Baby Sister Says No Mercer Mayer

Little Critter's little sister won't stop bothering him and his friend. All the boys want to do is play, but she can't stop saying "No!" As Little Critter points out, Mama always knows best -- and Little Sister takes a much-needed nap. Ages 3-8.

midnightfaerie says

My 5 yr old loves these little critter books and has been reading them to his little brothers. Probably only a level 1 reading book at most, but still, entertaining with real life sibling situations that any kid can relate to. Here's one where a boy has a kid sister who is constantly saying "No!" to everything he wants to do. But in the end, it ends happily when he talks to his mom about the problem. Saying "No!" to a nap doesn't work, when it's coming from mom. And the brother is happy. Cute story, illustrations are fun too. Overall one our whole family enjoys.

Stevie Oberg says

This was cute. Kind of reminded me of some little kind I know. xD

Annie says

I read most of these books and still read them to kids I babysit. This particular book would be good for younger kids expecting a younger brother or sister.

Kevin Findley says

A cute, little book for young readers and parents or grandparents to read to them.

Ryan says

Baby sister says No always when Little Critter came over to play.

Robert Beveridge says

Mercer Mayer, Baby Sister Says No (Golden Press, 1987)

Kind of amusing that we read this one just after Just My Friend and Me, as Critter—this time with a friend who's actually a friend—has formed an alliance against the tyranny of his little sister, who's going through the “no” phase and continually disrupts their attempts at playtime. This one is obviously geared towards kids with younger siblings, but all Little Critter fans will get a kick out of the situations and humor. ***

Katie says

One of my favorite Critter books to read. Classic toddler behavior, which makes me chuckle to myself every time.

Mary says

my 4 year old loved this...thought it was funny...he has a baby brother who is always "in the way" ...good story for early readers

Connie says

They're short, they're funny, they're topical, and they're cheap.

Little Critter's younger sister is interfering with his day with his friend, saying no-no-no all the time. Very realistic look at sibling relations, my nieces (even the younger one) really got it.

Sarah says

I read this to my class today to show them different elements of a personal narrative. Worked out great!

Theresa says

a cute story with a cute idea, using the stories of his daily life to teach children.

Sarah says

This is one of the prime examples as to why I think the Little Critter books are a bit iffy when it comes to sharing/reading them to toddlers. I know the Baby sister is a toddler, but this is still not a book I'd want to read to an impressionable toddler.
