John says

For those of us who do not have time to read all of the Vedas, this is a fine collection. I bought it when I was in India and was studying Sanskrit. The original Sanskrit is included for all of the selections. That's great and unusual in my experience. I have not compared it with other translations, but it reads beautifully and is very quotable. It has six sections: Hymns on creation, devotion, revelation, action, splendour, and positive science. It has a good index, with the original Sanskrit at the end.

Unfortunately, my edition is poorly bound and the paper will not last. I must handle it carefully.

Please note that this edition was originally published in 1986, not 1998, and the original Sanskrit text is included in my edition.

"Wisdom comes to the man who meditates, acts and lives according to the true eternal laws of nature." (Rig Veda 10.47.6)
