My reaction after I finished this short story?

O.O

I've read Daddy-play/age-play in m/m romance, and well, it wasn't my favorite kink but it didn't really squick me out (um, maybe because there was no incest involved, lol). The pseudo-incest between adopted father and daughter in this case did a bit. I felt that this short story pushed me out of my comfort zone, which is usually fine with me. In this case, the eroticized nature of this relationship kind of missed me because all I could think about Darla's sexual obsession with her adopted father was that perhaps she had some deep-seated issues that weren't being addressed. I felt that she acted faaarrrr younger than her stated age, and the adjectives that were used to describe her and parts of her body did little to alleviate my sense of uneasiness as they simply encouraged the reader to imagine Darla as a child. I mean, nascent breasts at her age? Late-bloomer, is she? It no longer became a matter of incest or pseudo-incest but closer to pedophilia for me which may explain my uneasiness. The writing itself seemed a bit...immature, and the relationships were confusing to figure out. I suppose it works for some people. This story didn't really work for me.

Darla's step-father and mother have split up and as her step-father has found a new woman she senses their relationship slipping away, but as she's not one to stand idly by and let it happen she takes matters into her own hands and sets out to form a new bond.

A nice short story, with a nice Lolita vibe in a pseudo-incestuous setting.

So, I'm in a 'amazon banned books spree' I try to read as many as I can before I fall asleep at night with all the book I have stored on my phone apps from purchases lol

This one is about a girl with abandonment issues. She's baby sitting Daddy's 'new' daughter, he drives her home, mommy isn't home when they get home and they have a sexual encounter.

It wasn't really all that shocking for me. I'm not sure if the 'Oh daddy I twalk like a baby and ask you to put it in me.' is doing it for people, but its not doing it for me. There was no build up so the tension didn't exist to create this outcome. Just an ok erotica read for me.

Very typical Selena Kitt, I've forgotten just how much of a delicious guilty-pleasure reads these are. Could have done with another chapter but all in all a fun half an hour!

### Read as part of Taboo The Collection. Story Nr. 5

See, this brat Darla wants her Daddy back. What better way for it as to let him fuck her?

This was soooooo wrong on so many levels.

But it was hot!

And since when has PWP be realistic or right anyway?

This is a novelette... so, it's super short... Contains 1 love scene... :(

I'm totally not satisfied with this... At the end, I was like 'that's it? That's all I get?'

It's quite disappointing, I didn't even feel anything when they did it. Ana's so much better and quite longer than this.

Longer novels please!!

The conversations between father and daughter were a little unrealistic but i still enjoyed the smutty read :)

A very short & quickie read.....I wanted something different from what I have been reading lately....and boy did I get **different**....!!!

...Enjoyed it more than I should have...the whole stepdaddy/ daughter taboo did push me way out of my comfort zone...but still a goody!!!

### **Arlyn says**

Not my favorite...Darla is an imbecile. She behaves like she's 5 years old. Every other word out of her mouth is "Daddy", which is a huge pet peeve of mine with stepfather taboo stories. Her father is a morally bankrupt adulterer and absent parent...until the little girl he's been ignoring for years starts humping him. Then he loves her. Then she's worthy of a little attention. He was her adopted father since she was a baby. Am I supposed to be convinced that he was helpless against her sophisticated seduction tactics? Like giving herself a wedgie and stating "Daddy, it feels good when I do this!" Or her cleverly thought out argument to his half-assed protest to let things progress..."Please, love me Daddy!" She's a moron and he's a scumbag. Perfect!

Yeah. This story was one of those things for me. Unfortunately for me some things can't be undone. :/

The "review".

Daddy leaves. Gets new hunny. Teen daughter gets jealous. Sex happens. (*That was a short "review".... so was the story... thank goodness.*)

This wasn't a horribly written story btw, I love Selena Kitt's writing style.... It was the content... The whole she's-too-young vibe I got is not my cup of tea. And I don't remember getting the impression that was his stepdaughter... But I could be wrong and I'm not rereading that to make sure....

I felt so dirty after reading this I had to literally shower afterwards.....

This was truly one of the most disturbing things I've ever read. I haven't read much erotica in general, so I just "grabbed" a bunch for my Kindle the other day, out of curiosity, and was amply punished for it. Kitt is good at making sex seem hot, but I could NOT get past the girl doing it with the man who's raised her and is her parental/ authority figure, as well as being obviously, significantly older than her. I don't care who the instigator was. It was just disturbing, and I wish I could erase it from my memory. Too many people I know have suffered sexual abuse and incest for me to ever find this "hot".

### **? BookAddict La Crimson Femme says**

Darla loaded with Daddy abandonment issues is the star of this little porn session. The story is well edited and flows smoothly. It was just okay for me because there wasn't much to it and I couldn't really get into it. It reminds me of short stories I find on Literotica. I know Ms. Kitt originally started out on that site. Perhaps this is one of her earlier works. The only taboo part is sex with the man who helped raise you. Since it isn't blood relations, it wasn't as titillating or squicky feeling.
