**Book worm**

Omg I loved the series. Snow was tested so many times and beat the odds everytime he was. I was so relieved when Wynter gave him another chance after he cheated on her. Yonni got exactly what she deserved jail time for teaming up with Ace to kill Snow. As for Yasmine I'm glad Wynter checked her hoe ass knowing damn well she was not studying her kids. Coming around pretending to be the motherly type. Let's not forget Iris that heifer was crazy and she did that to herself trying to be spiteful yeah Karma is a b\*\*ch. Mecca went through so much with her father trying to marry her off to the highest bidder. I was glad that her and Wicked found their way back to each other.

**Great read**

I LOVE this 2 part series. I HATED that it had to end. So many lies, so many secrets, and so much betrayal, I wasn't sure if I was going to make it the end safe (lol). The way this story continued to drop bombshell after bombshell had me scared to turn the page. Wonderful job, I insist you read.

**Good Series**

Overall I enjoyed this series. The relationships in the story really get tested, and some kids too. Secrets drop and Snow keeps getting hit with blow after blow. Wynter tries to hold it all together but one night out turns in a disaster. I hated how Wicked did Mecca he knew what her priority was, and he knew moving on was killing her. I like how the story came full circle, then ending was really emotional. Its good to see men express their emotions no matter how hardcore they try to maintain. That was one of the things I really like about Snow and Wicked. They knew when they had to right their wrongs.

**A Beautiful Love Story!**

This was a beautiful love story of you can get by all of the unbelievable parts. Chicago is a very big place to have so many people from two or three families to inter-weave themselves into each other's life without it being intentional. Love Story was great!

No Sweat

**Yes**

What a great series! Poor Wynter and Mecca just couldn't get a break. Hurt followed the two of them every where they went. Even after they both left Blaire, the sun still didn't shine. Will the two of them ever find happiness? You have to read to find out. Great read!

**Very Good Read**

I gave this book a five because it kept me interested from book one. This is my first time reading any of this

author s work and I can say job well done. I liked everything about this book. It was not your usual urban fiction. I also liked how the author incorporated the belief of God in each character. Something I wished could be seen in other urban fiction. I will recommend this book to others.

#### **All that.....**

This book was all that and then some! Poor Mecca just couldn't catch a break. I felt so bad for her, but I'm glad everything worked out and she found her happily ever after. I knew Ace and Yonni were both shady, but glad she had a change of heart.. Didn't want Snow and Wynter's story to end, but now it's time to move on to Wicked and Mecca's story....

#### **Too many issues**

Well this has everything including the kitchen sink. Murder, prostitution, polygamy, drugs, thugs, paternity issues, baby mama drama, crackheads, domestic violence, sex, arrogance, girl too much stuff. How big is Chicago? The degrees of separation is hella small. And how Winter never told that Cam killed Willow? What?

#### **Awesome Stories!**

I love book one and two storylines because they were filled with love, many secrets, lies, thoughtfulness, deceit and some unforeseen drama.. Love the personas of the characters and how they all tied in as a family member or a friend of another character, but all in all great lessons as well. One being that there is no perfect person. Two there is no perfect rlationship and three life is too short for you not to get your happy ever after. I'm proud of the growth of some characters and glad consequences were given to those who needed more

growth. Awesome Read! ReneeG
