### **Diana says**

This is the first of two books I bought for my baby. The other being Things That Go. The baby seems to like this one the best. There are lots of colorful pictures and simple language which is good for a baby book. The "feel" patterns in the book are too small and should take up more of the page. It's too difficult to get baby to actually feel the textures because they are so small.

### **Kathy says**

A board book about shapes and colors. Not much to touch or feel on most of the pages.

### **Adam James says**

Nothing to see here - just padding my 2017 reading list so I can reach 100 books. Shhhhhh, don't tell...uh...God...?

### **Molly says**

It was a bad touch and feel too small and not much texture. The shapes and color were too few and you did not know they were changing when they began to change. Yucky. Ages Birth+

### **Kaydee says**

Baby loved it!
