Bear and Hare Go Fishing Emily Gravett

Bear and Hare are off on a fishing trip, with nets and rods at the ready. Bear loves fishing! Hare seems more interested in his picnic. But after a long wait, the two adventurers catch more than they expect in this tale of fun, friendship and fishy goings-on.

Full of warmth and humour, and starring two loveable new characters, this beautifully illustrated story from the twice winner of the Kate Greenaway Medal is sure to delight children and parents alike. Look out for more Bear and Hare stories coming soon!

From Reader Review Bear and Hare Go Fishing for online ebook

Linda says

Two friends, delighted to go fishing together. Bear does all the fishing, almost, and hare enjoys just being with bear, creating a chain of daisies and dipping into the basket for snacks while being continually surprised by what bear pulls from the water: hare's hat, a frog, a roller skate! There is a time when bear tires, takes a little nap, and the surprise ends the story. Emily Gravett's illustrations delight in this happy book, for the very young who'll enjoy predicting what comes from the pond next.

Adele says

Sweet, cute pictures, but too simple and not enough substance for me.

Barbara says

Bear and Hare gather all their equipment and head off on a fishing trip. Hare seems more interested in all the other activities, but is still game for a little fishing. Bear, who is much more excited about fishing, is not particularly successful, snagging a hat and a roller skate. Thank goodness for Hare's keen eye since the trip is saved once they catch a fish. The illustrations, created in pencil, watercolor, and wax crayons, are interesting and attractive, and young readers will enjoy seeing all the different pastimes in which Hare engages while waiting for the excursion to be over. This woman is deservedly one of the treasures of Great Britain although this book isn't my favorite among her titles.

Jillian says

A very cute little book that tells two stories. Like Orange Pear Apple Bear by the same author, this book is a good one for the kiddos who are juuuust developing a sense of humor and can pick up on the funny background events that don't quite match the text.

Could also be an opportunity for parents to remind the kiddos to make sure their friends are having fun when they do stuff "together." Hare's facial expressions really add this level of humor to the story.

Chris says

The ending is great.

Eliot Reads says

Fishing requires a lot of patience, good thing Bear and Hare have each other to pass the time together.

Rachel says

Bear loves to fish! Hare likes picnics. Together, these friends go out for a day of fun. Things do not go quite as expected though. As Bear fishes, each turning page brings a surprise; a rollerskate, a hat, but never a fish. Hare on the other hand, just can't enjoy his lunch, because objects keep landing on him. As the day passes, Bear tries and tries, but only becomes more dejected.

Neither of these friends speak a word, nor does the narrator describe their thoughts, yet we don't need these because their faces portray exactly what they feel. Hare's humourous reactions strike a great balance next to Bear's varying states. Crayons give a fluffy or gentle feel to these creatures, especially against the solid white (land), and light blue (water) backgrounds.

Simple repeating words, along with the "reveal", will engage children right up to the moment where an unexpected twist occurs. The finale, and Hare's funny involvement in it, will delight readers.

Rayneisha Doak says

The book was entertaining for its purpose, very simple read for those trying to teach their little ones word association.

Anne says

Going to try this at my 2-5 year old storytime. I think the older kids will find it hilarious and there is not too much text for the younger ones.

Christy says

Bear and Hare are off on a fishing trip, with nets and rods at the ready. Bear loves fishing! Hare seems more interested in his picnic. But after a long wait, the two adventurers catch more than they expect in this tale of fun, friendship and fishy goings-on.

Ietrio says

very cute and amusing, but i won't feel the need to pick it a second time from the shelf.

DeA says

This is a cute book from the *Bear and Hare* series where the two go fishing but bear isn't as great at fishing as his enthusiasm would lead you to believe. Poor hare still has a good time even after all of the missteps the two deal with on their trip. Recommend for any child, a great book for fishing themed activities or storytimes.

Nitza Campos says

For beginning readers

J says

Bear just wants to catch a fish, but he seems to be catching anything BUT a fish! Fun, cute, short story, perfect for toddlers.

Romelle says

I really wanted to love this book because I thought the cover was attractive and adorable with two unlikely pairs- a bear and a hare. A book on friendship and patience, but it fell flat for me. This is one of those books you don't need the text to tell the story. I'd probably rate the book higher if it were a wordless picture book. With words, I expected more. Fabulous illustrations with spare text.
