### 2nd: Love for Sale Michelle Hughes

"2nd is a new adult contemporary romance that contains strong sexual content and graphic language."

The second book of Love for Sale, from bestselling author, Michelle Hughes.

Seth had taken my innocence and proven that I was a sensual creature with dark desires. Those needs terrified me, but after walking away he filled my thoughts every waking hour of the day, and slid into my dreams when I slept. I couldn't eat, breathe, or even work without the memory of his skillful lovemaking overtaking my mind!

Walking back into his arms was dangerous. He had the ability to make me want things that would only bring me pain, but I was helpless to resist. Little did I know that there was something even darker than the ability to make me submit behind those beautiful blue eyes. Sometimes giving into the need for passion has a much bigger cost than the loss of principles.

With Seth my body came alive, but would he destroy everything I'd worked so hard for? My independence, career, and even the right to choose who became my lover! How far was I willing to go to be the woman he needed?

Love for sale is not your normal happily ever after romance. Step into a world where buying and selling love becomes reality and choices are no longer your own.
