Paladin Montana Ash

Honour. Duty. Loyalty. Control. These are the principles Darius lives by – almost to the point of obsession. They had forged him into a noble knight but had also cost him the woman of his dreams and wrought a non-relenting hatred for his personal nemeses; the shades.

When a tiny, redhead, whirlwind of trouble descends upon him and his fellow knights in a flurry of questions and impossibilities, Darius finds himself struggling to reconcile his past values with his future desires.

For Diana, the arrival of Max brings with it a portent; revolution. As a paladin of death, acceptance is at her core. So embracing the sarcastic powerhouse as her sworn liege is easy. But embracing a certain air paladin who is a pathological rule-follower? Well, that isn't so easy, despite the attraction they have shared for centuries.

With Darius confronted by his demons and a bitter Warden bent on exacting revenge, will the two knights ever reach their happily ever after?

'Paladin' is #2 in the series by Montana Ash. I was partially disappointed that, while still in third person, this book shifted gears and told the story from Darius' point of view (still in third person). I wanted to read more about Ryker and Max but, once it picked up a little more I quickly got into the story.

The good thing--since Sir Darius is the more uptight, orderly member of the group we don't hear quite so many euphemisms for a boner this time. Not that I don't enjoy hearing about that every now and then but I was beginning to wonder if she was (Ms Ash) a bit obsessed. So she is able to switch gears and be a bit more serious. ;)

It doesn't leave off on a total cliffhanger that makes you go WTF but...you still want to come back for more. Still loving this series; can't wait until 'Chade' (#3). A very creative, engaging take on the elements, magic and warriors. Thoroughly enjoyed.

Some very minor spelling and formatting errors/typos but it's easily forgiven.

I'm so digging this series... I love how the authors is telling a story base on our main heroine Max character but telling the story from other people in her Order different POV's...

Okay so I'm off to read book 3 in series because it's becoming to addictive to do anything else but jump right in where this story left off... So bye for now..

Ahhh the joy of Kindle e- books???

4*~A Very Good Read

Another great Elemental Paladins book. This is a true ensemble cast. Whilst Max is the focus, everyone is equally important, especially for the revolution that's coming.

Darius, the Air Paladin, is the only one concerned by the fact that Max is a Custodian. He comes from a long line of Paladins & is 1300 yrs old. He craves order and rules and structure and the fact that there isn't any precedent for a 'fleshy' Custodian is driving him crazy.

Diana, the Death Paladin, has been in love with Darius for 800 yrs, though that doesn't stop her seeing his faults.

It was nice seeing them get their HEA after so long. And nice seeing Ignatius getting beat up.

It will be interesting watching Max shake up the Paladin & Warden world, and what will happen to the Chades with souls.

“I take it you’re not a fan of karaoke...”

“Absolutely not! Lucifer himself dreamt up that little peach of a nightmare. And it won’t die! It just won’t die I tell you!”

“Lucifer isn’t real, Max.”

“Oh yes he is! I’ve met him. And do you know where I met him? That’s right! It was in a karaoke bar! Never again! Oh no, never again...”

“Does this have something to do with the donkey and the train thing?”

“Hush! Quiet you! We do not speak of such things!”

Oh My God, the shear ridiculousness that is Max. I so want to know about this train and donkey thing. This is the second time in as many books that it's come up and she still won't say.

Now oh yes it was awesome I enjoyed it very much and it was intriguing had some humor found out more about Max and the characters are fantastic and very excited for more...I would highly recommend it...I could not put it down

What a sequel! What a book. What a series. It really gives me the warm and fuzzies.

I had high hopes for this second instalment because I pretty much fell in love with the first book. I fell further in love, with this one, if that's even possible. I cannot express how annoyed and wallowing in despair I am that the next book has not even been published yet. I feel like crying.

Please, if you're on the fence about it, don't be. It's a brilliant series and just getting started so give it a go. You won't be disappointed!

Happy Reading :-)

I'll admit that I was a tad disappointed when I realised this wasn't from Max's POV like the last book (I think she's hilarious and super interesting). But I loved getting to know more about Darius and Diana, and there was still enough of Max and Ryker for me to be satisfied. Loved this book and looking forward to more of this series!

Five stars++++

I know it has been said that a series gets better as it goes along . Paladin knocked that saying out of the ballpark. I absolutely loved this book. I loved getting reacquainted with the characters and reading about how they progressed through the story. Can I just say that when Darius and Diana get together it gets hot. I have to admit that I had to put the book down and catch my breath a couple of times. The bar scene had me laughing out loud. I'm defiantly going to listen to milkshake too see what Darius was sing to. Oh my Gosh there's just so mush I loved about this book that I'm just going to say push the but button you won't regret it in fact you'll be sadden when it ends and you have to wait for the next one to be released. Montana Ash thank you for that amazing Dedication. Us minions believe in you!!!! YOU ROCK!!!!

I loved the first book - Max was feisty and funny, the gang dynamic worked perfectly and the romance balanced well with the underlying story. This picks up where the first book left off but sort of meanders along not really going anywhere. This is also supposed to focus on a new couple romantically but you could have fooled me. While we do mostly get Darius and Diana's POVs everything seems to be about Max. I can understand that she's basically what the storyline revolves around but it got a bit boring. And Max came across more like a child than a strong kickass woman.

Argh. Blah. What a big fat disappointment.

Great follow up

I was highly anticipating this book and it did not disappoint, second book in a series have a hard time living up to the first but this one did cant wait for more.

What can I say? After reading Warden (Book One in the Elemental Paladins series) I was hooked! I'd cried in parts, literally laughed out loud in others and I'd fallen head-over-heels for the feisty Warden Max and her new family of misfit knights. My only concern about reading Paladin was that it couldn't possibly meet the lofty heights of its predecessor and I knew it must fall just short of the pedestal I'd erected specifically for Warden. Well, for once I was wrong. Furthermore, I'm ecstatic about being wrong because Paladin is phenomenal! Now I get to bake my cake as well as eat it because in Paladin I still get loads of Max's wit and unorthodox personality and I still follow her and Ryker's love story, but, I also get to know Diana and Darius a whole lot better (and who could have imagined that by-the-book, courtly Darius would get drunk in a karaoke bar and sing Milkshake?!?!). Basically, I need a larger pedestal because Montana Ash is blazing a new trail in the sometimes run-of-the-mill, formulaic world of paranormal romance.

I absolutely freaking love these characters. Smart, funny, caring and gorgeous. Max is an absolute laugh, Adel and Lark are fantastic.....and the females, Diana and Cali are such strong female role models. And of course Darius and Ryker.....

Love This Series!!

So love this series with Max, Ryder and the rest if the gang. Max sure knows how to shake things up! The only problem i have is how the books end just like the first book because it keeps you guessing how it would turn out! But now sooo can't wait for the next book to see the reaction of the council!.

Well another one bites the dust.

I adore this series for many reasons and while the first for me will probably always be my favourite of the series. This one is pretty great to.

In this instalment we get the story of Darius, the air paladin and Diana, the death paladin. They have been in love with each other for over 800 years but through stubbornness neither one has made the moves.

Darius is from a long line of paladins and at over 1000 years old his need for order, for things to make sense and be done by the book are almost more important for his mentality than anything else. He is at breaking point with his life and his structure is in disarray causing him to act completely out of character. He's never one to let the control go so what happens when one feisty death paladin and a tiny hurricane of a custodian comes reeking havoc on his structured life.

What I loved about this story is that while you do get a lot of Max and the other paladins amongst others .. it doesn't overwhelm Darius and Diana's story. I love that they finally get their happy ending! The chemistry is on point and dragged out deliciously building up all the sexual tension having us on the end of our seats waiting for the pin to drop.

Their story most definitely isn't smooth sailing and boy did they have a journey. It broke my heart and fixed it back again. I sobbed, laughed till I cried. Shouted out in anger and happy danced my ass around the bed in glee. The plot only thickens with more crazy shit popping out and let me tell you its only getting better. I have a feeling I know where the next book is going and whom it is but all will be revealed soon hmmm.

On to the next.
