THE NUN

A cloistered convent life had left Hallie McIntyre innocent of the world, and of men. But the wounded stranger lying in Sister Domenica's garden was sun-bronzed, strong, and fascinating. Agreeing to hide and nurse him, Hallie didn't understand the powerful feelings of desire that were propelling her toward sin. On the verge of taking her vows, she discovered the force of a different destiny, one born of a woman's need and passion ...

THE OUTLAW

The son of a French trapper and a Lakota medicine woman, John Walking Hawk had vowed to hunt down the marauders who slew his family. Yet the same law that refused justice to a half-breed had branded him an outlaw. Now a beautiful young woman was breaking down the barriers around his heart, daring to ride with him on a dangerous journey of vengeance, and risking everything for a love that comes only once in a lifetime ...

**Hawk's Woman**

I enjoyed another of her books, I've loved every one of them and I'm looking forward to the next one. She does a very good job on her history of the Indians, I've always thought the Indians were missed tricked. They were here first. Thank you again. Ada G.

Overall, the book had a lot of potential -- the romance, dialogue, setting, etc. were all there. It was the main character Clay that ultimately dissappointed me throughout the novel. I found him to be nonchalant in his love for Hallie and dismissive. In fact, most of the book is centered on how much Clay loved his first wife, Summer, regardless of his simultaneous emotion concerning Hallie. At one point in the story, Hawk's \*SPOILER\* daughter says "She's pretty, but she's not as pretty as momma." to which Clay responds "of course not. No one is as pretty as your mother." And I just thought... this is really awkward. The whole time, none of this seems to disturb Hallie. I just wasn't impressed with this book, which is sad, because I was so excited to read it.

I really, really tried to read this book. Hell, I really tried to like it, too, but in the end, there were just too many turn-offs. This is the second Baker book I've read, and the similarities are beyond doubt a little too much for me. Half-breed Indian, on the run from the law, ex-con, bank thief, beta male, needs-a-white-nursemaid. Add to that layers of nunneries and barnyard nudity, and it's a recipe for "I couldn't finish this drivel."
