Aww what an adorable love story. I enjoyed reading this. Clover and Gage fall in love out there in the woods and while they're at it, they heal each other's wounds from the past that included the loss of those closest to them. The great thing about this story is the full inclusiveness of Gage's 6-year old daughter, Adley. The author does a great job of writing from the point of view of a precocious young girl who was raised with her dad, secluded in the woods of Colorado with very little interaction with others besides going to the small country store in town and her virtual classroom teacher. I thought that was well done and how she latched on to Clover was great too. I know that actually does happen. Some people have this magic about them that young children see and are drawn to. I get it. Clover is one of those people and it's easy to see how Gage and his daughter fall in love with her and accept her into their lives. This is a heartwarming story. One thing I don't think was addressed that maybe they could have thrown in was Clover being Black. I don't think anything was brought up beyond her being Black but there was no cultural differences addressed. I usually like to see that in interracial romance novels. Other than that, I really enjoyed this book.

Gage is one spectacular man. He gave up his music career for his child. She is his main concern. They meet Clover in town at the supply store. She is a college student going on a mountain trip for one of her classes. One huge snow storm later and the entire class ends up at his cabin. They banter back and forth and she agrees to become his nanny. The past is coming for Gage. Can he keep his daughter and Clover safe or will he lose them forever? This Author is amazing. Beautiful writing with a storyline that is not only awesome but a story of true strength.

Christina says

This was a crazy and intense roller coaster ride. Gage and Clover certainly belonged together after all they've been through. Gage thought by hiding himself from humanity that he was doing the world the favor. However, with Clover coming into him and Adley's life was like a breath of fresh air. Freda was a trip though...a good read. I voluntarily read this book in exchange for my honest opinion.

Cherryl Montgomery says

Growing from grief and guilt

Gage Riley and Clover Washington had more in common with each other than they initially thought when they first met. They both blamed themselves and carried guilt with the death of a loved one. Gage blamed himself for not being there when his wife Constance needed him the most. He felt as though he failed her and his baby, as a result, he vowed to be the best daddy and mommy for his daughter Adley. Clover also felt guilt for causing the deaths of her parents even though she was a child and it was an accident.

Six years later, Gage realizes that Adley needs more than attending virtual school, but needs to socialize with children her own age and she also needed the influences of a woman's touch. Gage also needed the influences of a woman's touch and he wanted Clover to be that woman. She awakens desires that he thought was long dead. Clover fell in love with both the mountain man and his daughter and was willing to do what was necessary to protect them when they were threatened by Gage's old band mate.

Emerson wrote a sweet heartwarming romance with drama, about a man coming into grips with the loss of his wife and keeping his daughter out of the hectic wild spot light of a celebrity. It was not until his initially meeting Clover that he understood that he and Adley needed more. After dealing with the affects of PTSD Clover, Adley and Gage aka Apollo Mercury, finally get to the place where they can have their HEA and a normal life as a family together.

The Woodsman's Nanny is the 3rd of A Single Daddy's Romance series. At first I felt a little bored because I knew the direction the story was going, BUT I in fact did NOT know and was shocked, then scared and then blown away. Overall, there was a very good story line with loveable characters. Adley was an enjoyable, well behaved youngster. Gage had an interesting background and personality. Clover was an energetic breath of fresh air. This ended up being my favorite of the Single Daddy's Romance series! For the record, I hate snow, but Author Rose painted such a picturesque landscape and details, plus a cozy fire in the fireplace, that I felt myself wanting to spend some time right there!

After suffering a devastating loss, rock star Gage Mercury takes his daughter and flees for the serenity and solace of the woods. There, he can put all his focus on what matters most, the reason he lost his wife. Clover Washington is determined to open a camp for any child, no matter what their financial status in life. During an outdoor survival excursion, her paths cross again with Gage and his daughter, but this time she's drawn into their lives. Until a dangerous force from Gage's past come calling, and he wants more than money, he wants blood.

I was expecting a light-hearted read, but this story had a great plot, with twists I didn't see coming. Definitely my favorite in the Nanny series so far!

Emerson saved the best for last!

Clover meets reclusive single dad Gage, and his daughter Adley at the general store. After briefly interacting with Adley, to the slight annoyance of Gage, she asks for his advice on purchasing a more appropriate pack for rugged weather conditions. Clover is a Senior at Fort Douglas University where she's obtaining an adventure education. Her goal is to open a year-round camp for financially disadvantaged kids.

With a storm brewing, and against her own better judgement, Clover and her classmates reluctantly follow their professor into the eye of the snowstorm. Soon Clover realizes that their lives are at stake and from the wood chopping sounds in the distance, help is just a short trek away. As they draw nearer, Clover realizes her savior is none other than her woodsman Gage who takes in the entire class and saves all their lives.

After the storm moves on, Gage asks Clover to be Adley's nanny for the next two months -- until she graduates. They're attracted to one another but don't choose to act on it right away. Gage has a secret that he doesn't want anyone to know, but Clover is on to him. When they both let down their guard, danger lurks in the darkness threatening to take away all Gage holds dear.

Read It!

Wow, what a phenomenal story this is! Gage has escaped from the rock star life, and lives in the mountains with his little girl. Clover has goals which have seen her through life, and with one last fear to conquer, she heads for the mountains. Fate brings these two together, and the chemistry between them is great. No spoilers; this is a definite must read, you will not be disappointed! This author has written another phenomenal storyline, which is emotional, heartbreaking, with danger and love, all which has me totally captivated throughout. I highly recommend this authors' work for all, and cannot wait to read more from her, as she always gives her heart and soul to her characters.

I voluntarily reviewed an advanced copy of this book for an honest review!

Gage Mercury aka Apollo Mercury, Rock Star Legend, is living off the grid with his 6 year old daughter, Adley. His wife died during childbirth. He is the most loving and caring father Adley. He may look rugged but he's the sweet man. He has a big heart too. I totally fell in love with Gage.

Clover is smart, feisty, and caring, too. She's just about to graduate when she bumps into Gage at Jerry's store. She's looking to buy a new bag but doesn't have enough, so Gage comes to the rescue. Gage also comes to the rescue when her group is trapped on the mountain in a snow storm.

I loved this book and every page that followed. It broke my heart to read Gage's story. I understood his guilt, misplaced as it was. I also felt for Clover, too and her own tragic past. Adley is the most adorable kid, ever! She's smart as! I loved her, and she didn't seem "too old" with her vocabulary.

It also had me on the edge of my seat. I had to keep reading. Turning page after page, as quick as possible to see the outcome. I was shouting at the villian to get his comeupence, he made me really angry. I was happy when Clover challenge him. He needed it but he could also see what she was saying too. I really didn't want this book to finish. I wanted more!!

There is no hiding that I am a HUGE fan of Emerson Rose and I have been fortunate enough (or simply obsessive) that I have been able to follow her career from the very beginning. I found that with everything that Emerson writes I simply fall in love with, and The Woodsman's Nanny is no exception. Guys I just adored this novel.

We meet Gage. A man with a disturbing and heartbreaking past. Once successful, now a recluse. Living in Colorado away from family, people and the world. A tormented past left Gage running, and run he did. Secluded from society just the way Gage likes it. Away from prying eyes, questions and past hurt. But life as Gage knows it is about to be turned upside down when students caught in a storm need shelter and the only shelter is Gage's home. Fifteen people in his home ruining his peace and tranquility, possibly recognizing who he really is. Gage doesn't like it at all, except....

Clover.

She's beautiful, alluring, head strong and simply breathtaking and Gage is simply drawn to her. He doesn't want her to leave once the storm passes. He wants to find a way to make her stay. And the only possible way he knows he can achieve that is through a beautiful, smart, cheeky and adorable little girl.....His daughter Adley. Clover will become Adley's nanny. Gage, Clover and Adley. This is their story and its sheer beauty.

I fell in love with both Gage and Clover. Both broken souls, both with damaged pasts but yet manage to have hope, strength and faith in the future. Both willing to succeed, Gage for his daughter, and Clover to help others. Both very different people, but yet wanting the same. A normal life. But the kicker for me in this novel was Adley. My heart was hers as soon as I was introduced to her. A beautiful six year old girl who simply captured my heart and soul.

A raw, gritty, sinfully delicious, heartbreaking and breathtaking read that I simply couldn't put down. But don't think you have this novel all figured out. You see not everything it what it may seem. Three people living in the Blue Mountains of Colorado.....But what happens when three become four?

A spectacular read.

5 stars.

Yeah This Is Good!!

To say this was such a good story is just crazy this was totally awesome! I love this chemistry in this story between the two main characters and the daughter. The story is about relationships and fighting your way back. The writer gives you a well developed story with, with a storyline that's developed and done well. I love

that we get to concentrate on the couple and not the fact that they are different. This was good writing, it was fun, and above all its sexy! If you aren't sold on the story take a look at the cover!! ??

so this was the final part in the nanny series for Emerson Rose and I have to say I loved it. I was a bit unsure never having read a mountain man/woodsman style book before but I went with it as I have read a few of Emerson books now and I have never been disappointed and have all been 5 star reads.

When Gage and his daughter take the trip down the mountain to visit the village store to gather supplies before they got snowed in he did think he would find the most beautiful woman he had seen in years, but he did and she came in the form of a damsel in distress needing a heavy duty backpack for her course that she couldn't afford. Gage being a gent made a deal to buy her the bag but what he got from that act of kindness was so much more.

Clover is determined to pass this adventure course and start her dream business of a adventure camp for children but to do that they need to go on a 60 day hike, things turn badly very fast on her hike but it to late to turn round the best they can do he keep going and hop they find a cottage on the mountain very soon before they all turn to icicles. But when a house comes into site is she prepared for the who she finds its belongs to as they get closer and with the blizzard and temps falling fast?

I would recommend this SERIES not just this book to anyone who loves a good romance story or likes a story with a bit of a twist or a tad of drama.

The Woodsman's Nanny is the 3rd of A Single Daddy's Romance series by Emerson Rose. Gage is this hot rockstar who has suffered some pretty terrible trauma in his past and retired from the biz to raise his young daughter in the mountains, off the grid. Clover is this beautiful young woman who has great ideas on what she wants to do with her life and how to go about achieving those goals. She is trying to overcome her fears and with one last fear to face, she goes off to the mountain to conquer it. Fate brings Gage and Clover together and wow the chemistry between this is hot, steamy and intense. There is a bit of suspense and mystery going on with their love story. I adored Gage's little girl., She is a cutie. There is an emotional rollercoaster like passion, heartbreak, danger, despair, hope and love going on in this story. I love Ms. Rose's writing because she makes the characters relatable and entertaining. I cant wait for her next story to come out.

My Rating: 4.6 stars *****

"I received an advanced copy of this book from the author at no cost to me."

Single-minded stories

The final novel in this omnibus was by far the best. The characters in all are vivid and individual. Although they all revolve around babies, they are more about relationships than just families. I really related to the military man with OCD in Major's Baby.
