Kneel

Dani René

Kneel Dani René

From the international bestselling author comes a dark, sinful story filled with steamy scenes and a rocky road that's raw, unapologetic, and carnal.

"Greed was my vice. A sin that led to my addiction."

Love was not an option for Nate. He didn't want it. Didn't claim it. Until her.

I hid the monster from everyone, including myself.

Emotions were firmly locked away.

As much control as I had in my life, I could never control my heart.

Eva exposed me.

She begged and pleaded,

and I swore I'd make her kneel.

And when she finally did,

I broke the only jewel I ever owned.

***This is a dark erotic romance with BDSM elements. Due to scenes of an adult nature, this book is for 18+ ONLY.**

"Wow. This book is beautiful in a rough around the edges, raw, carnal, way. It will rip you open and make you feel so much." - The Reading Cat

Tamara Harrington says

HOLY FUCKING SHIT!!!

I don't even know where to start with this review as to how much I freaking love this book.

Firstly thank you to Dani for writing a book that has crawled into my soul and buried itself so deep that I will never forget it.

Nate is without a doubt the biggest asshole and throughout this entire story, he rips my heart out repeatedly but then he stuffs it back in there and makes me smile through the whole ordeal even when there are tears in my eyes. This is beyond any BDSM type book that you will ever read, there is so much depth and the emotions that it provokes, just wow. Saying that, don't get me wrong, there is some serious sex in this book and the depravity is on a whole new level. Dani has crawled into the minds of her readers and got into the most dark corners of our minds and shown us just what we are all too shy to ask for.

This is book one of a new series and I can tell you now that I am salivating over the future books.

Received an ARC in exchange for an honest and unbiased review.

Joy Westerfield says

This book is the first in a series of seven and I can't wait to read all of them. If you like stories with BDSM, this book is for you! I was enthralled thru this whole book. It's the story of Nathan, a Dominant who based on the description in the book is a total hottie! And Eva, a submissive Nathan becomes enamored with. Nathan doesn't believe love is in the cards for him until he meets Eva, but something is holding him back. Eva had a rough time growing up and wasn't sure if a man could love her. If you want to know more, then please read this book! It is an amazingly hot read and you won't be disappointed! Can't wait for the next Sin to read about!

Snow says

Sooooo.....

I've finished this one last night, picked it up on a whim, totally unexpected nor planned...and I had a good vibe flowing all over me from the beginning....

it was dark, it was provocative, it was alluring and thrilling...and I also got an idea that this would be somehow more psychologically explored in a sense of seven deadly sins...

BUT it didn't reach that effect with me, even though it had all the predispositions...

Now, why 3 stars?

Even though, i actually liked the story, well most of it, in general and **the writing was good**, being also my first contact with this author's work, I also had a **crippling notion** that, while I have read plenty plenty of books with this topic, the disappointing feeling I got when this one ended up leaving me flat and empty, inspite my primar excitment, was a major set back.

I eventually found the story **stereotypic**, and whereas I actually thought the *subcontext and psychological approach* would in fact bring this story to a higher level thus making it closer to a masterpiece, it was just *a solid vision of inner search of both characters' self-worth in finding the release or the essence of themselves while exploring their deepest dark desires, pushing the limits of a Dom/sub relationship* ...but their interactions being based on a false approach where the trust should be guaranteed by the main hero, it didn't work for me, and I didn't get that crucial connection, unfortunately.

Secondly, the *"emotional" connection started like an INSTA-thing and that well, kinda didn't fit into the whole Dom/sub combo either, if you get my drift.*

However, I m intrigued by this author's writing in general and I'm quite sure I'll be looking out for the her future works :)

Sheena says

Unashamedly hot....

I am totally enamoured with this book..beautifully written and so erotic and sexy...this new series follows the exploits of a select and salacious group of men and women who pass through the doors of Club Seven Sins and into the enticing and indulgent inner sanctum beyond...now that is one membership I would gladly pay the fees for...

The author is one of my all time favourites and this book epitomises the reason for my admiration....the writing is skilful and the characters are fascinating, complete and believable...Nate is such a wanker, self centred and avaricious but he also has such a deliciously filthy way with words.....he is that special kind of dominant asshole which makes him undeniably attractive and charismatic.... Eva is a beautiful, passionate woman who enters Nate's sensual world of pain and domination intrigued but also filled with trepidation ...together their chemistry is volcanic and when it erupts there is no place left to hide from the desires and yearning of their hearts..... but their journey is one of self doubt and denial their past's rule their present and their potential future...after all not every love story ends in happy ever after...

I now impatiently anticipate the stories of the remaining six sinners and their wicked ways...Carrick, who appears to be the 'glutton' is top of my list...this was an absolute unputdownable addictive must read this book should come with a warning.....all who enter beware for having accessed the decadent world of Club Seven Sins you may never want to leave....I received an ARC of this book from the author...

Kate Hastings says

Book one in the Sins of Seven series pulls no punches, so if you're expecting a romantic read with darkish overtones, this book is so not it.

Kneel is graphic, & gritty & it's unapologetic in its exploration of the sexual tastes of those of whom most of us have only ever read about - or secretly watch with rapt fascination on redtube or tumblr. Or so I've heard. From a friend.

Delving into the world of BDSM in a way I've not read before, this story elicited near every emotion from me. Appalled to aroused and back again, my heart, mind and body were all over the map as I absorbed the many facets of Nate and Eva, and the like-minded individuals in their story.

The hero is a mess. The heroine is a mess. And you, my dark romance book lovers, will no doubt be a mess reading it. All of which I'm sure is EXACTLY what the author intended when she invited us into this world, into this exploration of the seven deadly sins.

As usual with a Dani René novel, there is also an additional underlying "OMFG" plot at play in this story, and Jay-Sussss, it's a doozy! Switched on readers will suspect early what it is, but in typical fashion for this author, I wouldn't bet your first born that you've got it right.

Kneel is not a romantic love story, but make no mistake, it is a story about love. It just may not look like the kind of love you've seen (or read) before.

Bring on the next Sins of Seven book, and given some of the characters I've just met in Kneel, a few names easily spring to mind.

Wendy says

Greed, by definition is the intense and selfish desire for something, especially wealth, power, or food. Now, let's get a little naughty and add sex into the mix and what do we get? Kneel!

Kneel, is the first book in the Sins of Seven series. It isn't for those faint of hearts, but if you're into the dark, you're going to love this, I promise.

Nate, the Dominant, is by his own admission, well... greedy. He knows it, owns up to it and like all seven deadly sins is ruined by it.

Eva, the Submissive, is just that. She's been broken by the one who should protect you and feeds her demons by degradation and humiliation. What brings these two together? Well, read it because I can't tell you...

This book completely sucked me in, stripped me bare and put me back together again. The heightened emotional state this book put me in was incredible. I found myself holding my breath just waiting to see what would happen next. If this is how this series has begun, I can't wait to see where the other decadent sins will take me.

Definitely looking forward to the next one.

~Enjoy

I received an ARC copy of this book from the author in exchange for an honest review. Thank you Dani René!

Wow. This book is beautiful in a rough around the edges, raw, carnal, way. It will rip you open and make you feel so much.

Typically, one thinks of a BDSM book as simply a single layered, uncomplicated plot, which is singularly about sex. This book proves all believers of that statement above wrong. This book is complex both in plot

and characters. It will suck you in from the first chapter, and claim you until the very end. You will kneel and become a submissive to this book (see what I did there? That's what 12 am review writing by me gets you guys).

I found my eyes watering as Eva's were, and I felt my heart ache alongside hers. There were many scenes which were hard to read, but that were integral to the book. These scenes (pun intended), are so emotionally packed. It's hard not to experience what Eva is with René's talented writing.

René is one of my favourite authors because she brings life, a million emotions, and humanity to her books. Her characters live and breathe and are not bound to the paper of the pages, or pixels of the screen. They, along with the stories, become living entities.

I have nothing negative to say about this book. Absolutely perfect.

Michelle says

Arc provided by author for honest review.

Ah fanning myself right now! This book was hella hot! It had to be one of the hottest books I've read this no lies. Nate and Eva you really feel what these characters are going through. I connected with Eva from the start on crazy level. Everyone I know has to read kneel Dani my doll I'm so freaken proud you. You truly are an amazing author. I know you have only gone dark this year but doll it's niche 100%!

Up All Night With Books says

ARC received in exchange for an honest review

EPIC! AMAZING! A MUST read! Dani Rene's *Kneel* is utterly brilliant!

Nathan does not do feelings, whatsoever. In turn, his passion is BDSM. Well, degrading and humiliating women anyway. Nate gets off it and the women...well, they like it, love really. Nate also does not do more than one night with any submissive. Period. Enter Eva who catches his eye, he wants her for more than one night.

Eva lost her dad when she was just a teenager. In turn, she ran away from her mother and her mother's no good boyfriend. Then she met Carrick who introduced her to the world of BDSM, specifically a dom/sub relationship. When she meets Nathan, she wants to be his sub more than anything.

Nathan and Eva have great chemistry. The sex between them is fire, complete fire. However, there is a third person in the "relationship" that can doom it before it even gets started. Nathan wants more with Eva but he is scared. Can Eva break down his walls? Will this "third" person ruin their relationship?

Kneel is so addicting, I could not put this book down. I for one, have never been one for dark romances. Ever. I would always say no, no matter how great the blurb was. However, I have been turned to the dark side! Dani Rene has made me a lover for dark romances!

Five stars across the board.

Mind blown! Dani you did not disappoint ????? I was very lucky to read an arc of this baby and my mind is beautifully blown? EVERYONE has a little darkness ???EVERYONE needs love????

Jessica-🐾Chatterbooks Book Blog🐾 says

3.5

Kneel is the first installment in the new Sins of Seven series by Dani Rene. If I had to describe this book in only two words, those words would be dark and dirty. Lucky for me, that’s just the way I like them!

Nate is a Dominant that derives pleasure from humiliating and degrading women. Their tears feed the monster that lies within him. He never has a woman for more than one night, because there is no point. Monsters can’t love. They can only destroy. He learned that lesson early on, so he believes he is actually doing the women he’s with a favor by discarding them quickly. Nate never had trouble walking away from anyone until he met Eva.

Eva’s father died when she was just a teenager. She endured things after that no child should have to. After leaving the hell she called home, she befriended a man named Carrick that introduced her to the world of bdsm. From the very beginning, she knew that it was a world she needed to be a part of. Eva is a submissive

whose tastes lean a little on the dark side. She likes it rough, but if it seems nonconsensual, she likes it even better. On the night she meets Nate, he gives her what she craves sexually, but what she doesn't expect is for him to take a piece of her heart in the process.

Against Nate's better judgement, he asks for one more night with Eva. She agrees, and that night turns into weeks. Neither of them have ever felt more at peace with anyone else and ending their time together isn't something either of them can imagine. Unfortunately, that might not be up to them. An outside force has had a hand in their relationship from the beginning, and they possess the ability to devastate them both.

Kneel is an erotic bdsm romance with a broken asshole hero and a sweet, shattered heroine. The author's writing style kept me flipping the pages, the story held my interest, and the sex was intense and abundant. As for the characters, I'm not going to say that I loved Nate, because I didn't. Assholes are my kryptonite, but there was something about him that frustrated me throughout much of the story. However, I understood why he was the way he was, and in the end, I wanted him and Eva together. She deserved her happy ending, and I felt a lot for her character. Nate and Eva are two tortured souls that recognize the broken parts of each other and together they are made whole. This book might not be for everyone, but if you like your romance dark and depraved with a minimal amount of sweetness sprinkled in for good measure, this might be the book for you!

Le Ann Foster says

??Reviewed for CherryOBlossoms Promotions ??

I gave this book 5 Stars!

First off let me say if your not a fan of dark, angst, BDSM books then this book isn't for you. This is the first book in the Sin of Seven Series and is not for the faint of Heart!!!

This book was just what I need to get me out of my book funk that I have been in lately. SO Thank You Dani!!! I was intrigue from the synopsis and knew that I was going to be in for a wild ride with this book. When you have an opening chapter like the first one in this book, you are hooked and there is no way anyone is going to be able to down. I simply devoured it in a couple hour after the kids and hubby went to bed. Ladies, let just say that a man like Nate will have your panties wet and you wanting to do whatever he says. This book is dark, twisted, rough, raw, carnal, evil, and Greed.

Nate is a man of Greed one of the seven sins! He is a Dominate, who becomes enamored with Eva a submissive. He doesn't believe in love and knows its not in the cards for him. Eva had a rough time growing up and wasn't sure if a man could love her. What happens when Nate and Eva worlds collide? Read to find out!!!

Cant wait to read what Sin we will get next!!!

Philomena Callan Cheekypee says

Kneel is book one in the Sins of Seven series. What a fantastic start to a series.

Nathan is a dom but he doesn't have the same sub more than once. Enter Eva who is a sub. Everything changes. He wants her but he's built up walls to protect himself. Can Eva break down those walls?

The chemistry between Nathan and Eva is off the charts.

I absolutely loved the story and read it in one evening. I just couldn't put it down. Can't wait to read more of this series.

Love2ReadRomance says

WOW! WOW! WOW! Amazing, hot, sexy, dark, romantic, intimate, erotic, dirty... The List can go on and on to describe Kneel. Dani Rene, I am in awe of your writing and can't wait to read more!
