## **Deadly Secrets** Savannah Hartley

*This is an alternate Cover Edition for ASIN: B073JSYF4X.*

Jamie Dexson is like any twenty year old boy, with the sole exception that he has been living for the past four years as a girl.

Fleeing from a dangerous situation, Jamie and his mother have been on the run, but when his disguise begins to be more trouble than it's worth, can Jamie find the strength to escape from the arms of the predator seeking to make him his?

From a life of deciding what high heels to wear with which outfit, Jamie falls into a world of dragons, vampires, werewolves and shape-shifters... And he's one of them, but which one?

*CONTENT ADVISORIES: This title contains scenes of rape or near rape and a "to be continued" ending.*

## From Reader Review Deadly Secrets for online ebook

### **LaShonta says**

Ok, I don't really know what to say about this. I don't even really know how to rate it. The first half of this book was boring as hell. You have no clue what is going on and all the chapters are about his life as a girl in college. It didn't really start to pick up until 78% of the book. I don't want to give too much away but you don't really find out anything until then.

So, if you can handle boring until the book is almost over then I say go for it. Once we find out what is real and what isn't it picks up and then bam its over! The ending, even though I know was a to be continued one pissed me off. You go through 78% of boring to damn its over with tons of damn questions. The epilogue was a joke. It wasn't one at all.

With all that being said, now that the boring is over, I'll most likely read the second one to get answers to my questions. I just pray it continues from that 78% and not go back to boring!

---

### **Betryal says**

So many unexpected twists and turns in the story plot and in all honesty it took me for one heck of a loop. It really goes out of the box and beyond this world in fiction. Literally.

All in all I enjoyed this story even for the whackiness and I know there's a book 2 in the works and I sure can't wait for it.

Little secret? The ending surpasses as a cliff-hanger for me that's left me knocking on the author's door and saying: Hurry it up already!

---

### **Mandy says**

I really want to read this book, but with a cliff hanger ending and no news of the sequel 3 years later, there's no point getting involved.

---

### **Natalia says**

4.5 stars

---

## **Nikyta \*Miss Forgetful\* says**

### **4.5 stars**

I put off reading this book for a while because of the 'to be continued' ending. The cover intrigued me so much I just couldn't hold off anymore and I'm glad I finally read it.

Right from the start I was drawn into the story because Jamie was an interesting and intriguing character. I was trying to figure out how this story would go, how it would progress and where it would end up but I could never predict it which is another reason I enjoyed this story. It's so filled with twists and turns, shocking and gory moments, and weird conflicts and creatures. Honestly, I was so enamored with this story I sulked for a few days because the sequel wasn't out yet.

I just couldn't get passed how much I enjoyed this book. It's not really a romance but there is a bit of sexual tension between Jamie and another. I loved the characters because they're funny, cute with just a hint of being dangerous. The world this is set in is both different and intriguing because it spins a unique tale on the traditional paranormal creatures while adding some mythical creatures as well. The conflict is a bit predictable in the whole running for your life type thing but it's also given its unique spin on it all.

Of course, while I loved the book, it wasn't without its faults. For one, while the journal entries were interesting, I kind of got annoyed with them because they happened right when I wanted more of something else to happen. Another thing is the first half of the story was solely from Jamie's POV then second half other POVs are thrown into the mix (even secondary and third characters) which led to a bit of head-hopping whenever there was more than one person in the scene. There was also the fact these 'students' who are in college seemed more like high school prima donnas and adolescents than mature adults.

In the end, I'm glad I finally read this one. It was something I very much enjoyed. I'm really looking forward to the sequel and I hope it comes out quick because I desperately want more of this world and these characters!

## **Kathy says**

This is incredibly difficult to rate. I would give it 3.75. My \*major\* problem with it is that the setting is during college and yet it seems like high school. Not only that, all the characters talk like they're out of an anime/manga. No one says boobies in college (I let this slide after we learn about this character later on which may forgive all her dialog, maybe) or talks about love confessions or lovey dove. No one in real life is like "omg you're a b cup!?" Come now. Or even the whole "the boys are playing shirtless, girls let's all go down and squeal in their presence!" These are all overused (and sexist) representations of characters from anime/manga. I kept head smacking so much the first 70 or so pages. As I write this, I want to round the stars down to 3 just due to these issues. God, maybe even a 2. I liked the story enough to round up but barely. I wait for the next book because as least (view spoiler)

Edit:

Forgot to mention, these people are supposedly 20 (at least Jamie definitely is) and yet they use boy? "The boy over there. I'm a boy. Oh no he'll realize I'm a boy." I'm 23 and I know no one from the last few years who referred to themselves as a boy. None. In a college setting: none. Yeesh. That also just about drove me

crazy - if you're going to write how early 20-somethings speak, please do research!

Edit:

Decided to remove my rounded up star based on above edit, with the other examples of non-college/US/English speech patterns. I believe this takes place in the US? Author is American but I guess could be any English-speaking country.

### **Letti says**

I was iffy on reading this book I have so many books on my to-read-list that I've been wanting to read but something told me to read this first and boy was I surprised... There are so many twist and turns, Wondering who was telling the truth and who you can possibly trust, can your friend be your possible enemy... I was left with my mouth hanging open literally..

This book is so entertaining that I did not care that there was no romance or HEA or whatever the only thing I cared about is when book two was being released...

---

### **Cole Riann says**

Wow, I still don't know what to say and I read this over a week ago. While I found the story pretty fascinating overall and definitely look forward to further installments, I had some pretty significant dislikes. There's no romance here, though apparently there will be in the next book. The problem with that is that for most of the book I was thinking, who the hell is he supposed to even end up with? I didn't like the guy either. In fact, I pretty much didn't like anybody except Jamie and Asa. Also, I thought the first half of the story could have been cut down a bit. Either that, or throw me a bone every now and then to keep me from ripping my hair out in frustration! I was pretty confused with all the details... still am actually.

Still, I made it through all that and more and still found the story hella exciting. It's a pretty interesting premise and the story definitely doesn't let up. It's pretty much GO GO GO, which may be why I constantly felt like I was missing something. Anyway, I think that with a little romance to balance it all out in future books, I'll be much happier :) That is if I end up being able to tolerate Ethan and Aidan!

---

### **Saskie- says**

If not for the last quarter it would get only one star >>"  
I disliked Jamie, such an unpleasant person -\_- only yelling on everyone...  
always...ugh \*shudder\*

---

### **Lexi Ander says**

This was such a great surprise.

I was gearing up to hate the people who were making Jamie dress up as a girl because it becomes very clear that it is not his idea. Before I knew it I was sucked into his world and his unique life as it was slowly revealed. The plot kept me guessing, good guys, bad guys, were there any good guys? Who is Jamie? What is Jamie? Is Jamie going to run? I was snared, engaged, and I could not put it down. When I did finished I turned around and started recommending it. I don't recommend many books but this one, defiantly!

Somethings you should know, the romance is second to the plot in this first installment. Jamie has a crush, a love interest who makes him absolutely weak in the knees and with his current situation he doesn't feel it is right to bring someone into his life. He's pretending to be a girl. Just imagine how many ways a date can go wrong. All that aside, at any minute he may have to leave and he doesn't want his heart broken. So this means there is no sex in this book. I can see it in the future but it really wouldn't have been appropriate in this one. It is so well done, I didn't even notice.

There is a secondary story with Ethan, the young man who through a series of oops becomes Jamie's friend. His story is heartbreaking and tragic but it is not written in a way to bring you down. Ethan is strong of character and finds in Jamie someone he can trust even if Jamie is not what he appears to be on many levels.

Take the CONTENT ADVISORY seriously. There is an attempt at a rape and a mention that it isn't the first time. This was handled with finesse. The attempt was quickly and satisfactory terminated (in my POV) (view spoiler)

This is a "To Be Continued" which may make some people wait. Don't. Please Don't. Everything is loosely tied. I was very satisfied with the ending because Jamie was exactly where I wanted him to be. So don't wait! Read it now!

---

### **Shannon says**

Holy crap. A book with no sex that I actually couldn't put down. It was fascinating and the end of the book was only the beginning of the real story so now I've got to keep going. Yay! Jaimie is so twinkish and Aiden is so larger than life, I've just go to see what happens next. It's definitely a paranormal book but not the norm and I'm still not quite sure what everyone is. Hopefully I'll get it straight in the next book.

---

### **315 says**

Ugh it ends in a cliffhanger!!! How did I miss that. A cliffhanger of 3 years. Marking this down a star for such a long wait and no sex. This is in no way a MM Romance book. Hell there isn't even MC couple.

---

### **Ayanna says**

Melodramatic and annoying. It was, however, mildly amusing in a "I can't believe what I'm reading" sort of way (hence, the second star). Not my cup of tea, as it were.

---

### **Absynthe says**

I absolutely loved this book!!! The author has stepped away from the completely formulaic nature of most m/m books and written something really original. The end was a total roller coaster that I didn't see coming. Kudos to the author for surprising me and keeping me on the edge of my seat.

Really fantastic! Can't wait for the next book!

---

### **Chris says**

1.5 stars. The saddest thing about this book is that there's the hint of an interesting story buried deep, but even though this ended on a cliffhanger, I'm not inspired to read more.
