I've said not the worst thing to read to children on many a cash grab marketing fad. This though is in fact the worst.

I stand by my 5-star review: This book was amazing.

I read this in the pediatrician's office today. I found myself laughing during some tragic parts, which (the laughing) is really obvious when you're reading aloud to children. The plot is so straightforward, and yet, so impossible! ("One day, the queen discovered that her gold mine was empty!")

Lest you think this is a straight princessization of the classic tale, I must tell you it borrows only the title and a few important plot points; the rest is All Barbie. My favorite part is the last page, where, after two proposals are made, the pauper girl "fulfills her dream of traveling the world and singing" before returning to marry the king "the next spring", and while everyone lives happily ever after, the cats belonging to the princesses "have many kittens together".

Erroll Treslan says

As reviewed by almost 7 year old Mathea: "It's a good book but a little hard to follow. I'm just giving it three stars." [anything else?] "No ... what's a pauper?"
