## Alien Warrior Sadie Carter

Stuck on a military outpost in the middle of nowhere, Zoey had been praying for something to relieve her boredom.

She never dreamed that relief would come in the form of a seven-foot tall, sexy alien. One who claimed she belonged to him.

Delusional.

Except, there was something pulling her to him... a deep, hot attraction she couldn't deny.

Dexanon Xa'a always thought his mate would be a sweet, obedient female. Instead, the Gods landed him with a maddening, outspoken, outrageous female who didn't comprehend the honor that had been bestowed on her.

Dex might have a rockin' body, but his ideas about women needed a total overhaul.

And she was just the woman to do it.

## From Reader Review Alien Warrior for online ebook

### **Juuli says**

I actually finished a book. And it was rather good. :) And the second one is about the same main characters.

---

### **Amanda Marie Stambaugh says**

It was a very good book. I finished it in one sitting. I'm not usually into aliens but the summary looked intriguing. I'm interested in reading more of the series.

---

### **Judy Lewis says**

#### **SCI-FI DELIGHT !!!**

Wow! Color me impressed! What an absolute delight! Alien Warrior is the first release in the Zerconian Warrior Series by Sadie Carter and it totally rocks. From what I understand, this is Carter's first foray into the world of science fiction and I for one, hope it's not her last! The story is imaginative, exciting, original, humorous, romantic and arousing. It's exceptionally well developed and well written. The characters are fascinating, captivating, engaging and sexy as sin. I absolutely loved the concept of the story as well as the snappy banter and interaction between the hero and heroine. If you love adventure, romantic comedy and science fiction, then you will adore this book. Deliciously cute, fabulously funny, seriously sexy and delightfully entertaining. Bring on Book Two Sadie Carter!

---

### **Abby says**

For Alien smut, this is probably actually only 2 "Not tonight. I have a headache" stars. Reason you probably read alien smut:

1. ~~Alien looking aliens~~ tall humans from another planet with color changing eyes
2. ~~Lots of Sexy Smutty Times with something extra~~ Only 2 scenes, and the first is at 60%. No special qualities.
3. ~~Danger and intrigue~~ Fire breathing lizards and shuttle crashes.

Okay, that last one was pretty cool. Despite being more of a romance there are a few unique aspects that any alien smut lover will enjoy!!!

1. EARTH'S SOCIETY DOES NOT AUTOMATICALLY HATE WOMEN JUST BECAUSE THEY ARE WOMEN!!!! Of course, that doesn't mean our heroine is well liked and appreciated.
2. The clichéd "mating pull" is ignored, and we get to finally see what happens.
3. Zoey is kind of a bad ass. She killed one of those fire breathing lizards instead of hiding in the ship as ordered. And she saved her mate.

4. This story actually has a plot. The author did not fill the pages with Zoey's appreciation of Dex's rod. Although I will warn you, the plot is going to win any awards. It does at least not focus on smutty times.

It is this plot that will make me read the second one when it is released. The first book may have helped Dex and Zoey find a balance between their cultures; but I feel like that will all change when Zoey finds herself on his home planet.

---

### **Marta Cox says**

I read the first few sentences and thought oh no not another erotic story relying on sex rather than plot to fill the pages. Well how wrong was I ? Yes its a little short but its not just a subservient heroine falling for the big alien. No Zoey is one feisty , independent, smart aleck who enjoys irritating those who deserve it . She might be stuck on an out of the way outpost but no way is she letting any pervy sleazeball get the better of her. Zoey would like nothing more than to put her Alien studies to use and finally she's about to get her chance when secretive Zerconians land needing help .

Zoey adds so much humour to this story with her use of slang and terms that totally bamboozle the Zerconians. No Dex shouldn't have been so high handed but he definitely gets his comeuppance as Zoey is no meek female bowing down to him. I'd go as far as to say that Dex underestimates her at his peril. Two people from different worlds might collide but it's definitely not a predictable read. Expect humour, heat and some danger but never expect Zoey to obey !

---

### **?? Carmen the Bootyshaker Temptress ?? says**

#### **Rated 3.5**

This was a fun book to read. Dex and Zoey were quite the pair. They will drive each other insane with their difference but that's what makes this story more enjoyable. I will definitely continue the series to see what will happen next.

---

### **Cal (Constant Raving Reviews) says**

K this wasn't a bad plot-- it was just written so poorly!!!

Anything climatic (pun intended) is completely skipped over. It's pathetic.

I do really like that Zoey is fighting back at the sexism though, so I may read to know what happens to her.

But overall; this book was god-awful. It jumps ahead so many times, nothing makes sense.

---

### **T00zday says**

Meh. I didn't hate it, but I didn't enjoy it either.

Alien Prince finds his soul mate on a human outpost in space, kidnaps her.

Alien society is a bunch of misogynistic types who keep women safe & don't allow them to do much.

Spanking them for disobeying, expecting gratitude before taking them to bed, etc...

I did not really warm up to any of the characters in this book. The alien society sounded awful. The hero and heroine were constantly fighting. The hero had no redeemable qualities in my opinion. Their differences were never actually resolved.

It was expected that the heroine would make all the changes.

Pass.

---

### **Celestine says**

Usually I don't rate a book that I did not finish, but I figure 70% into the book was enough.

---

### **Bethyboo ? The Book Addict ? says**

Eh. Wasn't really happy with this one. Honestly Dex just annoyed me. His arrogance was through the roof and not in a good way. Also the way he called Zoey "my own" was kind of annoying. The plot is pretty cliché but I was okay with that. Will continue the series at some point, just not right now.

---

### **Suzanne (Under the Covers Book blog) says**

#### **Alien Warrior, Alien Lover, Alien Mate (Zerconian Warriors #1-#3) – Dex and Zoey**

*He's an arrogant alien prince and a warrior used to being obeyed. She's a feisty and stubborn female who takes orders from no one.*

I know what I want for my birthday and it's over 6 ft tall, has eyes that change colour and is adorably arrogant. That's right sign me up for a Zerconian warrior of my very own. I love those guys and I devoured all the currently released books, including the novellas, in under a week. I confess, I was a little addicted.

But there was a lot to love about this series, Sadie Carter has done a fantastic job at not only writing a troop of sexy alien warrior, but she given us a whole bunch of feisty, hilarious heroines as well. I enjoyed watching the friendship develop between the women almost as much as the romances.

As I mentioned I read these book in quick succession, which meant that I quickly worked out the formula that each of the books follow. This did make each instalment predictable, however, that obviously didn't stop me from jumping from one book to another. This was a light-hearted and fun series to read and although you known what's going to happen that doesn't take away the enjoyment I took from reading each warrior fall for his human woman.

This series covers a lot of troupes/character types as well, so if you like a plain Jane, grumpy heroes, warrior women, enemies to lovers stories than this series is bound to fulfil your wishes. Personally, I really enjoy

plain Jane and grumpy hero stories so those were my favourite books in the series.

---

### **Just Josie says**

What a funny ride!

Zoey was hilarious, Dex was a good mix of arrogant asshole and kind protective alien hunk ?

The story itself was entertaining. Zoey meets Dex (Alien Crown Prince) at a space station, and he finds out she is his mate! He then kidnaps her, and she is having none of it!

It was fun, smutty and all in all, a great read.

Read: 17/09/2017

Will i recommend: Yes!

---

### **Shellie Johnson says**

This was a very entertaining read. Both the hero and heroine were dominate people and they had a little dirt kicking to get through to the other. It was a "What I say's goes" - "Your kidding right?" Very funny. I will continue to read the next book in this series.

---

### **Talltree says**

SFR between alpha alien H and human h. H was hot and sexy and possessive of his 'mate' h. I wanted to smack the h almost the entire length of the book. Will NOT be reading the sequel , h irritated me so much. 3 stars, just for the worldbuilding and H.

---

### **eevee says**

After a brief, bitchy five-minute conversation, Dex deduces that Zoey, despite being a petty Earthling, is his one true mate. Awe. So he snatches her up and lugs her into his cool spaceship, which we don't know much about because although she's allegedly got a degree in alien culture, she asks a grand total of one (1) question. Seriously, for someone who spent her entire education focused on aliens, she seems to hate them (and that's before they, well, kidnap her). And don't give me that look — that "*but she's been kidnapped, of course she's too traumatized to look around and be curious*" look — because she's certainly not afraid enough to mouth off to anyone who looks at her.

You can probably surmise that I'm not Zoey's biggest fan. I think she was unnecessarily rude and suspiciously unfazed by alien technology. And ignorant, for that matter, despite her degree. Yes, the

Zerconians are a private species, but she did know that they were sexist and tall — she was still flabbergasted by both of these things. Sure, it sucks, but *you already knew that, Zoey*.

World building was also petty. Yes, I'm still nursing a grudge over the fact that she asked one fucking question about a floating mattress. She didn't ask Dex to clarify Zerconian terms like "minder" until wayyy later in the book, when I stopped giving a shit.

She's also one of those sassy for the sake of being different and cool and unique heroines. But Zoey, ever the wannabe badass, insists, "**I need to get to the bridge.' She needed more information.'**

Really? That's so weird because **YOU DON'T EVEN WANNA BE THERE AND YOU DON'T LIKE DEX OR THOR OR ANY ONE OF THOSE GIANT IDIOTS.** What the hell are you gonna do anyway? Of course she ends up semi—"helping," but it's so unrealistic how she just assumes their ship was hijacked. Why would Dex, or anyone, listen to her? Her only evidence is literally that they're usually friendly. How do you automatically jump to, "oh jeez, they must've been jumped?" without more information or context? And look at how she describes a movie to an alien race who has no idea what she's on about: **""A motion picture? Actors? Scripts, action, comedy, romance?""**

The only thing she got right was a motion picture, but instead of expanding on it, she just throws random terms around. Describing the components of something is not defining it, Zoey. For example, I wouldn't define a house like this: walls! kitchen, door, condo, bungalow! She continually has no regard for the fact that they do not understand what the hell she's talking about half the time and makes no efforts to explain her colloquialisms or idioms. If I was Dex, I would leave her right where I found her and never look back.

But guess what? I wouldn't wanna be Dex either, 'cause he sucks. Listen to this half-assed nonsense: **"Well? What do you think?" he asked as he took hold of his cock, running his hand up and down the thick shaft."**

That's supposed to be dirty talk? I'm laughing my ass off over here. Oh, and by the way, only Zoey calls it a "cock." Dex refers to his genitals as his "rod." Because that's so hot.

So, in summation, I hated the characters and the plot and I'm never reading it again. Also don't know anyone who I'd want to recommend it to, but if you're interested, shoot your shot.
