Infantina Nivetha says

101 Tips for Parents of Children with Autism: Effective Solutions for Everyday Challenges is a source full of valuable assets not only to struggling parents with an autistic child, it is also for all parents who want to lay a solid foundation for the sake of growth and development of their children.

The book discusses everything starting from what is the difference between autistic child and a normal child having trouble with communication. A normal child may experience certain sort of difficulties while speaking to others, maybe, that's because his or her parents speak dual language. If that is the case, it delays the ability to speak effectively in a child. Well said.

Without a doubt, the book is a real page turner. It has noteworthy dialogues that helps a mother to tackle her problematic child with utmost care. Parents of children having difficulties in communicating with others will find this book very educating. Why Miller Method is the best?

How to reduce stress of your child and induce communication with photographs, what a parent must do when the child with disorder is aggressive? Why an autistic child needs attention than a typical child? When to use sign languages? etc is found.

Of course, there is a special implementation that must always be adopted to deal with an autistic child. Parents must make sure, the effort they undertake to deal with their children with special care doesn't go in waste. For this reason only, effective solutions for every day challenge that a parent must follow are stated clearly by means of Tips.

Verbal or nonverbal autistic child, both have to be treated using different methods. For example, in Tip #85, the authors have explained why repetition of the words help some apraxia kids speak. Definitely, the dirt song will be amusing to the ears of an autistic child. We can create more such songs to help a child with autism to speak.

Finally, this book helps the parents to grasp the strategies and techniques which include the do's and don'ts when proved that their children sure has some form of autistic disabilities. It also instills their confidence and hope.
