Ruthless Queen: A Mafia Romance K.D. Clark

Cassandra turned around in Andre's arms and gave him a look that would have most men running with their tail between their legs.

She tilted her chin up to look him in the eye, "You're bold aren't you?"

Andre shrugged, "I've been told."

Andre had one goal in mind; lie about who he is, get the Mafia Queen to fall head over heels for him, and then take what he needed. What he didn't expect was for her to string him along on a journey of ups and downs until he forgot why he was there in the first place. Andre is a boss but so is Cassandra and she's about to show him that she can be just as ruthless as him.

Sheila says

I won this as a goodreads giveaway, so I read the book in its entirety even though it was bad. The grammar and punctuation were poor. The story itself was not interesting. I really hate to give reviews like this because I'm sure the author worked on her story and I commend anyone's effort to be creative. This did not work for me.

Adriana (SaltyBadgerBooks) says

Needs work

I'll start off my saying I won this book in a goodreads giveaway, so I felt obligated to finish the entire thing .

I hate to give out such a low rating, but it needs work... There were so many grammatical errors or spelling mistakes it was driving me crazy. If I had a physical copy I would have annotated with corrections.

The story had some continuity errors and jumped around a lot. Then towards the end it all felt too rushed and was just very off putting.

Jennifer says

1.5 stars

I won a copy on a Good reads give away.

Ugh where do I start? I struggled to finish this short read. The grammar and sentence structure was so poor, she never capitalized "i".

The story was also inconsistant, for example she took a dress off but after sex she put her pants back on to leave. Time and dates were also off.

There isn't anything good to recommend about this read.

Michelle says

3.5 Won this book through the goodreads giveaway. The story it's self was cute. It was a very quick read. The grammar was horrible, but the happy ending made up for it.

Ashley says

#GoodreadsGiveawayWin

Was a easy read! Really enjoyed the story and steamy parts; the only that bugged me was the grammar errors but other than that love it! I will definitely look for others by the author.
