - granted these were characters we already knew for the most part...but I still feel this story fell flat. What should have been a momentous occasion felt blah to me.

Also..wtf is up with the cover? That does NOT look like any of the Kennedy men...

The author needs to spend more time on the books instead of rushing to put out new stories and real estate in the KU world. Also, I think it's safe to say we don't need the beginning of book one in the books anymore. That is simply taking advantage of being paid for each page flipped. It's abuse of the KU program and one of the reasons I think the program should go away. Stop putting part parts of book one in the back of each consecutive book, you're up to book 7 now...we have all read book one.

I like this series also

Still the editing errors, but better. The characters are great again and the stories are strong. I love the way you keep the characters from prior books involved in the current books and introduce the characters. For the next book. You get a good editor, you've got it made

Josh Lansing says

Oh whyyy wasn't this a decade longer!!
You've gutted me with Morgan, simply gutted me.
And I've got an even bigger crush on Kingsley, for real!
I love him with the passion of a thousand suns. BURNING woman,
just a burning passion! The way he loves MOrgan?? And now his babies?
Why, why can't they be real people in the world that I can meet
and maybe stalk, ya know?

I love this series and you're amazing. Please don't ever stop writing and
please give us Murphy and Cruz, effing quick like... I need them!
Also very much looking forward to Kash and Dax. I haven't forgot them lovely.

Love your stories, keep it up!
5 stars from me!
Well, well, very well deserved!

This is so very sweet. It does need some more editing, but the story is sound. I was very satisfied with storyline and the wrap up at the end. I enjoy this series and look forward to more from this author.

Marvelous novella that gives us Kingsley's and Morgan's deep love !

Get re-acquainted with Kingsley and Morgan's story, their deep love, and their attempts at adoption. Here we see the latest attempt, and meet the amazing Mom. First we get a marvelous synopsis of our wonderful guy's tale, how they met, fell in love, and are going strong five years later.

This is a fascinating novella, with big hugs, warm fuzzies, and tears, too. LOVED IT !

It's a beautiful transition so we are up to date when the next book in the series gets here. Magnificent ! Loved the baby names !

Fabulous characters, hot lovin' and it warms your heart.

Highly recommended. ENJOY !

I think Kingsley and Morgan are my favorite couple of Ms Wood's so it was so nice to get to see them again and for them to get a family of their own after so much disappointment. I teared up a couple of times but you can just feel the love all around with these couples. Well, except fucking Jody. He's still having his asshole moments.

But really, the most memorable character for me is Haley. What she does is so selfless and amazing. I can't even imagine being in her shoes but she gave Kingsley and Morgan so much happiness and she wanted her babies to have the wonderful life they deserved.

I'm looking forward to Murphy and Cruz!

I hesitate to mention this because I did enjoy the book as a whole, but there are some glaring mistakes that a good editor should catch. It didn't affect my enjoyment of the story itself.

Allison says

Kingsley and Morgan....

They absolutely broke my heart in this one... and then got put back together again. I cannot imagine being in their situation and getting let down like that. I really felt for them, especially Morgan... but the way Kingsley tried to shield him....the way he looked out for him and didn't want him hurt... sigh, I love Kingsley, so much!!!

And Haley, to be so brave... I could never do something like that, but she was so selfless. Truly wanting best for her babies. Spoilers, sorry!

I love this series...I love the family! I can't wait for the next one! I need some Cruz and Murphy!

Maureen Neil says

Awwwwesome

I love it. Was hoping to see this part of Morgan and Kingsley's story. Was even better than I expected.

Susan says

Awwwwwwwwwwwwww, this was adorable.

Morgan and Kingsley (my favorite couple of this series) are trying to adopt a baby, but the last mother backed out after the baby's birth, so Morgan isn't sure he can go through that kind of pain again...

This gave me all the warm and happy fuzzies. It was wonderful.
