Cambridge IELTS 2

University of Cambridge

Cambridge IELTS 2 University of Cambridge

This collection of practice material for the International English Language Testing system (IELTS) has been specially prepared for publication by the University of Cambridge Local Examinations Syndicate. It provides students with an excellent opportunity to familiarise themselves with IELTS and to practise examination techniques using authentic test material. This book includes an introduction to these different modules together with an explanation of the scoring system used by Cambridge ESOL. The inclusion of a comprehensive section of answers and tapescripts means that the material is ideal for students working partly or entirely on their own.

From Reader Review Cambridge IELTS 2 for online ebook

Eastofoz says

Excellent if you're looking for exam practice material only. Contains 4 Advanced exams and 2 General Training (only reading and writing).

Hosein says

There is no need to praise this book as it has it's own features and qualities that they do so.

I think it's obligatory for an IELTS student to read it and takes it's exam.

I have a lot of books in this subject but none of them can be compared to this series, I mean 1-8 although I haven't read them except the first one

Good Luck with your IELTS exam

Farhad says

A good book for who wants to prepare for IELTS.
