Bear this Heat A.E. Grace

A woman with a murder to solve...

In the hot desert town of Salty Springs, newly promoted detective Sasha Monroe has caught a stone-cold whodunit. The murder is grim, and Sasha is both leadless and stumped, until she receives a tip: There's a new guy in town asking questions about the police.

She tracks down this newcomer, and is taken aback by him. He's smoldering, cocky, sexy, and irritating all at once. And she's pretty certain he's connected to her murder, too.

But, oddly drawn to the man, things become tumultuous when she starts to develop feelings for him...

A man in search of the truth...

Dylan Macready is a shapeshifter. For most of his life, he thought he was the only one, until he catches the scent of another like him, a wolf, and tracks it down to the desert dwelling of Salty Springs.

A wolf in the desert is as out of place as his bear is.

But when he becomes a suspect in a murder investigation for the delicious Detective Sasha Monroe, he's not entirely displeased. Not only does the gorgeous, curvy woman make him feel a thump in his chest and fuzzy inside, but she might also lead him to the truth that he seeks.

The truth about himself: What is he?

Bear This Heat is a paranormal romance of trust and deception, of new discoveries and rediscoveries, and of budding love between fated mates.

50,000+ *BBW Shifter Romance*

Shelly Smith-Smith says

Wonderful continuation!

Sasha and Dylan were so much fun to read about. With Dylan's cockiness and Sasha's wit, their interactions were non-stop entertainment. I'm enjoying the progress with the series, and I definitely want to continue on to the next book!

Cindy Caron says

This book is the second in the Last of the Shapeshifters series, which is a spin off of Love of a Tiger. I love the fact that all of the books are told as if it was an interview with the journalist of the magazine "Monster Magazine", Circe, as well as through both POV's of the main characters. The story itself is the telling of how each couple "found each other", as they have each experienced the hand of fate with their encounters. In amongst the main characters reporting of their versions of how they stumbled upon each other, we are also given the different interviews that Circe conducts as we progress.

The author has an exceptional gift, giving us a series of stories that each relate to the other in a way that makes you want to keep reading, even after you are done. Not because the book is lacking, but because it is such a good story. Looking forward to the next book.

I received a copy of this book in exchange for my honest review

Ann says

This is another really good story by A.E. Grace. I really like her shifter based stories, the only problem I have with this series is when the story is written as 'excerpts' from a magazine article....this really kind of throws you out of the storyline and then I have to pick it up again when it flips back to one of the character POV's. I did enjoy Dylan & Sasha's story and was happy to see there was no cliffhanger and even though this is a series for the author you really do not need to read them in any order to make sense of it. I actually started this series with At Full Sprint and did not feel lost at any point. A good series if you enjoy shifter books of any type!

Rhonda Jones says

Three Threads of the Story - Unique

The way the author put the story together was unique to me. While not necessary to follow the story, I highly recommend you read the prior 2 books in the series. The prior 2 books will have some details that will make following the storyline easier. The basic story is about two people, a male bear shifter and a female police detective who meet following a grizzly murder. The bear shifter is a person of interest given he shows up on the day of the murder, and matches the murderer's description. Throughout the story is excerpts from an

interview done at some point in the future with the bear shifter and the detective regarding the events around the murder investigation. Additionally, throughout the story is excerpts from an article written from the interview notes. So we have the story told from 3 distinct points in time: 1 as they occur and told by the detective, 2 as they are told to the interviewer, and 3 as they were portrayed in the article written by the interviewer. The interviewer's focus is on the shifter aspects, not the murder investigation. I can also see where the author is going with a hopefully fourth book in the series. This story was not a cliffhanger; you will get a complete resolution. But as with life, there is always another street to explore right around the corner. I look forward to the journey.

Cindy T says

Sasha and Dylan are on the same path to find a killer. Only Sasha thinks Dylan is that killer. Something tells her that he isn't the murderer but, she knows he's hiding something.

A great read!

Deborah says

I'm looking for someone like me. Sasha is looking for a killer. We may be looking for the same person. Dylan has found someone he didn't think he'd ever find, his mate. This an interesting story with some violence, murder and some hot love scenes. Sasha is a new detective trying to work the scarce evidence in a baffling murder case. It looks like Dylan is looking for the same suspect but for a different reason. This is a good read...enjoy I did.

Miranda Beazley says

I received a copy of this book from the author. I am a member of the review team at The Paranormal Bookshelf.

Category: shape shifters, werewolves, were bears

Spoilers: No

Book 2 of the Last of the Shapeshifters series.

Sasha is a newly promoted detective and her first case is a murder. Events surrounding the murder are suspicious and she begins to believe Dylan who conveniently shows up in town the same day may be a suspect. As she follows him and talks to him her instincts tell her he can't be the murderer. Together they investigate to find out who the murderer is.

I gave this book three stars because it was a little bit confusing to get into at first. There are interviews and excerpts at the start of each chapter that I found confusing at first, especially since I started the series with this book. The ending makes sense of why this is done in the book though. The interviews and excerpts do follow the story and it's like they are reliving the events as they do interviews almost.

Michele bookloverforever says

too much sex, not enough plot.

Cassandra says

My Thoughts - 4 out of 5 Unicorns - I really liked it!!!

The cover is awesome and definitely makes me want to pick up the book :)

The author's suggested reading order straight from her newsletter says: "While there is no set order, I feel that this would be best: At Full Sprint --> Bear This Heat --> A Change To Bear --> Love of a Tiger --> Her Bark His Bite." Also a word of caution, the covers have changed, and I noticed that it doesn't show that I purchased the book since the change, so please check under manage content to ensure you haven't already purchased this awesome book....I have purchase the same book in the past because the cover changed.

This is Dylan and Sasha's story. I loved the story itself. The snippets and parts of the interviews from Monster Magazine tend to create confusion at least for me it did. It might be different if it only kept to the characters I know at this time, but when it added people I haven't even met right at the beginning....well it was confusing for me.

Dylan is funny and quirky. I love his confidence and cockiness. Sasha is a driven cop who has to put up with attitude from her boss because she is a woman. There is a murder mystery and action.

While I can't say that I loved the interview/excerpt from Monster Magazine at this time, I'm going to keep reading because the story is awesome :)

I recommend this book for shifter readers and those who love interviews mixed in :)
