The second arc of our bestselling Season Eight starts here. Top creator Brian K. Vaughan (Y: The Last Man; Pride of Baghdad; Lost) takes over writing duties and dives headlong into what Faith is up to--infiltration, assassination, and nonstop Cleveland. The fugitive Slayer is given the assignment that could change her life . . . if Giles's specialized training doesn't make her want to end it first. Artist Georges Jeanty (The American Way) remains at the top of his game--and Joss Whedon stays on as Executive Producer--in this first part of "No Future for You."

From Reader Review **Buffy the Vampire Slayer: No Future for You, Part 1** for online ebook

Thenia says

Faith is tasked with an undercover mission and in order to succeed, she needs special training by Giles that's unlike anything she's ever done before.

A new book came out earlier this month that is canon for the Buffyverse and takes place after the end of season 8, which led me to get back to this series.

I'd forgotten how much I enjoyed the Buffyverse and this one brought back a lot of nostalgia.

I'm looking forward to reading more, starting with the next part of Faith's mission in No Future For You, Part 2.

I loved this issue! Well, it's easy when you know how much I love Faith. I can't wait to see how this storyline ends and OMG cameo by the Tenth Doctor and Rose Tyler from Doctor Who!
