Shadow of Doubt Terri Blackstock

A Poisoned Past. A Bitter Present.
Is Celia a Murderer . . . or a Victim?

Detective Stan Sheperd lies comatose in the hospital, a victim of arsenic poisoning. The Newpointe police have a suspect: Celia Shepherd, Stan's wife.

Celia is no stranger to such charges. When her first husband died of poisoning, a technicality scuttled the case against her, and Celia got off scot-free. Now it looks like the same old story--only this time, the motive appears plain. An old flame has moved into town under circumstances bound to raise suspicion. And that's just for starters. More evidence is gathering that can put Celia away for good.

But attorney Jill Clark thinks the pieces of the puzzle fit together a bit too neatly. Either her client's Christian faith is a sham, or she's the victim of a deadly frame up--and the real killer is still afoot. . . .

Shadow of Doubt is book two in the Newpointe 911 suspense series by award-winning novelist Terri Blackstock. Newpointe 911 offers taut, superbly crafted novels of fear, faith, and close-knit, small-town relationships, seasoned with romance and tempered by insights into the nature of relationships, redemption, and the human heart. Look for book one, the best-selling Private Justice, and the upcoming False Witness at your favorite Christian bookstore.

Patti says

Another good book by Terri Blackstock! Stan Sheppard is poisoned and everyone in town thinks that his wife Celia is the guilty person. Even her Pastor thinks she is guilty for a short time. Celia's lawyer and friend develops a plan to draw the killer out and it just explodes from there. I really enjoyed this book!

Chris Unwin says

Such a page turner mystery thriller. Loved the book. I've had this book on my Kindle for ages and can't believe it took so long to read this author. This is the second book in the series. The first was good but this even better!

Ellen White says

Celia had a first husband they find out now, that died from arsenic poisoning. Second husband in critical condition from arsenic, now listed as attempted murder, also was a Newpointe Police Officer . Rollercoaster of evidence that seemed to continually pop up to point that Celia was guilty.

Those that were around was family and friends. A little long, but interesting to find out who and why.

Mimmsan says

At first I couldn't put it down. But then the main character got really annoying doing one self incriminating thing after the next.

Also, if she was innocent, which we have to believe, there is only one suspect, her brother, to choose from. (after learning that her ex-boyfriend was in jail at the time)

Jeannie E. Hennig says

A very good read.

As usual, I enjoyed this book by Terri Blackstock. She keeps your interest all the way through to the end. And I never have to worry about coming across foul language or steamy hot sex scenes. All her books are based on Christianity and her love of the Lord and his book. I read her books over and over again.

Carolyn E says

Another great story by Terri Blackstock. I love her books.

Staci says

In book two of the Newpointe 911 Series, the focus is on Stan and Celia. What I loved most about this novel was Aunt Aggie.

Sheila Myers says

Great book! More than the mystery, I enjoyed how Terri Blackstock wrote about the way people gossip and how others so often choose to believe a person is guilty before all the facts are available. The story provides a valuable lesson we all need to learn.

Madelyn says

What a whirlwind. This one was even better than the first in the series. More mystery, evidence, reasoning, and logic. Don't get me wrong, the first one was full of that, but this book took it to a whole new level. Terri Blackstock is a definite favorite of mine, and I trust her unwaveringly as a clean Christian author, which is something I don't find very often. Give her a try! You won't be disappointed.

Valerie says

Think I have a new favorite author! The book was full of murder, suspense and romance...but it also had a spiritual side to it as well. If you are looking for thrillers to read by a Christian author, Terri Blackstock books are the ones to read! Can't wait to read the others I have by her!

Sarita says

This was another fast pace suspense from Terri Blackstock. I really enjoyed this story, though not as much as her other books. It just seemed a bit unreal that everyone will turn on Celia like that, knowing her for 5 years. All the evidence just seemed to good to be true and the police seemed a bit inadequate believing it so easily.

I also guessed the real killer correctly early on as well as one part of the motive.

But, given the above, I still found myself flipping through the chapters to see what is happening.

Brittany says

4 stars

Lisa says

This was a great suspense book. Terri Blackstock gave clues along the way about the attempted murder. It was one of those books you did not want to put down. This is the second book in the Newpointe 911 series.

Literary Strawberry says

Listened to this on a road trip. Passed the time. We figured out who did it almost right from the beginning (story-wise, there was really only one person it could be), and the cops were pretty incompetent, but it was reasonably enjoyable. It helped keep the driver awake at the wheel when we were on the road past midnight, and that's what's really important.

Hannah says

First audiobook and new author=the new favorite way to take a weekend trip out to Dallas. I couldn't get the first in the series, so with my usual contempt of series order, I grabbed this one. I was immediately interested in Stan and Celia's plight, though I think Aunt Aggie stole the show on multiple occasions...especially her penchant for assault with purse!

This was my first Blackstock; while at times it felt wordy/overly descriptive, and a few characters made me want to knock them upside the head for stupidity (especially Sid), I stayed interested and enjoyed the story.
