As a child his passions were comics and cars, but George Lucas grew up to be one of the most successful filmmakers of all time. He is a producer, screenwriter, director and entrepreneur whose company Lucasfilms pioneered the movie effects that changed the world of animation. He founded Industrial Light and Magic, which transformed special sound and visual effects throughout the Hollywood film industry. He is best known, of course, as the creator of the Star Wars movie, television, gaming, toy and merchandise empire, as well as the archeologist-adventure series Indiana Jones. I really liked this book because I wanted to know how he came up with the star wars movie series. when I was reading this book I also came to know that he's the most successful filmmakers of all time. This book would be good for someone who likes biography.

Chloe (aka Crystal) says

This was an interesting book for me to read, especially because I'm a huge Star Wars fan. It was a simple book, specifically aimed at children, but still one filled with some info you might not have known. There's really not much for me to say, but if you're interested in the creator of Star Wars and Indiana Jones (and Steven Spielberg was the creator of IJ too), then totally pick this one up.

Miss Sarah says

Filled with interesting tidbits this elementary level biography follows the life and career of filmmaker George Lucas. Loved all the behind the scenes tidbits.

Mr. Morgan says

So, you know a lot about Star Wars, huh? You know the names of all the planets, aliens, ships, etc. But do you know where George Lucas came up with the idea of Chewbacca? Do you know what Luke Skywalker's name was in the first draft of the script? Do you know where the name "RD-D2" came from? Do you know what other Lucas movies have cameo appearances of C-3PO and RD-D2? And what about George Lucas's other movies: THX 1138, American Graffiti, and the Indiana Jones series?

This is another great entry in the Who/What is . . . series. Star Wars fans will love the trivia and behind-the-scenes facts about Star Wars. Even as a life-long Star Wars fan, I learned some new things!

Rachel says

George Lucas is an incredible director who changed the course of movie history. The franchises of Stars Wars, and Indiana Jones are among my favorite films. George Lucas is an American legend!

Montzalee Wittmann says

Who Is George Lucas? by Pamela D. Pollack, Meg Belviso, Ted Hammond (Illustrator) is an excellent story of a young boy with a very big imagination. It follows that boy through adulthood until present, follows the hard work it took and his personal life. It is a great story and one that inspires. Lots of info and great sketches in here too. Great job! Quite a wonderful story that we all are glad he took, what would life be without his work?

I would have devoured these biographies as a kid, great series! As for George Lucas. He made Star Wars. He made my childhood filled with hours of imagination. He will hold a place in my heart forever for his vision and the joy it gave me as a kid, and the joy it continues to give me today.

Harlow says

Plenty of good information.

Gabriel alexander Arras says

I think that this book is a great book. I didn't think George Lucas did so many movies. I used to think that he only did Star Wars and Indiana Jones. By the way, I am so exited for the next Star Wars movie coming December 18, 2015. This book I would recommend to any body who likes biographies and George Lucas.

I love the books in this series. It gives kids an insight into the lives of people they may want to learn about. This one about George Lucas tells about his growing up and how he made his dreams come true and some history about how Star Wars came to be.
