Kristy Centeno

Deliverance Kristy Centeno

He's been locked away his entire life.

He dreams of freedom.

The only way he can accomplish his goals is by breaking free of the chains tying him to a dark past and gloomy existence. But there's one catch. He's not human.

And he's never set foot outside his jail.

Devoted to saving his peers as well as his own life, he sets out to find the one person that can help him achieve his objectives. He knows where she will be and what she will look like, but what he doesn't anticipate is the fact he finds himself caring for the girl whose life he's put at risk, more and more each day.

He has no name.

He has only known hatred and violence before her.

However, she will teach him to have faith in humanity, even if she can't trust him.

Together they will embark on a journey to bring down a corrupt system responsible for the loss of many innocent lives. But when he finds his feelings compromised, can he still move on knowing that doing so will put an end to the life she once knew? How far is he willing to go to be free?

From Reader Review Deliverance for online ebook

Alyssa Janine Busia says

Deliverance is a fast-paced read that will make you flipped more pages as you anticipate what will be the next obstacle that they will encounter as they travel towards their destination.

Tiger had been born inside the Radcliffe Institute and spent 25 years there before he got the chance to escape. It was through the help of the other prisoner named Castiel who makes his escape successful though he should not be happy about it. Gerard will do everything just to have him back again as he is the most valuable prisoner he has. In order for Tiger to have the freedom he wanted, Castiel gave him a mission and for him to do it, he will need some aid from a woman. This woman named Kristina will be the one to help him in the mission but he needs to make her believe first that he is not harmful and dangerous to her and Rose. Still gaining some trust from Kristina, along their way, Gerard's guard found them and they need to flee already and travel to where Tiger really needs to go. As their journey starts, they will bump into some obstacles that meant to stop Tiger's mission.

This was told from three POV's: Tiger, Kristina, and Castiel.

The main character, Tiger, is so innocently hot and dangerous. Since he doesn't know much about the humanities and all he only knows is that they are just a cruel and selfish creature, he was amazed to see that outside the institute, people like Kristina and Rose still exists. That there are still some people who are kind and not selfish just like what he experienced and see through the people inside the institute. It was so good to see that he slowly changed and learned how to have faith and gain some human traits he should had.

Krsitina, on the other hand, is a very strong-willed woman. Even if she is already scared, she tries her best not to show any fear because she knows that that is what the enemy wants.

Oh! I also want to read the story about the other characters written inside the book.

I liked how I was engaged on reading this book. I can't stop myself from turning the pages because I am looking forward to what will happen next.

I only dislike the part where Kristina and Hayden/Tiger instantly had done something which they're not supposedly to be doing since they only just met for only a short time.

I am recommending this is you are a paranormal lover. If you had read Frankenstein by Mary Shelley, this one is almost the same with the concept except that this is not exactly like it.

Disclaimer: I received a reader copy from the author via YA Bound Book Tours in exchange with an honest review.

Rebecca says

Kristy Centeno is a new author to me and if I was being honest I can say I didn't think I would enjoy this book but was I wrong. This story is a paranormal romance. The way this story is brought together will keep you intrigued. The two main characters are Tiger and Kristina. Once they meet their worlds will never be the same.

Kristina is a warm-hearted person who will help anyone. This quality is shown when she stops to assist Tiger when he needs it the most. Her life has been touched by tragedy in a number of ways, however, she doesn't seem to let that affect her outlook. She is very skeptical of Tiger when they first meet and doesn't completely trust him, however as they get to know each other more she finds that her feelings towards him change. Tiger, on the other hand, has been raised in confinement. He has been tortured within inches of his life regularly and is simply dreaming of a day when he can escape the walls that imprison him, and he can taste the freedom of the outside human world. He refuses to be the monster that the world he has grown up in wants him to be.

There are a number of things that both our main characters don't know about their lives, but as they progress together to help the others escape the institute they find out just these things. I so can't wait to read the second book to see where they end up. Happy Reading.

Lisa says

Deliverance by Kristy Centeno tells the story of Tiger, a being that has been held by the Radcliffe Institute since his birth twenty-five years ago. He has lived a life of seclusion, torture and indignity, until one night when he escapes and runs into Kristina. Kristina is astounded when she hits a stranger with her truck one rainy night on the way home from her friend's house. Because of her guilt for the accident Kristina takes Tiger home when he refuses medical attention. When she takes him home to her grandmother she senses that things aren't exactly as they seem, her grandmother seems to have turned into a different person and Tiger is hiding something too.

Things begin to happen and suddenly Kristina and Tiger are on the run, Tiger is on a mission to help everyone at the Institute to escape and the only way to do that is to complete the mission he was given. The journey is not easy as the two are pursued by security forces from the Radcliffe Institute. The road to freedom will not be an easy one by any stretch of the imagination.

I haven't read a really good paranormal novel in a long time, until now. This was a terrific book, it was very engaging from page one and held my attention until the very end. There were plenty of twists and turns but not so many that you get lost. Each character you met lent to the story telling. It was almost like watching an action movie, the descriptive nature this author uses had me seeing everything in color and cheering Kristina and Tiger on throughout their journey, so much so that I can't wait to read the next book just to see what will come next. Thank you, Ms. Centeno, for the excellent reading material!

Zili says

3.5 Intrigued Stars in my Sky!

I'm going to call Deliverance a New Adult, supernatural road trip. With Kristina's and Tiger's story it's very difficult to discuss the plot without giving anything away so I'm going to keep this as vague as possible. Tiger is a dark and mysterious 'monster' bred in captivity. His escape forces Kristina to go from helpful farm girl to unwillingly paranormal fugitive.

I really liked Tiger. His innocence and naivety never failed to make me smile. It took longer for me to warm to Kristina as I found her moaning at the beginning little hard to like. BUT I did understand her doubts, and as the relationship between her and Tiger developed I found myself liking her more and more.

I liked the secondary characters and in particular Grandma Rose. She's hilarious - I definitely wouldn't want to cross her! I wanted to know more about Castiel, although I have to admit his name did keep making me think of Cas from Supernatural.

Deliverance is like directory or who's who of paranormal creatures. I'd love to know more about the older vampires and what happened to a certain someone...

I received a copy in exchange for an honest review!

Danielle says

This was a great book to read! It kept my attention through the whole book and I could not put it down. The characters were engaging and you were rooting for them, wanting the best for them. The storyline is well thought out and the characters are well developed. It was a great book and I highly recommend it to others.

Tiger is an interesting and well thought out character. From the get go you can tell he is not like the other characters you read about. He is naive and strong all at the same time. He was sheltered away in the lab where he grew up. That being said he does appear to understand humans and their nature. He was not nothing like our normal lead male characters and I found that very refreshing.

The interactions in the book are great and I love how the characters are with each other. The mistrust, the hate, the suspicion, and the way the leads play off each other. It is a great thing when an author can make their characters interact the way they do. This book delivers great dialog, and that is hard to come by with so many books today.

Bobbi Wagner says

Deliverance by Kristy Centeno is a paranormal story that has a twist to paranormal. The story has a little bit of everything in it, action, suspense, and mystery. The author has created a story with characters that are both human and other creatures, some are good and some are bad. You will love how the author has created drama for these characters and how these characters relate to each other. This story will have you from the first word forward and it is addicting. Find out what happens with these characters!

Kristina is a young woman who has suffered loss at a young age and has been living with her Grandmother. She is on her way home one night in the rain when she hits something in the road. Checking to see what it was she hit, she was surprised to find that it was a man. Even more of a surprise was how bad he was hurt. He asks for help so she takes him home. Her Grandmother and her clean up his wounds but she is very skeptical of him. She wants to call the sheriff but her Grandmother tells her to wait, it will be fine. What is it about him that makes her so skeptical of him? What is it about him that seems to draw her to him? What will happen when she finds out who he is? Will it put them all in danger? Will she find something that she didn't expect to find?

Tiger has been locked away from the world for his whole life. He dreams of freedom but in order for that to happen it requires him to break free of his chains that tie him to his dark past. His one problem seems to be that he is not human and he has never stepped foot beyond the jail. What is out there for him? Will he be able to handle what lies outside of the jail? What will happen when he escapes the walls of jail? This is when he met her, of course she ran him over. He has decided to devote his life to saving his peers from the monster that keeps them hidden. Will it put them all in danger? Will he find the one person that can help him? What happens when he has feelings for her that he never expected to happen?

Kristina and Tiger's relationship is one that grows throughout the story. There is a lot of mistrust in the beginning but will that trust grow? Will their relationship grow? He has known nothing but violence and hatred but will she be able to teach him to have faith? Find out what journey they embark together? Will they bring down the corrupt system that has been killing innocent lives? Will the feelings that seem to be growing change life as she knows it? How far is he willing to go to be free? Will they survive this journey? I love how the author has made some strong characters even though she may be a little sheltered but she is smart. Their connection is what makes the story flow from the first time that they meet. Find out what happens to them, are they safe?

This is my first story by Kristy Centeno and I know it won't be the last. Kristy has always had a passion for books and after years of being an avid reader she finally put pen to paper. She finds time to write when she is not spending time with her five children or holding down the fort. This story will pull you in from the first page forward. You will love the intense story that she has created with these characters. I couldn't put this story down and can't wait to read another one of her books. You will need to see what happens with these two and they will keep you going until the end. I highly suggest this story as I know you will love the journey they take you on.

Ashley Martinez (ilovebooksandstuffblog) says

A highly enjoyable supernatural thriller that kept me on the edge of my seat till the very end. Full of danger, adventure, mystery and unexpected romance, I was easily swept away in Tiger's and Kristina's journey. Their characters were easy to like and root for. Tiger was a wild, sexy, and dangerous man who learned what it meant to be human from the fiery and independent Kristina. Their tension and banter was fun to read and their chemistry was undeniable.

With danger around every corner it was hard to guess what would happen next, which was exciting and left me with my face glued to the page for just one more chapter.

I received a copy in exchange for an honest review.

A. Powers says

Holy. Crapazoid.

Okay, perhaps that is not the most refined way to start a review. Nor is it proper, polite, or semantically correct either, but, hey, I agreed to write an honest review for this book, and my honest thoughts on this book transcend meager etiquette of convention. That being said, let me start again.

Holy. Crapazoid. I loved this book so much! I'm not normally a vampire or werewolf kind of person, but that

didn't even matter for this book. The characters are amazing, regardless of what species they belong to. (I just sat here for five minutes with my mouth hanging open in a very unladylike way and hands in the air trying to come up with the words to continue this review; I've actually been rendered speechless by this book!)

Short version summary of the book: Tiger has been held at a medical-like facility (more like a prison) for this entire life until one day he escapes within an inch of his life (with some help from a mystery inmate who becomes more important as the story goes on) and meets up with Kristina, a local farm girl just trying to do a good deed and help out the half-dying man. But Tiger is valuable, and the men looking for him will stop at nothing to get him. Tiger and Kristina take off on a cross-country adventure to find the people who can help put a stop to the madness that goes on in the facility – and also to find out a little more about who (or what) Tiger is.

Let me just say once more. Holy. Crapazoid. Tiger. Is. Amazing. He's so naïve and immature from being sheltered in this prison for his whole life, so as a little romance develops between him and Kristina... OMG. The CUTEST, most innocent words come out of his mouth and remind me of all of the wonderful things about what it means to discover love. Tiger has pretty much ruined all men for me now. No one will ever compare to him, and if any man ever has half a mind to win me over, all he would need to do is quote Tiger from this book. Things like, "Is this appropriate?" And "Will you rest your head on my shoulder?" Are such innocent little things that no real man would ever say. BECAUSE THEY ARE ALL IDIOTS. Not Tiger. Tiger knows how to win my heart. And I am in love with him now.

Aside from my falling in love with Tiger, the story was pretty much everything I could dream of. It was nonstop action from the first page. Lots of supernatural stuff incorporated, but in a realistic way that could TOTALLY happen in real life. I can't even say enough good things about this book. A. Maze. Ing.

(LOL - Amazon rejected this review! Apparently it contained offensive content)

Kim O'Daniel says

Wow that was one hell of a book! Book really took me by surprise. It started a little slow, but as it picked up I just could not put it down. It's extremely well-written, thought out and a joy to read. But it left me wanting more. I so hope she's going to write another book continuing the story.

This story is about tiger and yes that is his name. And how he got that means really broke my heart. Then of course there's our heroin as a story Catherine. When tiger gets strong enough to he was being held all his life. He follows the wisdom of the only friend he has done during his captivity cast Castiel. Who in the end just maybe turn out to be more than he ever knew. You see tigers not quite sure what he is but hopefully now with her help you'll be able to bring down the evil that has kept him prisoner all these years. You maybe be on the way he might even fall in love. As long as they don't get captured again. It's just tough he's strong

enough to protect her. Unfortunately I'm not going to tell you.
You will have to read the book to find out how it all end.

Now before I ruin this for you I will leave off here. I hope you
enjoy this book as much as I did. If you do like this book,
please consider leaving a review. The Authors really like it
when you do; they value your opinions too

Laura says

Deliverance

Kristy Centeno

5 Stars

Tiger has lived his 25 years in a cage, beaten, tormented and starved on a daily bases. He dreams of freedom. Kristina lives with her Grandmother Rose on a little farm. Kristina never thought her world would turn upside down when she helps a stranger. She did not know werewolves, vampires, shapeshifter's, hybrids and half-breeds existed in the real world, only in books.

"I can't get the lingering doubt that he is hiding something out of my head. Call it intuition, but something tells me there's more to his escape than what's he's willingly shared with me so far."

Tiger is a prisoner at the Radcliffe Institute, and he is Gerard's greatest creation. The day Tiger gets the courage to finally escape his tormenters; he is thrown into a world he knows nothing about. Tiger is badly hurt and starving when he is rescued on the side of the road. As the days go by he finds that everything he knows about the real world, humans and even himself is so much different than what he was told and shown. When Gerard's men try to kidnap him and Kristina, Rose sends them on the run. Tiger finds that he has some strong emotions towards Kristina, and he is enjoying Kristina teaching him the benefits to those emotions. Can Tiger save everyone at the Institute and keep Kristina and Rose safe, before Gerard destroys everyone he has come to care about?

Kristina almost hits a man in the road, when she sees how badly he needs medical attention she decides to take him home to her Grandmother Rose. Kristina is having a really hard time trusting Tiger, and she has a feeling that her Grandmother is hiding something from her as well. Rose is determined to help Tiger. When Tiger and Kristina escape Gerard's men, Rose comes clean on her past and why she is so determined to help Tiger. Now Tiger and Kristina have to run, and hope they can stay ahead of Gerard's goons. As the days go by Tiger opens up and Kristina lets down her walls, she comes to accept they need each other to achieve their goals.

I gave this book 5 stars, I could not stop reading this book. It grabbed me from page one and kept to the very last page. This book is a paranormal mystery. I found I related to Kristina more. She is scared to help a stranger, and then as she learns more, she lets her guard down. You can feel her anger and heartbreak towards the way Tiger has been treated and when she has to leave her Grandmother behind. You can feel her determination to make her life normal again, while helping Tiger to have the life he deserves. I enjoyed this author's writing style and will definitely read more.

? Jeri's Book Attic ? the Romance Bibliophile ? says

Deliverance by Kristy Centeno really reset my view on this kind of paranormal novels. Reading as much as I do you reach a certain point when you think you have seen it all or that you can not take any more of a certain genre.

And I have to be totally honest – If I had known the “genre/idea” behind the story I might not have chosen the book BUT I also admit that would have been a BIG mistake. So I think it is good that the reader is left a little in the dark about certain stuff when he reads the blurb.

The author choose the way the Blurb is written wisely because it really fits the story. Therefore I am sorry to disappoint you but I will not be the one to give you more information about it.

The writing of this author is really very good and the storyline is absolutely intriguing. There was so much content that I wondered along reading if the reader would be left with a cliffhanger or if the author will choose to make a series out of it.

Well I can not answer the second but I can answer the first and take away your worry – you will NOT meet a cliffhanger.

When you read the story you will understand the surprise behind that fact. There is really so much material there that I thought until the last pages that there had to be a cliffhanger of sorts.

About the leading characters.

The “he” the blurb is talking about is such a wonderful “person” he is so sweet and naïve that it is hard to imagine he really is capable of all the stuff he lets the reader know about during the story. But given the right motivation – people are capable of a lot ... I had tears in my eyes when he was explained the way humans usually interact because he never learned it could actually be that way.

The “she” we are getting to know is a strong woman that even though she is afraid she will stand her ground no matter the outcome – a remarkable character

And we should not forget about the secondary characters of the story that are built so strong that I still feel there will be more – it is one of those stories where you shake your head and think ... ok this is an END but do I want it to be an END and my answer would be NO. There is easy room for more because so many things are left open ... But on the other hand if you think a standalone is ok and you do not want a series – you will also be fully satisfied when you finished this book.

So it is really a remarkable writing style of this new to me author.

heather - NightlyReading says

This book captured my attention from the beginning straight through until the end! The first chapter was uh-mazing and although, I only intended to take a quick glimpse, I ended up reading three chapters right from the start!

I loved the relationship between Tiger (Hayden) and Kristina. They both had trouble trusting one another and their relationship was one that formed over time, not insta love that we see all too often. Kristina teaches Tiger a lot about friendship, love and the world in general to help him cope with all his years under lock and key.

My favorite character was Rose(Grandma). I loved her snarky, not a care in the world attitude. She had a lot of pep and spunk for an elderly lady and she was the perfect character to keep Tiger and Kristina in check.

With all of the different paranormal characters, which one would never have expected from the blurb, this book is rating high on my top favorites of the year. It was full of non stop action, love and excitement around every turn. You should definitely add this one to the TBR!

Lisa says

Deliverance by Kristy Centeno 5 stars

He has been locked up his whole life. He has no given name. He is different from others and yet he is not human. He does not know his mother or father. There are others similar to him at the institute....but not the same. He is special. One of a kind.

He is known as Tiger.

After years of torture and abuse he finally is able to figure out how to escape. The plan is to meet up with a girl and she will help him circumvent the world to get him where he needs to be as long as they don't get caught.

Kristina runs across Tiger and decides to help him since he is injured. She takes him home to get help from her Grandma and that's when things start to get weird. Her Grandma isn't shocked by any of the changes taking place in Tiger and she starts keeping secrets from Kristina. What is happening to her normal life?

Tiger is a great character. He knows all about the evil of humans but after being in a room for most of his life he doesn't understand many of the good things or good people. It's almost like he is starting as a small child and he has to learn everything. It's neat watching him learn the newness when he gets all excited and giddy. Makes me smile. Listening to Kristina explain some things that we take for granted was interesting because of his reaction to them. As Kristina helps him she starts seeing him in a different light. Maybe she can learn to trust him.

This book captured my attention at the beginning and it only got better as the book progressed. I will say that

a large percentage of the action was in the last half of the book and the sweet innocence of Tiger was all throughout. I enjoyed learning about Tiger and all of the others in the institute. With Kristina I had to wonder if she was only human since many times her identity was in question. It kinda makes me wonder if there will be another book?

Liz says

“I can’t prove what I’m saying, but it’s the truth. I did escape a jail, but not the kind you think.”

Holy wow! I did not expect this book to be the amazing all-consuming book that it was. I will say I went into it with an open mind after reading mixed reviews about it and the blurb. I am immensely happy that this blurb was so vague and yet so captivating because it is what sold me on picking it up to read. I never expected to enjoy werewolves, vampires, and more, OH MY! Kristy Centeno weaves a tale full of adventure and action-packed scenes that are begging you to sit on the edge of your seat. There are many characters that make for an amazing cast besides the main two that I will mention the most in my review. I hope the second book in this series gives us a glimpse at those other characters in a more detailed format much like this one.

As for details, I plan to keep them short and sweet with a few favorite supporting quotations from the reading. I truly believe it would be a disservice to divulge too much in my review. One must enjoy this book themselves to fully grasp how great it is.

Tiger has spent the past 25 years locked away in the Radcliffe Institute. He is tortured within inches of his life regularly and is simply dreaming of a day when he can escape the walls that imprison him, and he can taste the freedom of the outside human world. He refuses to be the monster that the world he has grown up in wants him to be.

“Bringing out the worst in me reminds them I’m not their equal. That I will never be fit to live in their world like a normal person.”

“The constant abuse of power is a mindless attempt at polluting my soul with their concept of superiority. I’m inferior to them. A being created in a lab, birthed by an otherworldly mother forced to carry me to term. They never fail to bring to mind how opposite we are. Their views are not entirely implausible. The main difference between us lies in the simple fact that I am not human.”

“Heavy raindrops saturate my body with cold water almost as soon as I am out the window. The drastic change in a temperature shocks me, but my system works quickly to regulate heat. I land a moment later on muddy, wet dirt. I glance down at my bare toes digging into the thick soil and wonder- for a fraction of a second- what it would be like to be truly free. To not be forced to kill. To find out what the world outside of Radcliffe Institute has to offer.”

During his escape he literally runs into Kristina and they set out on a journey across the country to find out how to outrun the men chasing him at the institute and ways to save all the others back at it. During which we find out a lot of backstory on who and what Tiger is, as well as Kristina and how her grandmother, Rose, plays a part in everything as well. There is also some falling in love thrown in here for added bonus to this story, because one thing Tiger is, is swoon worthy.

“I will figure it out. You better not be a threat, or you’ll be sorry.”

“Am I the only one who thinks this is completely unrealistic? Not to mention disturbing.”

And for one of my absolute favorite quotations in the book...

“The future is not always certain. Things change Nothing is written. The human mind is very complex and Tiger is not the exception to the rule.”

How true is it that nothing in life is certain? Nothing written in stone? This book will hook you from page one to the very end and leave you with baited breath for the next book to come. Thanks so much for such an awesome eye-opening experience to this genera, Kristy Centeno!

zoë ✨ (fallxnrobin) says

While *Deliverance* is classified somewhere as either Young Adult or New Adult, I think it leans more towards the New Adult genre. 1) the ages of the main characters. the female protagonist is 18 and the male one is 20-something. 2) there's some steam, enough to cloud your vision but not enough to completely blind you.

Moving away from what I think about the genre classification, this book was **unexpectedly good**. I signed up onto this blog tour on a whim. I told myself, “*You know, let's not shun those boy-meets-girl kind of summaries. It's inevitable. Those summaries are everywhere. Let's face it, and who knows? You may end up liking it.*” But the thing that really drew me to this book was the mention of freedom, entrapment, and identity. **And I certainly was not disappointed.**

4 stars

The characters were really well-developed and I would be able to (and gladly) write out a detailed analysis for most of them, but let's just leave it at that for the sake of keeping the spoilers to a minimal. But really, just read it for the characters. It's worth it. Or you could read for the plot, with its great pacing and enough secrets and action to make sure you continue to read on.

A few days ago, I was discussing with someone on Facebook about how romance in books should focus on something other than the appearances of both parties, then I started reading *Deliverance*, and I can't believe I'm saying this but, *I like the romance*. **I really like the romance in this book**. The romance was hindered by “her” distrust of “him”, and “him” having the mentality that “she” was just a means to an end. It certainly took awhile to build, but I loved every moment of it. Also, did I mention that “his” lack of knowledge about human customs makes him such a precious and polite cinnamon roll (but let's not forget that he's still pretty deadly)? I adored the fluffy moments so much I didn't even care when steam got into my eyes.

As I was finishing the book, the thought that I may have just found my first five-star read of the year crossed my mind (ok granted I've only read like 20+ books so far for the year BUT THAT'S IRRELEVANT). So what hindered me from doing so? The writing. It was easy to understand but at times, it felt repetitive. I understand that throughout the journey, there may be some recurring thoughts that pop into the characters' head every now and then, but after reading paraphrased versions of the same thoughts like four or five times,

it kinda gets boring.

On a side note: I'm probably over-thinking as usual or my mind is just running wild right now but I just couldn't help but think about ***Tokyo Ghoul*** while reading this book. It all started with the quote “*Had we met under different circumstances, I would have liked to get to know him better, but his story is obviously a complicated one.*”
